## MUNICIPAL REGULATIONS

FOR PAYMENT OF BILLS AGAINST THE CITY.

---

All persons furnishing materials or service for the city, or aid to the city poor, should be particular to take the name of the person ordering such service, material, or aid, and should *know* that the person is duly authorized to contract said liability.

The city will not be holden for merchandise sold or delivered on city pauper account, except on the written order of the Overseer of the Poor, and for no longer time than until his successor shall have been appointed and qualified.

Duplicate copies will be required of all bills payable by the city, furnished on county pauper account.

All bills against the city must be approved by the person authorizing the charge; and unless this is done, no action can be had upon the bill by the Committee on Accounts and Claims, and no order will be given for its payment.

Bills so certified should be left with the City Auditor on or before the second day of the month.

If approved by him and by the Committee on Accounts and Claims, they will be ready for payment on Thursday following the regular monthly meeting of the City Government.

The regular monthly meetings of the City Government occur on the second Tuesday of each month.

GEORGE K. HAZELTINE,

*City Auditor.*

## MAYOR'S ADDRESS.

---

*Gentlemen of the City Council:*

The opening of this municipal term occurs at the beginning of a new century. It is especially desirable that our management of city affairs shall compare favorably with those of preceding administrations and with those which will come hereafter.

Next April will complete forty-eight years of municipal government in Concord. The change from town to city organization was accomplished only after strenuous opposition, three trials at the polls being necessary to secure the adoption of a city charter. Since the adoption of the charter the affairs of the city have progressed steadily. Our population has more than doubled, our voters trebled, and our valuation quadrupled. The care and protection of the interests of the city bring serious responsibility. In the performance of our duties it will be necessary to bear in mind that the people of Concord have a right to expect a high degree of efficiency in their public officials, and it will be only by persistent effort, with an eye single to the welfare of the city, that their expectation can be realized.

At the outset, I desire to express my great appreciation of the honor which has been conferred upon me by my selection as chief magistrate of the city.

I fully realize that the position to which I have been called, through no desire of my own, is one of the most difficult and troublesome which exists in the state. It would undoubtedly be much more comfortable for me personally, if I could have seen my way clear to avoid the responsibility which now devolves upon me. Not feeling it advisable to do this, I

accept the situation with all the difficulties and perplexities which are involved and will endeavor to emulate, so far as possible, the many worthy men who have preceded me in the office.

There is nothing on earth so contemptible as a man who tries to go through life without incurring responsibility. The conduct of human affairs requires that some one must bear the burdens and be accountable for the results. This duty now devolves upon us. How well we shall be able to perform it, the future must determine.

#### FINANCE.

It is not my purpose to go into details in regard to the figures which make up the statement of the financial condition of the city. The report of the city treasurer, which will be laid before you, furnishes all these details in a comprehensive manner. It appears that the

Funded debt of the city, including Union School District and City Sewerage Precinct, and excluding the Penacook, West Concord, and East Concord Sewerage debt, for which a sinking fund is provided, amounts to . . .	\$186,800.00
Debt not funded . . . . .	9,986.09
Total . . . . .	<u>\$196,786.09</u>
Water-Works bonded indebtedness . . . . .	\$650,000.00
The total expenditures of the city for all purposes during the last year, according to the figures of the city treasurer, were . . . .	\$322,865.01
To the appropriation that must be made to meet the ordinary running expenses of the city we must add enough to provide for Union School District bonds due July 1, 1901 . . . . .	\$15,000.00
Union School District bonds due July 1, 1902 . . . . .	\$15,000.00

The utmost care must be used to prevent an increase in expenses. The tax rate is already as high as is desirable, although less than in many other cities. The credit of the city stands very high, as is evidenced by the fact that during the last year three per cent. bonds of the city have been disposed of in the Boston market at a premium. The experiment of abolishing the discount on taxes and providing for the necessities of the city, before the current taxes are available, by temporary loans, seems to have been a good one for the city. The difference between the amount paid for interest on temporary loans and the amount discounted upon the taxes paid, estimated upon the basis of the discount in 1898, the last year when the discount ordinance was in force, shows a considerable balance in favor of the city during the last two years.

#### ASSESSMENT OF TAXES.

The proper assessment of taxes is a matter of the greatest importance and has been frequently referred to, in vigorous language, in inaugural addresses of preceding mayors. Notwithstanding this fact, I have good reason to believe that great inequalities exist in the present assessment of property for taxation and that some radical measures will have to be adopted in order that all property shall bear its just and reasonable share of the public burden. It has been truly said that "no more important office exists in the city than that of the board of assessors."

It is the duty of the full board under the law to fix the valuations, and no member of the board can escape full responsibility for inequalities in valuation, even though made by the assessor of some other ward. If it is impracticable for the full board in the first instance to make up the valuations in each ward, they should carefully examine and revise all the estimates of value made by the assessor of a particular ward. The board of assessors should be composed of men who have accurate judgment of property values and who are fearless and independent in the performance of their duties.

It is a matter worthy of serious consideration whether the method of selection of assessors ought not to be changed. A board of nine assessors is unwieldy and too large for a satisfactory performance of their duties. The sense of responsibility resting upon each individual member of the board is far less where it is distributed among nine members than it would be if the responsibility were upon a smaller number. Speaking in a general way and without intending to refer to the present board of assessors, it seems doubtful whether the present method of selecting assessors by election from each ward is likely to secure as good results as if some other method were used.

In considering this matter, I thought it might be useful to ascertain the method of selecting tax assessors in other cities, and accordingly I caused an investigation to be made as to the course pursued in several cities in Massachusetts. The result of this investigation leads me to believe that there is a chance for great improvement in our manner of selecting assessors as well as the number of members of which the board should consist.

In the city of Chelsea, the taxes are assessed by a board of three assessors, one being elected by the board of aldermen each year. The chairman receives \$850, and the other members of the board \$550.

In Fitchburg, the board consists of three assessors, one being elected each year by the city councils.

In Waltham, the board consists of three assessors appointed by the mayor and confirmed by the board of aldermen. The annual salary of the chairman is six hundred dollars, and of the other two members of the board five hundred dollars.

In addition to the board of assessors there are seven assistants appointed each year, one from each ward, to take the polls, who each receive three dollars per day for two weeks.

In Malden, the board consists of three assessors, one member being elected each year by the city councils. The board elects its own chairman and the members have a salary of five hundred dollars each, the chairman receiving one hundred

dollars extra. In addition, there is a clerk, not a member of the board, who receives \$1,200 a year under the civil service law.

In Somerville, the board consists of five members appointed by the mayor and confirmed by the board of aldermen, and their terms of office are so arranged that either one or two members of the board are appointed each year.

In Holyoke, the board consists of three members, one member being elected by the city councils each year.

While the population of some of the cities mentioned varies considerably from that of Concord, there seems to be no reason why they may not throw light upon the question under consideration. The selection of these particular cities in the investigation, which I caused to be made, was entirely at random and with no idea on my part as to what the result would be. It seems significant that in not one of these cities are members of the board elected from the different wards, and in all the cities mentioned, except one, the board consists of not over three members.

It has been suggested that it might be advisable for this city to have a board of three assessors, one member to be appointed each year either by the mayor and confirmed by the aldermen, or directly by the board of mayor and aldermen; or by the city councils; or elected upon the general city ticket.

As the legislature is now in session an opportunity is afforded to make any change which seems advisable in regard to the number of which the board shall hereafter consist and the method of selection.

While a radical change in the city charter, in this respect, ought not to be made hastily or without due consideration, I suggest whether it would not be wise to obtain from the legislature authority to make such change provided the city councils subsequently vote to accept such legislation. By doing this it will not be necessary to delay until the next session of the legislature, in case the change is desired, and it will give sufficient time for the city councils to thoroughly consider the whole question.

I invite your immediate attention to this matter.

## HIGHWAYS.

The matter of "good roads" has received constantly increasing attention in the last few years. Among the many important and valuable ideas which our recent governor has developed and promoted with a thoroughness and ability which has made him prominent in his official position, there is none to which he has devoted more attention or which is of more practical value to the state than the matter of good highways, and there is nothing which is of more importance to the welfare of any city or town.

I wish that it was possible for this city to make an attempt to embody some of the ideas which he has so forcibly expressed by a practical application to the future construction and repair of our highways. Unfortunately the present rate of taxation of most cities and towns is so high that it is doubtful whether the scientific method of constructing and repairing highways can be adopted, for the present, at least, without a material and substantial contribution from the state towards this object. I should be glad if this administration could be made memorable by an attempt, even on a small scale, to furnish an object lesson in proper road construction and repair. But the financial condition of the city is such that it does not seem wise to attempt anything more than to expend as judiciously as possible the amount appropriated for highways on the same general lines as it has been in recent years.

It is a matter of regret that many of our streets were originally laid out with little or no plan. During the last few years many streets have been laid out at the suggestion of landowners who desired to make their lots more valuable for sale. These streets were laid out with no reference to existing streets or highways, so that we have miles of streets which form no part of a direct line of travel from one point to another, and seem to be in detached portions with reference to the main thoroughfares. This method of laying out results in a great number of unnecessary streets, which adds largely to the expense of keeping highways in repair, and serves no good purpose.

I would suggest that, whenever applications are made for the laying out of a new street, the parties making such application should be required to file with the city engineer a plan of the land surrounding the proposed highway, which should show where said proposed highway is located with reference to existing streets. If this is done the matter of laying out proposed new streets could be considered not only with reference to the private property affected thereby, but also with reference to existing streets and some general plan. By this method, a good many unnecessary streets can be saved and such as are laid out will be in accord with the general system of streets.

The protection and care of shade trees is a matter of great importance. It adds greatly to our enjoyment in the use of highways and to the natural beauty of the scenery to have the roads well shaded by trees suitable for that purpose and which are well cared for.

The commissioner of highways, in whose immediate charge this matter rests, should give constant attention to this feature of the highway and should see that no shade tree is destroyed except when the destruction is absolutely necessary for the proper use of the highway. It is a fact not generally understood that if any owner of real estate desires to remove any shade or ornamental tree situated within the limits of a public street, he must first obtain leave of the proper authorities. In many cases owners of real estate not having this provision of law in mind destroy trees in the street in front of their premises. In cases of this sort, the commissioner of highways should give his immediate attention to the matter, and see that the destruction or removal of such trees is prevented until the propriety of their destruction or removal is determined.

In the absence of the detailed report of the commissioner of highways, I shall only allude in general terms to the present condition of the streets and highways and their future needs.

I am informed that with one or two exceptions the country roads are better than they have been for some time. The

road leading from Concord to Loudon is in bad shape and a considerable sum will be required to put it in fair condition. Many of the old bridges have been replaced with new ones and only a few smaller ones remain to be rebuilt. Although many new streets have been laid out in the last few years, very few have been constructed and they remain in the same shape as they were when accepted by the city.

One of the most satisfactory kinds of material that has been used in this city for the surface of streets seems to have been coal-tar concrete. In 1896 Warren street from State to Main street was paved with this concrete and it has proved far superior to that portion of Warren street between State and Spring streets which was macadamized.

The portion of Main street, north of School street, which was paved with coal-tar concrete a number of years ago, so far as I am aware, has given good satisfaction. I am informed that the first cost of the concrete is much less than granite blocks although it is not as durable. It is certainly much more satisfactory for the ordinary purposes of light travel while it lasts. Of course a pavement of granite blocks is less expensive in the long run on account of its superior lasting qualities.

#### PUBLIC SCHOOLS.

Our public schools maintain their high rank as a factor in the prosperity of the city.

As the little education which I possess was acquired in the public schools of this city, I have peculiar reasons for having their interests much at heart.

I have reason to believe that the executive management, by the superintendent, by the board of education, and also by the departments of instruction, is very efficient and that our schools are not second, either in the acquirements to be derived therefrom or in the method of furnishing means for such acquirements, to similar schools in other cities. The expense of maintaining our public schools is very large, and yet the result accomplished seems to warrant the expense involved.

If I had any criticism to suggest as to the public schools or their management, it would be that *too much* is attempted to be accomplished. While a desire to accomplish everything possible and to excel all others in similar undertakings is a familiar feature of the modern competitive struggle in every department of life, I wish that it did not enter into the practical conduct of our school affairs. To me it would seem more satisfactory if our schools should furnish a reasonably substantial practical education without impairment of the health of the pupil, than that they should excel the schools of all other cities in the state in percentage of rank attained.

It is but natural, perhaps, that teachers and managers of public schools desire that the schools under their charge shall excel all others, for such a result is very apt to be accepted by the public as conclusive evidence of the ability and efficiency of school management. It is a matter of common knowledge that quite a number of pupils who attend public schools here and elsewhere are unable to pursue the course of study prescribed without injuring to some extent their bodily or mental health. It is gratifying to know that our educational authorities are recognizing the importance of preserving the health of the pupil and are devoting more attention to physical culture and exercise than was formerly the case.

#### PUBLIC LIBRARY.

During the past year the public library has received the accumulations of the Seth K. Jones trust fund bequeathed for the purchase of new books, amounting to \$875.43. This will be a welcome addition to the funds of the library and will add considerably to its usefulness. By the terms of Mr. Jones's will, the library will also receive each year for the purchase of books between \$14 and \$15, which is a portion of the income of a one thousand dollar bond.

The library is well patronized and appreciated. The circulation during the present year has exceeded 88,000. I am informed that the reading-room in connection with the library

has been very extensively used. It is a matter for congratulation that the facilities and equipments of the library are so satisfactory, and nothing but praise can be said in regard to the management.

The usual appropriation should be cheerfully granted.

#### NEW CITY BUILDING.

The necessity of a new city building has been generally admitted for more than twenty years. One objection which has been urged is the city's ownership in the present city hall building.

In 1885 Mayor Woodman in his inaugural address, speaking of the city hall building, used the following language: "The building is poorly arranged and entirely unsuited to our growing wants. Its location is objectionable and it furnishes very small return for the investment there made. The only room which it provides for office purposes is that of the city clerk; all the other offices being scattered about the city as accommodations can be found.

"The hall itself in which we are now gathered is but little used except at the biennial election and could easily be dispensed with. As the county officials are now being urged to provide better accommodations for the courts, it seems as if the time had arrived for us to negotiate a sale of the city's interest in the building and provide for all the city offices under one roof."

The above language of Mayor Woodman states forcibly the situation as it existed in 1885. Since that time the situation has not changed for the better. It is true that some of the city officers are now provided with an office in the police station building instead of being scattered about the city as they were formerly. But the accommodations for these officers in the police station are cramped and not well adapted for the purposes for which they are used. The situation in the city hall building has grown worse than it was in Mayor Woodman's time. The recent increase in the number of members of the city government requires more space in which to hold

city government meetings and there was hardly enough space before the increase of membership. It is evident that something must be done immediately to provide proper quarters for the transaction of the city's business. The only practical plan seems to be the erection of a modern building which shall be designed for the purposes for which it is to be used. The location of such a building is an important and troublesome question. It has been suggested that it might be erected upon the present city lot in the rear of the police station, thus saving a large amount of money which would be required for the purchase of a suitable lot. On the other hand, it has been suggested that the city lot is not suitable for such a building as should be erected and that a lot should be purchased in some convenient location. The problem is a difficult one and involves the expenditure of a large sum of money. As the benefit to be derived from the new building would be chiefly received in the years to come, it seems to me proper that the expense caused by the erection of such a building should be met by an issue of long time bonds. An addition to the interest-bearing debt of the city is not desirable, yet I see no other practicable way of providing for the expense of this absolutely essential public improvement.

As is generally known, the ownership of the lot on which the present city building stands is divided between the county and the city, the city owning about three fourths of the land and one half of the building and the county owning the balance. It is understood that a small portion of the land comprising the city lot was conveyed, subject to the restriction that it must be forever used for city purposes. Some arrangement may have to be devised by which this restriction can be removed, if it is thought advisable for the city and the county to sell the lot as a whole. It may be that some arrangement can be made with the county by which the city shall either dispose of its interest to the county or the county dispose of its interest to the city. It seems desirable that a committee be appointed by the city government with power to confer with the county commissioners or some committee to be appointed by the Merrimack County delegation in the present

legislature with a view to ascertain what arrangement can be made that will be satisfactory to the county and the city. An arrangement of this sort is a prerequisite to taking any action with reference to the erection of a new city building.

I invite your attention to this matter and suggest that a resolution be passed as soon as possible providing for the appointment of a committee to represent the city in this matter.

#### INDUSTRIES.

While some of the industries of our city are in a fairly good condition, there are a few which have had a hard struggle for existence during the business depression of the last few years. It is to be hoped that this struggle is now over and that they will enter upon a period of long-continued prosperity.

So far as the city government in any proper way can aid the industrial concerns of Concord and the workingmen whom they employ, I am heartily in favor of such aid and support being furnished. The prosperity of this and all other cities and towns depends very largely upon the success, comfort, and prosperity of the workingmen. They have been its mainstay and dependence in the past and always will be and to them we must look more especially for the development of its industrial enterprises.

In accordance with the recommendation of preceding mayors, I desire to urge upon your attention the importance of the city government doing everything in its power toward procuring the building of a railroad into the stone quarries. If this can be brought about it will undoubtedly greatly enlarge the granite industry and thereby be a source of great benefit to the owners and workmen employed in these industries as well as to the merchants of our city.

The Commercial Club has been of great benefit to the city. It has been well managed. The members have given freely of their time and services to advance the interest of the city and have been reasonably successful in their efforts. I trust that its organization will be continued and that citizens generally will interest themselves in perpetuating it.

## WATER DEPARTMENT.

The condition of the water department is in general excellent. The work of replacing the cement lined pipe with cast iron pipe is gradually going on and will probably increase as each year goes by. It is necessary to replace from year to year the insufficient supply and continually disintegrating cement lined pipe with cast iron pipe and accomplish by degrees what many cities have been forced to do at short notice.

The city of Fitchburg replaced its entire system with cast iron pipe at great expense, not daring to run the risk involved in continuing to use the old cement lined pipe.

Our pipe has been in constant use for twenty-eight years and each year serious breaks occur. The city has increased largely and the South and West ends are growing to such an extent that the old pipe is not sufficient to supply the water taken in those sections. The city is absolutely dependent on its water system and good judgment requires that it should be equipped in the best possible manner and that extensions should be made from year to year so that the present permanent indebtedness of the water department shall not be increased.

Prior to the last two years the city has paid to the water department the sum of six thousand dollars for hydrant service.

At the commencement of the last municipal term, the appropriation for this purpose was omitted and nothing has since been included in the taxes raised. It seems to me that the hydrant tax is a just tax and as legitimate as the tax for the fire department. It also seems clear that if this item is not included in the taxes raised an unjust burden is thrown upon the water takers, and that certain owners of property are relieved from the payment of their share of expense incurred for fire protection furnished to their property which they ought justly to bear.

The proposition, briefly stated, is this: The city has, at a large expenditure, laid miles of pipe, a portion being solely for fire protection, and unless it receives some compensation for its hydrants, it gets no return for this part of the system.

The water takers pay for the water which they use for domestic purposes, but there are a large number of people within the limit of the fire precinct who, either for the whole or a portion of the time, do not take any water and so pay nothing at all to the city.

Some of these people live in the outskirts of the city where they have wells or springs and do not need the city water and some of them are within the thickly settled part of the city, but the buildings which they own are vacant and so no water is used, yet all their buildings receive the benefit which the water affords for protection from fire. Merchants who own large stocks of goods also receive this protection, but not being water takers to any extent pay practically nothing for the water furnished for this purpose. It seems just that their property should pay its fair proportion for the benefit so received instead of putting the burden upon the people who pay the water rates. The only way the property owned by these non-water-takers can be reached is by a hydrant tax assessed upon all the property in the precinct. The assessment of a six-thousand-dollar tax for hydrants is an equal distribution over all the taxable property of the precinct. It should be borne in mind that the revenue derived from the hydrant tax also aids in paying a portion of the bonded indebtedness each year.

Since 1889, when the hydrant tax was abated, the water bonds have been extended by new issues instead of being paid when they become due as heretofore.

I recommend that the hydrant tax be restored.

#### SEWERS.

The general sewerage system has been substantially completed, and there seems no reason to expect that extensions or additions will be needed in the near future. It appears, however, that the city engineer, on March 8, 1900, communicated to the committee on sewers and drains, in writing, his opinion that serious defects in the capacity of many sections of the present sewerage system have been found. This condition, according to the city engineer, is principally due to

the general extension of the districts without providing enlarged outlets for the thickly settled territory to be drained. The communication of the city engineer sets forth in detail the different sections which he regards as inadequate. They are located all over the city, and he estimates that to make the changes and repairs which he recommends would involve an expenditure of over \$21,000. While he is of the opinion that these changes and repairs should be made as soon as practicable, I do not understand that he regards it as absolutely essential that any must be made at once except the construction of a short section of twenty-four-inch pipe on North Main street from Warren to Depot street at an estimated cost of \$600.

The details of his report will be laid before you for consideration.

#### STREET LIGHTING.

The matter of *street lights* is one of much importance. While there are, doubtless, many places which are not now lighted where it would be desirable to have a street light, if it could be accomplished without too great an expense, we must make haste slowly in this direction. The expense for street lighting is already quite large, and the tax rate is so high that in many cases we may be unable to furnish additional street lights where they may seem to be needed. The expenses of the city are constantly increasing, and while there should be no disposition to be parsimonious or niggardly, our constituents have a right to require of us that we make every effort against any increase in the tax rate, and to attempt, if possible, a reduction thereof.

In regard to the present street lighting, I have no reason to believe that the company which furnishes the light under the contract with the city do not honestly and fairly try to carry out their contract according to its terms. But I am informed that there is some complaint that through irregularity of the power which furnishes the electric current, or defects in the apparatus by which it is furnished, the lights are frequently

out in different parts of the city and remain out for a considerable period of time, so that light is not furnished in those localities to the extent agreed upon. I trust that whatever the cause of this failure to furnish the lights continuously, whether mechanical or otherwise, it will soon be rectified, so that the lights will be furnished regularly to the full extent agreed upon in the contract.

I would suggest that for the purpose of getting definite information on this subject all police officers be instructed to keep a record showing the period of time during which they find the lights extinguished in different parts of the city.

A record of this sort will place the city council in a position to either demand that a proper reduction be made from the contract price for the failure to furnish the light agreed upon, or to take such other action in regard to the matter as may seem proper to protect the interests of the city.

#### WIRES AND POLES.

Considerable complaint has been made that a large number of dead wires and unused poles encumber the streets of the city. If such is the fact, measures ought to be taken to compel their removal. The many wires and poles in the streets which are now in actual use are an obstruction and a source of danger to the public. There are many places in the city where it would be difficult and dangerous for the fire department to properly perform its duties, in case of fire, on account of these obstructions.

I recommend that as soon as practicable, action shall be taken to investigate and ascertain what poles and wires now erected are in disuse, and that measures be taken for their immediate removal. It is a matter for serious consideration, and to which I invite your attention, whether all the wires used for telegraph, telephone, and electric lighting purposes should not be required to be placed in conduits underground.

#### POLICE DEPARTMENT.

An efficient police department is requisite in every city for the safety of individuals and the protection of property.

It is self-evident that experienced men are much more effective as police officers than new men can be. A fixed tenure of office, so that an officer is not liable to be removed to gratify political or personal spite of an individual or class, tends to make an officer fearless and energetic in the discharge of his duties. It is undoubtedly the fact that men on the present force, with the experience derived from years of service, can accomplish more than would be possible to new and untried men however zealous they might be. The duties of police officers at best are difficult and unpleasant. Ordinary common-sense would suggest that all good citizens, who have the interest of the city at heart, ought to sustain and encourage the members of the police department rather than to indulge in indiscriminate criticism. An expression of distrust or loose talk as to the honesty and efficiency of a police or other public official who is in fact honest, naturally makes such official much less sensitive to the demands of that healthful and enlightened public opinion which is an incentive to the faithful performance of public duties and one of the safeguards of our institutions. In my judgment, this city from the beginning has been very fortunate in its police department, and I have heard no well-founded complaint as to the efficiency and trustworthiness of its members. If, in the administration of affairs, experience shall show that any official, whether in the police or any other department, is unfaithful or untrustworthy, so far as I have the power he will be held to a rigid accountability.

The act establishing a board of police commissioners for the city of Concord was approved February 23, 1893. The purpose of this and similar acts which have been passed, as generally understood, was to remove the control of the police force from politics and to create a tenure of office for the individual members which would not subject them at each election to the vicissitudes which frequently occur in city elections. In my judgment, some changes can be made in the police commission act which will be of advantage to the city.

The present act provides that the members of the police force appointed by the commissioners shall serve during good behavior and while competent to discharge the duties of the office. This, in effect, makes it impossible for the police commissioners to reduce the number of the force unless it can be shown that the member whose removal is desired, in order to make the reduction, has failed to discharge his duties properly or is incompetent by reason of physical or mental disability to perform his duties. I would suggest that an amendment to the act be procured, authorizing the police commissioners to remove members of the force whenever, in their judgment, the public good requires it. Under such a statute, police officers would still have a reasonable tenure of office, because the political success of one party or another in the city election would not affect them. On the other hand it would afford a reasonable opportunity for the removal of members for the purpose of reducing the number, and also an opportunity to remove a member in cases where the board of police commissioners, in their judgment, are satisfied that such member should be removed, even although no want of good behavior or physical or mental disability can be shown.

The report of the city marshal, showing details relating to the management of the police department during the last year, will be laid before you. It contains several recommendations, to which I invite your attention.

#### FIRE DEPARTMENT.

I can say nothing except in commendation of the fire department. Under its present management, its affairs, in my judgment, have been administered with strict economy, and first-class ability and efficiency. The members of the department show a surprising interest in its affairs and attend to answering alarms and other duties with commendable promptness and zeal. When the amount of difficult and dangerous work which they render to the city each year is considered, it is to be regretted that the compensation of the "call men" is not larger than it is. If the tax rate was not so high, I should favor an increase in this particular.

In 1886 the expense of maintaining this department was about \$12,000. It is now over \$20,000.

The increase in expense since 1886 is quite large, but I think that the result fully justifies it. The department seems fully adequate to present needs and probably for a good many years in the future.

It appears from the report of the "chief" that there has been some unusual expense during the last year which will not be likely to arise during the present year. He suggests that the non-interference armatures in the fire-alarm boxes, just purchased by the city, are unreliable, and such boxes should be converted into Gardner boxes without delay. The estimated expense of this change is about \$600. I recommend that this matter be given immediate consideration by the committee on fire department.

There are various other recommendations made in his report to which I invite your careful attention.

While I have not sufficient knowledge of the subject to express my opinion upon these recommendations, I have the utmost confidence in the purpose of the "chief" to perform his duties with economy and with an eye to the interests of the city, and am therefore satisfied that his suggestions are of weight and should be given proper consideration.

#### CITY HISTORY.

From the report that has been made by the history commission it is gratifying to learn that progress is being made with the work of writing the history and that it is nearing completion. The city is to be congratulated that this important matter is in such excellent hands. There is nothing of greater interest or importance to the people of any city or town than an accurate and well-written history of its events. It is now expected that the history will be ready for delivery during the present fall, although in a work of this kind it is impossible to foresee many contingencies which may arise to delay its publication.

It goes without saying that the city is greatly indebted to the members of the commission who have generously given their time without compensation for this commendable object.

#### SUSPENSION OF RULES.

The rules of the board of mayor and aldermen and common council heretofore in force provide in substance that every ordinance, order, or joint resolution shall be read a first time for information, shall then be read a second time, if not rejected or otherwise disposed of; shall then be referred to a committee; shall have a third reading when reported by the committee, and shall then be put upon its passage. These rules were manifestly designed to secure careful consideration of all matters on which action of the city councils was contemplated and to afford an opportunity for mature deliberation in regard to such matters. During the last few years a practice has grown up by which that portion of the rules which requires the reference to a committee is in most cases suspended and ordinances and resolutions are read three times in succession and put upon their passage. It seems to me that this is unwise. There may be cases where immediate action is so necessary that a suspension of the rules is advisable, but it ought to be the rare exception instead of the regular practice as it substantially is now. There will probably but few matters arise which will suffer from the delay caused by referring such matters to the proper committee and allowing them to lay over for a month. Such a course will give the members of the city government an opportunity to ascertain the feeling of the people upon public matters before them, as well as give the members themselves sufficient time for mature consideration. These remarks are not intended to apply to such changes in the ordinances or rules as are designed to facilitate the organization and procedure of the city councils, nor to matters which require action at the present session of the legislature.

## COMPENSATION OF MEMBERS OF CITY COUNCIL.

The public statutes provide that no member of either branch, except the mayor, shall receive any compensation for his services. This law has been on the statute book for many years, but in this city, and I presume in others, it has been evaded by voting to each member of the city government at the close of his term of service an amount for committee service so-called. These amounts have been in the case of members of the board of aldermen \$60, and the members of the common council \$30, the members of the committee on accounts and claims each receiving \$15 extra, the aldermanic members thus receiving \$75, and the common council members \$45. It would seem that the sums paid for so-called committee service are in direct violation of the afore-said statute, yet it has been received and paid for many years without question or objection. There is no doubt in my mind that the members of the city council ought to receive at least this compensation for their services and probably ought to receive more. It seems to me that legislation should be obtained authorizing compensation to be made so that no question can hereafter arise as to its legality.

## PROHIBITORY LAW.

While the practical details in connection with the enforcement of the prohibitory law must necessarily be performed by the police department, and while the practical results to be derived therefrom must largely depend upon the integrity and efficiency with which such duties are performed, I have no disposition or desire to shirk or evade any responsibility in this matter, which properly devolves upon the mayor. It must be conceded that there is considerable difference of opinion among good citizens whether the present prohibitory law is the best and most judicious method of advancing the cause of temperance, but so long as it remains on the statute book it is the duty of all officials, sworn to enforce the laws of the state and city, to cause it to be enforced as faithfully

and impartially as all other criminal statutes. Whether public sentiment is in favor of the enforcement of this law or not, is of no consequence. Public officials charged with the duty of enforcing laws have nothing to do with the question of advisability of such laws and have no right even to consider their own personal opinions on the subject.

If rash expressions, engendered by the excitement of a strenuous municipal campaign, have led any one to believe that the advent of this administration is to result in a policy of non-enforcement or evasive enforcement of the prohibitory or any other law, the mistake will soon be realized.

It would be idle to expect, however honest and earnest our efforts may be in dealing with this subject, that we can escape criticism and even censure. It is a fact generally conceded by thoughtful and candid men that the prohibitory law cannot be as easily enforced as most of the other criminal laws. Evidence is not as cheerfully furnished, even by good citizens, in liquor prosecutions as in other criminal cases. It is the duty of every citizen to assist in the enforcement of law, and when he fails to do so it makes the problem of enforcement more difficult. It is not my purpose, in alluding to these difficulties, to unduly magnify them, or to seek for excuses to dodge the responsibility properly devolving upon me in the enforcement of this law. Whatever other faults may be laid at my door, I hope the charge of cowardice cannot be justly made.

No city is entirely free from the evils of intemperance, but our own city has the proud distinction of being one of the most quiet and orderly cities in the United States.

So far as lies in my power I shall make an honest and earnest effort for the enforcement of all laws. Whatever the result may be I shall have no excuses to make or apologies to offer.

#### LIQUOR AGENCY.

A liquor agency is the necessary adjunct of a prohibitory law. It is absolutely essential that there should be some place provided by law where legal sales of alcohol and other intoxi-

cating liquors for medicinal, mechanical, and other proper uses can be made. To carry out the purposes of such an institution, it is necessary that the rules provided by law regulating the conditions under which such sales can be made, and the persons to whom made, shall be strictly followed.

To conduct an institution of this kind upon lines similar to those used where the illegal sale of liquors in the past may have been carried on, would be an entire perversion of the purposes for which the agency is established.

The liquor agency should be under constant supervision, and required to conform to the exact conditions of the law.

#### CITY DEPOSIT.

During the preceding administration a joint resolution was passed inviting bids from the national banks of the city for use of the monthly average balance of the city deposit, and under this resolution bids were received and the deposit awarded to one of said banks. It appears from the report of the city treasurer that the city has received as interest on said daily balance during the last year the sum of \$408.79.

It seems to me that the plan of awarding the city deposit to the highest bidder is a wise one, and should be adhered to.

#### CONCLUSION.

In conclusion, I ask for your earnest coöperation in an effort to administer wisely and honestly the affairs which have been committed to our charge. I recognize fully the fact that without your assistance and coöperation nothing substantial can be achieved. I shall endeavor, so far as the performance of my duties is concerned, to act in entire concert and harmony with you. It will be necessary, as in all cases, where a number of individuals are engaged in a common undertaking, to exercise mutual forbearance and self-control.

It is expected that the heads of departments will cheerfully coöperate to assist us by the skill and efficiency with which they perform their duties. It is important that they manage the appropriations set aside for them with great economy and care.

While it is their duty to properly provide for the reasonable needs of their respective departments, they will be entitled to public approval if they are able to save something from the amount appropriated for their particular department.

Whatever the future may have in store for us, we may feel assured that honesty and integrity of purpose will be accepted by our fellow citizens as the guiding principles which should govern our conduct of municipal affairs, and if we adhere to these principles we shall, at least, have the approval of our own consciences. If, in addition, we obtain the approbation of our citizens, we shall accomplish all that we can reasonably desire.

# ORDINANCES AND JOINT RESOLUTIONS

PASSED DURING THE

YEAR ENDING JANUARY 14, 1902.

---

## CITY OF CONCORD.

### ORDINANCES.

AN ORDINANCE IN AMENDMENT OF SECTIONS 1 AND 11 OF CHAPTER 4 OF THE REVISED ORDINANCES OF THE CITY OF CONCORD.

SECT. 2. There shall be raised in like manner the sum of thirty-six thousand, one hundred and thirty-five dollars (\$36,135) for the support of schools for the ensuing financial year, which, together with the income of the Abial Walker Fund, shall be appropriated and divided among the several school districts according to the valuation thereof.

SECT. 3. In addition to the foregoing, there is appropriated for the cemeteries of the city one-half of the income from the sale of lots and the income derived from the care of lots and grading, which sum shall be deposited by the superintendent or others receiving them in the city treasury. The care of lots, for which the city holds trust funds, shall be paid from the money appropriated for the care of the cemeteries and so much of the income of these trust funds as may be thus expended shall be deposited in the city treasury at the close of the year, and the remainder, in each instance, credited to the individual funds.

SECT. 4. This ordinance shall take effect upon its passage.

Passed March 26, 1901.

---

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE GAS AND SEWERAGE PRECINCT FOR THE ENSUING FINANCIAL YEAR.

*Be it ordained by the City Council of the City of Concord, as follows :*

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the gas and sewerage precinct of said city, the sum of five thousand, six hundred and fifteen dollars (\$5,615) to defray the necessary expenses and charges of the precinct for the ensuing financial year, which shall be appropriated as follows :

For repairs and construction . . . . .	\$3,000.00
interest on bonds . . . . .	2,545.00

SECT. 2. There shall be raised in like manner the sum of eleven thousand, five hundred dollars (\$11,500) to defray the necessary expenses and charges of the precinct for the ensuing financial year, which shall be appropriated as follows :

For lighting streets . . . . .	\$11,500.00
--------------------------------	-------------

SECT. 3. This ordinance shall take effect upon its passage.

Passed March 26, 1901.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE STREET SPRINKLING PRECINCT FOR THE ENSUING FINANCIAL YEAR.

*Be it ordained by the City Council of the City of Concord, as follows:*

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the street sprinkling precinct of said city the sum of sixty-five hundred ninety-six and thirty-four one hundredths dollars (\$6,596.34) to defray the necessary expenses and charges of the street sprinkling precinct for the ensuing financial year, which shall be appropriated as follows: For sprinkling streets, \$5,500.00; for the payment of note becoming due 1901, \$586.09; for the payment of interest that may become due on said note, \$10.25; to repay amount expended in 1900, for which no appropriation was made, \$500.00.

SECT. 2. This ordinance shall take effect upon its passage.

Passed March 26, 1901.

---

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE CITY WATER PRECINCT FOR THE ENSUING FINANCIAL YEAR.

*Be it ordained by the City Council of the City of Concord, as follows:*

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the water precinct of the city, the sum of six thousand dollars (\$6,000) to defray the necessary expenses and charges of the water precinct for the ensuing financial year, which shall be appropriated as follows: For water for hydrant service, \$6,000.00.

SECT. 2. This ordinance shall take effect upon its passage.

Passed March 26, 1901.

---

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE PENACOOK SEWERAGE PRECINCT FOR THE ENSUING FINANCIAL YEAR.

*Be it ordained by the City Council of the City of Concord, as follows:*

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the Penacook sewerage precinct the sum of twenty-four hundred fifty dollars (\$2,450)

to defray the necessary expenses and charges of said precinct for the ensuing financial year, which shall be appropriated as follows: For the payment of the sum becoming due in accordance with an ordinance creating a sinking fund, \$1,000.00; for the payment of interest that may become due on precinct bonds, \$850.00; for repairs and maintenance of sewers in said precinct, \$600.00.

SECT. 2. This ordinance shall take effect upon its passage.

Passed March 26, 1901.

---

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE WEST CONCORD SEWERAGE PRECINCT FOR THE ENSUING FINANCIAL YEAR.

*Be it ordained by the City Council of the City of Concord, as follows:*

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the West Concord sewerage precinct the sum of eleven hundred eighty dollars (\$1,180) to defray the necessary expenses and charges of said precinct for the ensuing financial year, which shall be appropriated as follows: For the payment of the sum becoming due in accordance with the ordinance creating a sinking fund, \$500.00; for the payment of interest that may become due on precinct bonds, \$680.00.

SECT. 2. This ordinance shall take effect upon its passage.

Passed March 26, 1901.

---

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE EAST CONCORD SEWERAGE PRECINCT FOR THE ENSUING FINANCIAL YEAR.

*Be it ordained by the City Council of the City of Concord, as follows:*

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the East Concord sewerage precinct the sum of one hundred fifty-two and fifty one hundredths dollars (\$152.50) to defray the necessary expenses and charges of said precinct for the ensuing financial year, which shall be appropriated as follows: For the payment of the sum becoming due in accordance with an ordinance creating a sinking fund, \$100.00; for the payment of interest that may become due on precinct bonds, \$52.50.

SECT. 2. This ordinance shall take effect upon its passage.

Passed March 26, 1901.

AN ORDINANCE IN AMENDMENT OF AN ORDINANCE ENTITLED "AN ORDINANCE IN AMENDMENT OF CHAPTER 18 OF THE CITY ORDINANCES RELATING TO THE FIRE DEPARTMENT," AND IN AMENDMENT OF AN ORDINANCE PASSED MARCH 12, 1895, ENTITLED "AN ORDINANCE IN AMENDMENT OF CHAPTERS 18 AND 22 OF THE REVISED ORDINANCES RELATING RESPECTIVELY TO THE FIRE DEPARTMENT AND THE WATER-WORKS," RELATING TO THE FIRE DEPARTMENT.

*Be it ordained by the City Council of the City of Concord, as follows :*

SECTION 1. Section 3 of said ordinance is hereby amended so that it will read as follows :

SECT. 3. That Section 7 of the aforesaid ordinance, passed March 12, 1895, is hereby amended by striking out the word "two" in the tenth line of said section, as printed, and inserting in place thereof the word "six," and also by inserting the word "at" between the words "steamer" and "Penacook" in the twenty-seventh line of said section, as printed, so that the said section, as amended, shall read as follows :

"SECTION 7. That Section 29 of Chapter 18 of said revised ordinances is hereby amended so as to read as follows :

"SECTION 29. The annual pay of the members of the fire department shall be as follows, and in full for all services : Chief, ten hundred and fifty dollars per annum and house rent ; permanent force at central fire station, seven hundred and twenty-eight dollars each ; drivers at Good Will and Alert hose houses, seven hundred and twenty-eight dollars per annum, paid monthly ; assistant engineers within the precinct, one hundred and twenty-five dollars each ; engineers of steamers within the precinct, one hundred and fifteen dollars each ; foremen of companies within the precinct, each ninety dollars per annum ; assistant foremen of companies within the precinct, eighty-five dollars per annum ; members of steamer, hose and hook and ladder companies within the precinct, eighty dollars per annum ; outside the precinct, engine companies Nos. 2 and 3, two hundred and forty dollars each ; and Pioneer steamer company No. 3, five hundred dollars. Said sums to be divided among the members as each company shall direct. Engineer of steamer at Penacook, seventy-five dollars per annum ; assistant engineer at Penacook, twenty-five dollars ; assistant engineer at East Concord, fifteen dollars ; and assistant engineer at West Concord, twenty dollars." The additional sum required to provide for the increase made in pay as hereinbefore provided shall be charged to the appropriation for fire department.

Passed April 9, 1901.

AN ORDINANCE ENLARGING THE STREET SPRINKLING PRECINCT AS PROVIDED FOR IN CHAPTER 21 OF THE REVISED ORDINANCES OF THE CITY OF CONCORD AND IN AN ORDINANCE RELATING THERETO PASSED MARCH 13, 1900.

*Be it ordained by the City Council of the City of Concord, as follows :*

SECTION 1. Said street sprinkling precinct shall embrace in addition to the territory described in said Chapter 21 of the revised ordinances and in said ordinance passed March 13, 1900, the following territory, to wit: North State street, from the main entrance to the N. H. state prison, north to the tracks of the Boston & Maine R. R.

SECT. 2. All lots, with their inhabitants, abutting on that part of North State street described in Section 1 shall be included in the street sprinkling precinct.

Passed May 14, 1901.

---

AN ORDINANCE IN AMENDMENT OF CHAPTER 34 OF THE REVISED ORDINANCES RELATING TO BUILDING AND FIRE PRECINCT.

*Be it ordained by the City Council of the City of Concord, as follows :*

SECTION 1. That Chapter 34 of the revised ordinances, entitled building and fire precinct, is hereby amended by striking out the first section and inserting in place thereof the following :

SECTION 1. No person shall hereafter erect or cause to be erected, move or cause to be moved, enlarge or cause to be enlarged, any wooden building, or set up or cause to be set up or use any steam engine in any building within the limits of the city mentioned in the second section of this chapter without written consent of the city engineer and the chief of the fire department, to be first had and obtained after a hearing of all parties in interest duly notified by public notice posted at the south-east outer door of the City Hall building at least seven days before the date of hearing, and by a further notice given to or left at the last and usual place of abode of the owners or occupants of land adjoining the premises where license is asked under this chapter. In all cases where said city engineer and the chief of the fire department shall give such written consent, they shall cause the petition and evidence of notice and of such written consent to be filed with the city clerk, who shall keep the same on file. In all cases where said city engineer and chief of the fire department shall refuse or neglect to give their written consent, any party interested in the matter may petition the board of mayor and aldermen for such consent and shall set forth in their petition

that they have applied to the city engineer and chief of the fire department for such consent which has not been granted. The board of mayor and aldermen shall thereupon order a hearing giving not less than seven days' notice and upon such hearing or adjournment thereof, shall grant or refuse such consent, as they may deem proper.

SECT. 2. All ordinances and parts of ordinances inconsistent with this ordinance are hereby repealed, and this ordinance shall take effect upon its passage.

Passed June 11, 1901.

---

AN ORDINANCE ESTABLISHING A SEWERAGE PRECINCT FOR THE ACCOMMODATION OF THE INHABITANTS IN THE VICINITY OF ST. PAUL'S SCHOOL.

*Be it ordained by the City Council of the City of Concord, as follows:*

That a sewerage precinct for the accommodation of the inhabitants of said city residing in the vicinity of St. Paul's School, to be known as the St. Paul's School Sewerage Precinct, is hereby fixed and established as follows: Said precinct shall embrace all the territory together with its inhabitants within the following described limits, to wit:

Commencing at the southeasterly corner of the property known as the Glennon place on the northerly side of Pleasant street; thence northerly by the easterly line of said Glennon property to its northeasterly corner; thence westerly by the northerly line of said property to its northwesterly corner; thence southerly by the westerly line of said property to the northeasterly corner of land of J. W. and L. H. Lane; thence westerly by the northerly line of said Lane property to land of G. W. Chesley; thence northerly by the easterly line of said Chesley land to its northeasterly corner; thence westerly by the northerly line of said Chesley land to land of J. H. S. Wilcox; thence northerly by the easterly line of said Wilcox land to its northeasterly corner; thence westerly by the northerly line of said Wilcox land to its northwesterly corner; thence southerly by the westerly line of said Wilcox land to land of Mrs. G. F. Kelley; thence westerly by the northerly line of said Kelley land to land of James Mercer; thence northerly by the easterly line of said Mercer land to its northeasterly corner; thence westerly by the northerly line of said Mercer land to its northwesterly corner; thence southerly by the westerly line of said Mercer land to land of John McC.

Hammond; thence westerly by the northerly line of said Hammond land to the easterly line of land belonging to St. Paul's School; thence northerly by the easterly line of said School property to its northeasterly corner; thence westerly by the northerly line of said School property to the Fisk Road, so called; thence southerly by the easterly line of said road to the northwesterly corner of land of Asa P. Chase; thence southwestery in a straight line to the corner of the walls next to, and westerly from the Flanders cottage, so called, now owned by Mrs. J. Milnor Coit; thence southerly by the westerly wall to and across the Hopkinton Road, so called; thence easterly on the southerly side of said road to the private way running southerly from said road and easterly and adjacent to the Farm House, so called, on property of St. Paul's School; thence southerly by said private way and said private way extended, through land of St. Paul's School, to Turkey river; thence down the centre line of said river to the southerly line of the Glennon property, so called; thence easterly and northerly by the southerly and easterly lines of said Glennon property to Pleasant street; thence northeasterly across said Pleasant street to the point of beginning.

Passed June 11, 1901.

---

AN ORDINANCE IN RELATION TO THE EMPLOYMENT OF TEAMS.

*Be it ordained by the City Council of the City of Concord, as follows:*

SECTION 1. The commissioner of highways is hereby authorized to employ from time to time such teams for the use of the city as in his judgment may be needed for the work in his department, at such price as in the judgment of said commissioner is fair and just to the owners of the teams, and for the best interests of the city. Said price not to exceed forty (40) cents per hour for each two horse team with driver.

SECT. 2. All ordinances and parts of ordinances inconsistent with this ordinance are hereby repealed, and this ordinance shall take effect upon its passage.

Passed June 11, 1901.

---

AN ORDINANCE IN RELATION TO THE APPOINTMENT OF MEMBERS OF THE FIRE DEPARTMENT.

*Be it ordained by the City Council of the City of Concord, as follows:*

SECTION 1. No person shall be hereafter appointed to any position in the fire service unless and until the committee on fire department shall have certified in writing to the board of mayor and aldermen

that such person has been examined by them or under their supervision and is in their opinion qualified to perform the duties of the position to which he is nominated.

SECT. 2. This ordinance shall take effect upon its passage.

Passed June 11, 1901.

---

AN ORDINANCE IN RELATION TO THE CARE AND TESTING OF  
HYDRANTS.

*Be it ordained by the City Council of the City of Concord, as follows :*

SECTION 1. The board of water commissioners shall have every hydrant within the limits of the city plainly numbered with red paint.

SECT. 2. The superintendent of water works shall cause all hydrants in the city to be tested in such manner and at such times as in his judgment may be required, provided, however, that in the months of December, January, February and March of each year all hydrants within the business portion of the city and those located near manufacturing establishments shall be tested as often as once in each week, and all other hydrants as often as once in every two weeks.

SECT. 3. There shall be kept in the office of the superintendent of water works, in a book prepared for that purpose, a record of all tests provided for in the preceding section, containing a statement of the number of each hydrant tested, the date of each test, the manner of testing, the condition of the hydrant at the time of each test and such other information as may be prescribed by the board of water commissioners.

This book shall be at all times open for public inspection. All complaints or suggestions from the fire department regarding the condition of hydrants shall be transmitted by the chief of the fire department to the president of the board of water commissioners and turned over by him to the superintendent of the water works, who shall minute upon each of such complaints or suggestions the action taken by him in relation thereto and shall keep the same on file in his office, subject to public inspection. A copy of all such complaints or suggestions shall also be kept on file in the office of the chief of the fire department.

SECT. 4. This ordinance shall take effect upon its passage.

Passed June 11, 1901.

AN ORDINANCE TO BORROW MONEY IN AID OF UNION SCHOOL DISTRICT IN CONCORD.

*Be it ordained by the City Council of the City of Concord, as follows:*

SECTION 1. That coupon bonds of the city of Concord amounting to the sum of twenty-four thousand dollars (\$24,000) be issued and delivered to Union School District in Concord, in accordance with the request and upon the terms contained in resolutions adopted by its voters at the annual meeting of said district, held March 28, 1901. Said bonds shall be signed by the mayor and city treasurer and countersigned by the city clerk, and shall in all respects comply with the provisions of the municipal bonds act of 1895. Said bonds shall be dated April 1, 1901, and numbered consecutively from one to twenty-four inclusive, and shall be for the sum of one thousand dollars each. Eight of said bonds in their order as numbered shall be due and payable on the first day of April, 1906. Eight of said bonds in their order, as numbered, commencing with number nine, shall be due and payable on the first day of April, 1907. Eight of said bonds in their order, as numbered, commencing with number seventeen, shall be due and payable on the first day of April, 1908. Said bonds shall be payable to the bearer with interest at a rate not exceeding  $3\frac{1}{2}$  per cent per annum, payable semi-annually on the first days of April and October in each year after 1901, upon the presentation of the coupons attached to said bonds respectively. The first interest coupons shall be due and payable on the first day of October, 1901, upon the presentation of said coupons.

SECT. 2. The treasurer is hereby authorized to procure proposals for the sale of the bonds hereby authorized and such bids as seem for the best interest of the city shall be accepted by him, provided the same are approved by the finance committee.

SECT. 3. All of said bonds, while owned by citizens of said city of Concord, shall be exempt from taxation, as provided by law.

SECT. 4. The mayor and treasurer are authorized to execute in the name and behalf of the city such agreements in writing between it and said district as they deem necessary and advisable to protect the rights of respective parties growing out of this transaction.

SECT. 5. This ordinance shall take effect and be in force from and after its passage.

Passed July 9, 1901.

## AN ORDINANCE RELATING TO THE FIRE DEPARTMENT.

*Be it ordained by the City Council of the City of Concord, as follows :*

SECTION 1. The permanent men and horses at all of the fire stations in Concord shall at all times be on duty at their respective stations to attend to fire alarm calls; and neither the permanent men nor the permanent horses connected with the fire department shall engage in any work for any other department of the city.

Passed July 9, 1901.

---

AN ORDINANCE IN AMENDMENT OF AN ORDINANCE PASSED JULY 10, 1900, ENTITLED, "AN ORDINANCE DEFINING THE RULES AND REGULATIONS FOR THE MATERIALS, CONSTRUCTION, ALTERATION AND INSPECTION OF ALL PLUMBING, HOUSE DRAINAGE, AND SEWER CONNECTIONS."

*Be it ordained by the City Council of the City of Concord, as follows :*

SECTION 1. That Section 2 of said ordinance be amended by striking out the words "one thousand" in the second line of said section, and inserting in place thereof the words, "twelve hundred," and further by adding the words, "said sum to include the expense of any team used by him personally in the performance of the duties of his office," so that said Section 2 shall read as follows :

For services rendered, the sanitary officer shall receive the sum of twelve hundred dollars per annum, payable monthly, said sum to include the expense of any team used by him personally in the performance of the duties of his office.

SECT. 2. This ordinance shall take effect and be in force on and after July 1, 1901.

Passed August 13, 1901.

---

AN ORDINANCE PROVIDING FOR THE LOAN OF SIX THOUSAND DOLLARS FOR SEWERS IN THE ST. PAUL'S SCHOOL SEWERAGE PRECINCT.

*Be it ordained by the City Council of the City of Concord, as follows :*

SECTION 1. That the treasurer of said city is hereby authorized to procure by loan on the credit of the city the sum of six thousand dollars for the purpose of defraying the cost of establishing and constructing a sewerage system in the St. Paul's School sewerage precinct.

SECT. 2. Bonds of said city shall be issued for said loan, signed by the mayor and city treasurer and countersigned by the city clerk, and shall in all respects comply with the provisions of the "Municipal Bonds Act of 1895." Said bonds shall be dated July 1, 1901, numbered consecutively from one to twelve inclusive, and shall be for the sum of five hundred dollars each. One of said bonds in their order, as numbered, shall be due and payable on the first day of July in each year after their issue, the first one being due and payable on the first day of July, 1902. Said bonds shall have coupons attached for the semi-annual interest thereon, payable on the first days of January and July in each year during the time the bonds run, at the rate of not exceeding  $3\frac{1}{2}$  per cent per annum. Said bonds shall be exempt from taxation when owned by residents of said city.

SECT. 3. All money paid on account of said bonds shall be charged to said St. Paul's School sewerage precinct. A sum sufficient to pay the interest accruing on said bonds shall be raised by an annual tax on the property and polls of said St. Paul's School sewerage precinct as authorized by law. The sum of five hundred dollars (\$500) per year for the term of twelve years shall be raised by a tax on the property and polls of said St. Paul's School sewerage precinct for the purpose of creating a fund to pay said bonds as they mature. The treasurer is hereby authorized to procure proposals for the sale of the bonds hereby authorized and such bids as seem for the best interest of the city shall be accepted by him, provided the same are approved by the finance committee.

SECT. 4. This ordinance shall take effect upon its passage.

Passed August 13, 1901.

---

AN ORDINANCE ADOPTING RULES RELATING TO CITY LOT ON WARREN STREET.

*Be it ordained by the City Council of the City of Concord, as follows:*

SECTION 1. That rules are hereby adopted governing the occupation of the city lot as follows:

RULES TO BE OBSERVED BY OCCUPANTS OF CITY LOT ON WARREN STREET.

No person while on the city lot, so called, shall use loud, profane or indecent language, but shall conduct himself in a quiet and orderly manner.

No nuisance of any sort shall be committed on said premises and no person shall stand or be upon the sidewalks surrounding said city lot except as he travels along the same.

Any person who shall violate the provisions of this rule shall be fined not exceeding ten dollars.

The violation of the provisions of this rule by any person who is a job teamster, licensed by the city, shall, in addition to subjecting him to the payment of the above fine, be cause for the revocation of such license, and said job teamster shall not thereafter enter upon the city lot, until he has obtained another license.

SECT. 2. Printed copies of the above rules shall be posted in conspicuous places on and about said city lot.

SECT. 3. This ordinance shall take effect upon its passage.

Passed September 10, 1901.

---

AN ORDINANCE RELATING TO THE INSPECTION OF MILK.

*Be it ordained by the City Council of the City of Concord, as follows :*

SECTION 1. That the provisions of an act passed by the legislature of the state of New Hampshire and approved March 22, 1901, entitled "An act in amendment of Chapter 127 of the public statutes, relating to the inspection of milk," be and hereby are adopted by the city of Concord.

SECT. 2. This ordinance shall take effect upon its passage.

Passed October 8, 1901.

---

AN ORDINANCE REPEALING SECTION 17 OF CHAPTER 14 OF THE REVISED ORDINANCES OF THE CITY OF CONCORD, AND IN SUBSTITUTION OF SAID SECTION.

*Be it ordained by the City Council of the City of Concord, as follows :*

SECTION 1. No child shall attend any public, private or parochial school in the city of Concord unless he or she has been successfully vaccinated, or has had the smallpox. This section shall be enforced by the board of health for the city of Concord.

SECT. 2. No child shall be permitted to attend any public, parochial or private school in the city of Concord until he has first furnished satisfactory evidence to the board of health that he has been successfully vaccinated, or has had the smallpox.

If practical a certificate of vaccination showing the date of such vaccination and the fact that it was successful, made by the party vaccinating, shall be presented to the board of health, and such certificate shall be endorsed by the board of health. If it is not practical to get such a certificate, or if a child has had the smallpox, the board of health shall, upon satisfactory evidence of vaccination, or that the child has had the smallpox, issue to such a child a certificate permitting him to attend school.

SECT. 3. The board of health shall keep a card index record of all the vaccination cards indorsed by the board and of all the certificates issued permitting scholars to attend school as above provided for.

The city physician shall at all times be prepared to vaccinate, at the expense of the city, any scholar who is unable to pay therefor.

SECT. 4. This ordinance shall take effect upon its passage.

Passed October 8, 1901.

---

AN ORDINANCE EXTENDING THE WATER PRECINCT.

*Be it ordained by the City Council of the City of Concord, as follows:*

That the water precinct be extended so as to embrace the following territory: Beginning at a point where the easterly line of the right of way of the Southern Division of the Boston & Maine Railroad, formerly known as the Concord & Montreal Railroad, intersects the line between Concord and Bow; thence easterly by said line to Merrimack river; thence northerly by said Merrimack river below the Pembroke bridge opposite to and on the northerly line of the land of the late F. C. Thompson, extended easterly.

Passed December 10, 1901.

## RESOLUTIONS.

---

### A JOINT RESOLUTION IN RELATION TO PAYING SALARIES, PAYROLLS AND RENTS.

*Resolved by the City Council of the City of Concord, as follows :*

That the mayor be, and hereby is, authorized to draw his warrant on the city treasurer for the payment of all salaries, payrolls and rents as the same shall become due, and be approved by the city auditor during the present municipal term, and all bills so paid shall be laid before the committee on accounts and claims at their next meeting.

Passed January 22, 1901.

---

### A JOINT RESOLUTION CHANGING THE HOUR OF MEETING OF THE BOARD OF ALDERMEN AND COMMON COUNCIL.

*Resolved by the City Council of the City of Concord, as follows :*

That, beginning at the next regular meeting of the City Council, and for all regular meetings thereafter, the board of mayor and aldermen shall assemble in their rooms for business at 7 o'clock p. m. and the common council at 8 o'clock p. m.

Passed January 22, 1901.

---

### A JOINT RESOLUTION ESTABLISHING A LIQUOR AGENCY FOR THE ENSUING YEAR.

*Resolved by the City Council of the City of Concord, as follows :*

That a liquor agency be established for the ensuing year in accordance with the public statutes of the state of New Hampshire.

Passed January 22, 1901.

---

### A JOINT RESOLUTION PROVIDING FOR THE APPOINTMENT OF A LEGISLATIVE COMMITTEE, ETC.

*Resolved by the City Council of the City of Concord, as follows :*

That a special committee be appointed consisting of the mayor, three members of the board of aldermen to be named by the mayor, and three members of the common council to be named by the

president of the common council, to draft and secure the presentation to the present session of the legislature of such acts in amendment of the city charter or otherwise, as to them may seem desirable, relating to the following subjects :

1. The conferring upon the police commission of power to reduce the number of the police force and to remove members of the force when the public good requires such reduction or removal.

2. To secure whatever legislative authority as may be necessary to enable the city to make such arrangements as may seem best with the county of Merrimack with regard to the property owned jointly by the city and the county, and to secure suitable land and buildings for the various city offices.

3. Such changes as may be deemed advisable in regard to the constitution of the board of assessors, their manner of election and powers and duties.

4. Provision of reasonable compensation for the members of the board of mayor and aldermen and common council in place of the existing custom of allowances for committee service.

Said committee shall incorporate in all proposed legislation relating to the above subjects a provision that such legislation shall not take effect until adopted by the city council of the city of Concord.

Passed January 22, 1901.

---

A JOINT RESOLUTION INVITING BIDS FOR PRINTING AND BINDING THE ANNUAL CITY REPORTS.

*Resolved by the City Council of the City of Concord, as follows :*

That the city auditor be, and hereby is, instructed to call for sealed proposals for printing and binding the city reports for the year 1900, and submit the same to the finance committee, who shall have full power to act in the matter.

Passed February 12, 1901.

---

A JOINT RESOLUTION AUTHORIZING THE FINANCE COMMITTEE TO PROCURE A TEMPORARY LOAN OF FIFTY THOUSAND DOLLARS.

*Resolved by the City Council of the City of Concord, as follows :*

The finance committee are hereby authorized to procure by temporary loan upon the credit of the city the sum of fifty thousand dollars, or so much thereof as may be necessary, to provide for current expenses upon such terms and conditions as they may deem advisable.

Passed February 12, 1901.

A JOINT RESOLUTION INVITING BIDS FOR THE AVERAGE MONTHLY  
BALANCE OF THE CITY DEPOSIT.

*Resolved by the City Council of the City of Concord, as follows :*

That the city auditor is hereby instructed to invite bids from the several National banks in Concord for the use of the monthly average balance of the city deposit, and submit the bids to the finance committee, who shall report the same to the city council.

Passed February 12, 1901.

---

A JOINT RESOLUTION TO APPOINT A COMMITTEE OF THREE WITH  
AUTHORITY TO INVESTIGATE AND REPORT UPON THE SUBJECT OF  
PUBLIC URINALS.

*Resolved by the City Council of the City of Concord, as follows :*

That a committee of three, comprising the health officer, and one alderman and one councilman, to be appointed respectively by the mayor and the president of the common council, be authorized and instructed to make an investigation of the subject of public urinals together with their practicability, expense, and the advisability of the erection of one or more by the city of Concord. That said committee be allowed such actual expense as may be necessary to investigate the subject reasonably.

Said committee to report at the next regular meeting of the city council.

Passed March 12, 1901.

---

A JOINT RESOLUTION AUTHORIZING AND INSTRUCTING THE CITY  
CLERK TO CANCEL DEED OF CEMETERY LOT TO LIVA C. HEATH  
AND TO MAKE NEW DEED TO EMILY P. HEATH.

*Resolved by the City Council of the City of Concord, as follows :*

The city clerk is hereby authorized and instructed to cancel the deed for a cemetery lot issued to Liva C. Heath April 29th, 1900, and in place thereof to make a new deed of the same lot from the city to Emily P. Heath, without payment of any consideration, the sum of \$93.50 having been paid to said city at the time said deed to Liva C. Heath was issued.

This resolution shall take effect upon its passage.

Passed March 12, 1901.

## A JOINT RESOLUTION FOR SPECIAL INVESTIGATING COMMITTEE.

*Resolved by the City Council of the City of Concord, as follows :*

That a special committee of five, consisting of three members of the board of aldermen to be nominated by the mayor, and two members of the common council to be nominated by the president of the common council, are hereby appointed to consider and investigate the facts in relation to the delay in obtaining water at the recent fire at the store of A. Perley Fitch, and any other facts in connection with said fire referred to in the communication of said A. Perley Fitch and the New Hampshire Board of Fire Underwriters. Said committee are authorized and instructed to employ a stenographer, give a public hearing, report the facts to the City Council, and make such recommendations in relation thereto as they may deem advisable.

Passed March 12, 1901.

---

## A JOINT RESOLUTION DISCONTINUING A PORTION OF PLEASANT STREET.

*Resolved by the City Council of the City of Concord, as follows :*

That so much of the highway which was laid out May 25, 1899, known as Pleasant street, as is included between the lines formed by the following description, to wit: commencing at a stone bound on the southerly line of Pleasant street, as laid out May 25, 1899, said bound being at the westerly end of a curve to the left having a radius of 1637.28 feet; thence on a tangent bearing south 53 degrees, 59 minutes, 51 seconds west, 56.68 feet; thence curving to the right with a radius of 159.34 feet, a distance of 95.70 feet to a stone bound on the southerly line of Pleasant street; the above described line being the Pleasant street line; the other line being described as follows, to wit: commencing at the first above mentioned stone bound and curving to the right with a radius of 465.46 feet, a distance of 121.62 feet; thence compounding with a curve having a radius of 85.99 feet, a distance of 29.27 feet to the second above mentioned stone bound, reference being made to the annexed plan for a more intelligible description, be and the same is hereby discontinued.

Passed March 12, 1901.

## A JOINT RESOLUTION AWARDING CITY DEPOSIT.

*Resolved by the City Council of the City of Concord, as follows :*

That the city deposit be awarded to the National State Capital Bank of Concord, N. H., at their bid of 2 per cent per annum for the average monthly balance of the city of Concord.

Passed March 12, 1901.

---

## A JOINT RESOLUTION APPROPRIATING THREE HUNDRED AND SEVENTY-FIVE DOLLARS FOR REPAIRS ON WARD 7 WARD HOUSE.

*Resolved by the City Council of the City of Concord, as follows :*

That the sum of three hundred and seventy-five dollars be appropriated for repairs on Ward 7 ward house, for plumbing, painting, etc.; that the said repairs be made under the direction of the committee on lands and buildings; and that the amount appropriated be charged to the account of incidentals and land damages.

Passed April 9, 1901.

---

DOLLARS FOR PUBLIC BATHS.

*Resolved by the City Council of the City of Concord, as follows:*

That a sum not exceeding two hundred and fifty dollars (\$250) be, and is hereby, appropriated out of any money in the city treasury not otherwise appropriated.

The same to be placed to the order of the committee on public instruction for defraying the expense of a public bathing place.

Passed June 11, 1901.

---

A JOINT RESOLUTION PROVIDING FOR REPAIRS ON THE CITY AMBU-  
LANCE.

*Resolved by the City Council of the City of Concord, as follows:*

That the city marshal be instructed to take the ambulance now owned by the city of Concord to the Abbot-Downing Co., and authorize them to fit the wheels to modern hard rubber tires and with a set of new springs suitable for such a carriage, at a cost not to exceed sixty-five dollars (\$65), and if judged satisfactory to a committee of two selected by the mayor, the city marshal shall be authorized to have such other repairs made as shall be deemed satisfactory.

The whole expense not to exceed one hundred and forty dollars (\$140), said sum to be taken from incidental and land damage funds.

Passed June 11, 1901.

A JOINT RESOLUTION PROVIDING FOR THE GRADING AND CONSTRUCTION OF A CONCRETE SIDEWALK.

*Resolved by the City Council of the City of Concord, as follows :*

That the commissioner of highways is hereby instructed to grade and construct a concrete sidewalk in front of the premises on which the police station is located in ward one. The expense thereof to be defrayed from the appropriation made for concrete sidewalks in the highway department.

Passed July 9, 1901.

---

A JOINT RESOLUTION APPROPRIATING ONE HUNDRED AND TWENTY-FIVE DOLLARS FOR REPAIRS ON POLICE STATION, WARREN STREET.

*Resolved by the City Council of the City of Concord, as follows :*

That the sum of one hundred and twenty-five dollars (\$125) be appropriated for repairs on police station, Warren street, for painting, kalsomining and varnishing. That the said repairs be made under the direction of the committee on lands and buildings. And that the amount appropriated be charged to the account of incidentals and land damage.

Passed July 9, 1901.

---

A JOINT RESOLUTION TO ESTABLISH LINE BETWEEN LAND OF WILLIAM P. FISKE AND THE COMMON SOUTH OF SAID LAND.

*Resolved by the City Council of the City of Concord, as follows :*

That a division line be run south of the land of William P. Fiske beginning at a point fifteen (15) feet south of the southeast corner of the land of said Fiske on North Main street, and running westerly by a line to a point five (5) feet south of an Elm tree standing just north of the present path leading to the Walker school-house, and that the mayor be authorized to issue a quitclaim deed of said land to the said William P. Fiske, quitclaiming all right and title of said city to land north of said line, and to receive a deed from William P. Fiske, quitclaiming all the right and title of said Fiske to land south of said line, as per plan of the city engineer.

Passed July 9, 1901.

A JOINT RESOLUTION PROVIDING FOR A TEMPORARY LOAN TO DEFRAY A PORTION OF THE EXPENSE OF THE CITY HISTORY.

*Resolved by the City Council of the City of Concord, as follows:*

That the city treasurer, under the advice and direction of the committee on finance, is hereby authorized to procure for a period of one year by temporary loan upon the credit of the city the sum of fifteen hundred dollars (\$1,500) at the lowest practical per centum, for the purpose of defraying necessary expenses arising in connection with the writing of the city history and to issue a city note therefor, payable one year from date, said note to be exempt from taxation when owned by residents of Concord.

Passed July 9, 1901.

---

A JOINT RESOLUTION PROVIDING FOR TEMPORARY LOANS NOT EXCEEDING IN TOTAL FIFTY THOUSAND DOLLARS TO MEET THE CURRENT EXPENSES OF THE PRESENT FISCAL YEAR AS THEY MAY BECOME DUE.

*Resolved by the City Council of the City of Concord, as follows:*

That the city treasurer, under the advice and direction of the committee on finance, is hereby authorized to procure by temporary loan upon the credit of the city such sum as may be necessary, not exceeding in total fifty thousand dollars (\$50,000), at the lowest practicable per centum to be used exclusively in meeting the usual and current expenses of the city during the present fiscal year, as they may become due. The notes or obligations given by the city for said loan shall be exempt from taxation when owned by residents of Concord.

Passed July 9, 1901.

---

A JOINT RESOLUTION APPROPRIATING THREE HUNDRED AND SIXTY-ONE AND TWELVE ONE-HUNDREDTH DOLLARS TO SETTLE THE SUIT OF MARY J. GAY AND OTHERS AGAINST THE CITY OF CONCORD.

*Resolved by the City Council of the City of Concord, as follows:*

That the city treasurer is hereby authorized and instructed to pay to Mary J. Gay and William H. Gay, both of Concord, New Hampshire, and Walter C. Gay, of Lynn, in the county of Essex and state of Massachusetts, the sum of three hundred and sixty-one and 12-100 dollars (\$361.12) in full settlement, payment and discharge of all

claims for damages to real estate now or formerly owned by them or either of them, which said parties or either of them have or can claim against said city on account of the laying out of the extension of Glen street from its former southern end south to Allison street through or over the land of said Gays, and in full discharge and payment of the suit and the costs therein brought by said Gays against the city of Concord, now pending in the superior court for Merrimack county. Said amount thus expended shall be charged against the appropriation for incidentals and land damage.

Passed July 9, 1901.

---

A JOINT RESOLUTION APPROPRIATING THE SUM OF ONE HUNDRED DOLLARS TO SETTLE THE SUIT OF EDWARD E. HODGMAN AGAINST THE CITY OF CONCORD.

*Resolved by the City Council of the City of Concord, as follows:*

That the city treasurer is hereby authorized and instructed to pay Edward E. Hodgman, of Bow, New Hampshire, the sum of one hundred dollars (\$100) in full settlement, payment and discharge of all claim for damages to real estate owned by him, which the said Hodgman has or can claim against said city on account of a change in grade in State street in said Concord near the premises of said Hodgman, and in full discharge and payment of the suit and costs therein brought by said Hodgman against the said city of Concord, now pending in the superior court for Merrimack county. Said sum thus expended shall be charged against the appropriation for incidentals and land damage.

Passed July 9, 1901.

---

A JOINT RESOLUTION APPROPRIATING MONEY TO MEET CURRENT EXPENSES OF PRINTING AND STATIONERY.

*Resolved by the City Council of the City of Concord, as follows:*

That the sum of one thousand dollars (\$1,000) be, and hereby is, appropriated out of any money in the treasury not otherwise appropriated to defray the expense of printing and stationery for the current year.

Passed July 9, 1901.

A JOINT RESOLUTION WITH REFERENCE TO THE SEATS IN BRADLEY PARK.

*Resolved by the City Council of the City of Concord, as follows :*

That the board of park commissioners be, and hereby are, instructed to take such steps as may be necessary to cause the seats recently removed from Bradley Park, to be replaced therein.

Passed August 13, 1901.

---

A JOINT RESOLUTION APPROPRIATING ONE HUNDRED AND FIFTY DOLLARS TO SETTLE THE SUIT OF BERTHA E. BRAILEY AGAINST THE CITY OF CONCORD.

*Resolved by the City Council of the City of Concord, as follows :*

That the city treasurer is hereby authorized and instructed to pay to Charles F. Fletcher, Administrator of the estate of Bertha E. Brailey, late of Concord, N. H., the sum of one hundred and fifty dollars in full settlement, payment and discharge of all claims for damages to the real estate of said Brailey, situated on the corner of Church and Jackson streets, which the estate of said Brailey has or can claim against said city on account of the laying out of the extension of Jackson street, over and across a part of said land; and in full discharge and payment of suit, and all costs therein, brought by said Bertha E. Brailey against the city of Concord at the October term, 1897, of the supreme court and now pending in the superior court for Merrimack County.

The amount thus expended shall be charged against the appropriation for incidentals and land damages.

Passed August 13, 1901.

---

A JOINT RESOLUTION APPROPRIATING ONE HUNDRED DOLLARS TO FINISH REPAIRING WARD SEVEN WARD HOUSE.

*Resolved by the City Council of the City of Concord, as follows :*

That the sum of one hundred dollars be appropriated to finish repairing ward seven ward house.

That the said repairs be made under the direction of the committee on lands and buildings and that the amount appropriated be charged to the account of incidentals and land damages.

Passed September 10, 1901.

A JOINT RESOLUTION APPROPRIATING TWO HUNDRED DOLLARS FOR REPAIRS OF OLD FORT ENGINE HOUSE AND TO REPAIR THE CONCRETE SIDEWALK AT SAID ENGINE HOUSE AND GOODWILL HOSE HOUSE.

*Resolved by the City Council of the City of Concord, as follows :*

That the sum of \$200 be appropriated for the repairs on Old Fort engine house, also to repair the concrete sidewalks at said engine house and Goodwill hose house, and that the same be charged to the appropriation for incidentals and land damage, and that the repairs be done under the supervision of the committee on lands and buildings.

Passed September 10, 1901.

---

A JOINT RESOLUTION AUTHORIZING THE PAYMENT OF ONE HUNDRED DOLLARS TO THE STATE TREASURER TO CORRECT ERROR.

*Resolved by the City Council of the City of Concord, as follows :*

That the city treasurer be, and hereby is, authorized to pay to the state treasurer the sum of one hundred dollars, the same being for fine paid city marshal by Sidney F. Smith, June 17, 1901, and deposited by mistake in the city treasury, instead of being paid to the state, where it properly belonged.

Passed September 10, 1901.

---

A JOINT RESOLUTION RELATING TO THE ATTENDANCE OF THE CITY ENGINEER AND COMMISSIONER OF HIGHWAYS UPON THE SESSION OF AMERICAN SOCIETY OF MUNICIPAL IMPROVEMENTS.

*Resolved by the City Council of the City of Concord, as follows :*

That the city engineer and commissioner of highways be instructed to attend the eighth annual session of American Society of Municipal Improvements at Niagara Falls, to be held October 1 to 4 inclusive, and that the reasonable expense thereof to the amount of not exceeding seventy dollars be paid out of the appropriation for incidentals and land damage.

Passed September 10, 1901.

A JOINT RESOLUTION PROVIDING FOR A SALE OF THE CITY'S INTEREST IN THE CITY HALL BUILDING AND A PORTION OF THE LOT AND FOR THE PURCHASE OF A NEW LOT AND ERECTION OF A NEW CITY HALL BUILDING.

*Resolved by the City Council of the City of Concord, as follows:*

SECTION 1. That the action and report of the special committee appointed under the provisions of a joint resolution passed by the city councils in concurrence January 22, 1901, with reference to a separation of the interests of the city and county in the present city hall building and lot as set forth in their report this day submitted, are hereby accepted, ratified and approved, and that the mayor and president of the common council are hereby instructed to make and execute in the name and behalf of the city an agreement with the county commissioners of Merrimack county, providing for a sale by the city to the county of all the right, title and interest of said city in the present court house building and so much of the land comprised in the court house lot as lies east of the line coincident with the western boundary line of lots conveyed by Susan Stickney to Merrimack county and Richard Bradley to Merrimack county, and extending from Court street on the north of said boundary to Pitman street on the south of said boundary, for the sum of twenty thousand dollars, to be paid by said county to said city; said agreement to contain stipulations providing that the deed and possession of said property shall not be delivered to said county until said city is provided with a new city building completed for use and occupancy; that the land belonging to the city and county lying west of the above described line in said court house lot shall forever be kept open as a public park; that the county in remodeling the present court house building, or in the erection of a new court house building on the same lot, shall provide some suitable room in said building to be used for election purposes by the voters of ward four in said city, upon a reasonable remuneration therefor to be paid by said city to said county.

SECT. 2. That a committee consisting of his honor the mayor, the president of the common council, four members of the board of aldermen to be appointed by the mayor, and three members of the common council to be appointed by the president of the common council, are hereby appointed for the purpose of taking steps toward the selection and acquirement of a suitable site on which to erect a new city building, to be constructed of Concord granite, and also to procure plans and estimates of the expense for the erection of such building.

SECT. 3. Said committee are authorized to incur such reasonable expense as in their judgment may be necessary in securing options on land secured as a site for such building, and in procuring preliminary plans and estimates of the expense of such building, and the city treasurer is hereby authorized to pay all expense so incurred out of funds in the treasury not otherwise appropriated, upon certificate in writing of a majority of said committee, with the approval of committee on accounts and claims endorsed thereon.

SECT. 4. And said committee are further authorized and instructed to procure a suitable site for the erection of such building, and to make in the name of the city all necessary contracts for the securing of such site and to accept deed thereof in behalf of the city, and to take all such steps as may be necessary and convenient for the securing of such site, whether by purchase or condemnation. If the committee so desire, they may refer to the city council the question of the selection of a site, the price to be paid for it, and the manner in which it shall be secured.

SECT. 5. And said committee are further authorized and instructed to employ by fair competition, architects to furnish plans and specifications and supervise the construction of such building, and to make in the name of the city such contracts as in their judgment shall seem reasonable for the erection and furnishing of such building, and the grading and other preparation of the site thereof, all contracts to be let by competitive bidding to the lowest responsible bidder, upon such terms and security as the said committee may deem advisable, all contracts signed by a majority of the committee and authorized by this resolution to be binding upon the city. Said committee shall place upon exhibition all plans and estimates thereon submitted to them in competition, and shall notify all members of the city council of the time and place at which such plans shall be on exhibition, and shall secure from the members of the city council not on said committee an expression of opinion regarding the merits of the several plans submitted, for the assistance of said committee in the selection of plans, and shall from time to time make reports to the city council, for the purpose of keeping said council informed as to the progress made by said committee.

SECT. 6. And said committee are further authorized, if in their judgment it shall seem advisable, to employ some suitable person to supervise and superintend, in behalf of the city, the erection of such building, and to fix the compensation of the person so employed, such compensation to be paid out of the sums appropriated for the purchase and preparation of a site and the erection and furnishing of a city building.

SECT. 7. Said committee are authorized to expend in behalf of the city for the securing of such site, and the erection and furnishing of such building, and the grading and preparation of such site, such sums not exceeding one hundred and thirty thousand dollars (\$130,000), in addition to the sum of twenty thousand dollars (\$20,000), to be received from the county of Merrimack in payment for the city's interest in the present city hall building and land connected therewith, as may be by them deemed necessary and advisable. And bonds of the city in the usual form as required by the city ordinances shall be issued by the finance committee of the city council for such sum not exceeding one hundred and thirty thousand dollars as shall be requested in writing by a majority of said building committee, upon such time and at such rate of interest, not exceeding three and one-half (3 1-2) per cent. per annum as may seem advisable to said finance committee; provided, however, that such bonds shall be of the par value of not exceeding one hundred dollars (\$100) each, and shall be exempt from taxation while owned by residents of the city of Concord. And provided further that in the sale of such bonds the preference shall be given to residents of the city of Concord.

SECT. 8. The finance committee of the city council are hereby authorized and instructed to issue from time to time, upon such time and at such rate of interest as to them may seem advisable, the notes of the city in the usual and legal form, when requested in writing by a majority of said building committee, the total amount of such notes not to exceed one hundred and thirty thousand dollars (\$130,000), said notes if issued, to be paid by the proceeds of the bonds to be issued under authority of this resolution, the finance committee to have full discretion as to the issuance of notes or bonds from time to time for the purpose of raising the funds required by said building committee, within the limitations and upon the conditions hereinafore prescribed by this resolution.

SECT. 9. And the city treasurer is hereby authorized to pay out of the proceeds of such notes and bonds and the funds to be received from the county of Merrimack, all bills contracted by said building committee under the authority of this resolution upon the written approval of a majority of said building committee.

SECT. 10. No bills in connection with the expenditures authorized by this resolution shall be paid by the city treasurer until approved by the city auditor.

Passed November 12, 1901.

A JOINT RESOLUTION APPROPRIATING TWO HUNDRED DOLLARS TO SETTLE SUIT OF W. H. PERRY AGAINST THE CITY OF CONCORD.

*Resolved by the City Council of the City of Concord, as follows:*

That the city treasurer is hereby authorized and instructed to pay to Eastman & Hollis, attorneys for W. H. Perry, of Concord, New Hampshire, the sum of two hundred dollars (\$200.00), in full settlement, payment and discharge of all claims for damages to real estate on North State street, owned by said W. H. Perry, on account of water thrown upon and over said real estate by the construction of roads in Blossom Hill cemetery, and in full discharge and payment of the suit and all costs therein brought by said W. H. Perry against said city of Concord, and now pending in the superior court for Merrimack county.

Said sum thus expended shall be charged against the appropriation for incidentals and land damages.

Passed December 10, 1901.

---

A JOINT RESOLUTION IN AMENDMENT OF A JOINT RESOLUTION PROVIDING FOR A SALE OF THE CITY'S INTEREST IN THE CITY HALL BUILDING AND A PORTION OF THE LOT AND FOR THE PURCHASE OF A NEW LOT AND ERECTION OF A NEW CITY HALL BUILDING, PASSED NOVEMBER 12, 1901.

*Resolved by the City Council of the City of Concord, as follows:*

SECTION 1. That so much of Section 2, or any other section of a joint resolution passed November 12, 1901, entitled, "A Joint Resolution providing for a sale of the city's interest in the city hall building and a portion of the lot and for the purchase of a new lot and erection of a new city hall building," as requires the committee to be appointed under the terms of said resolution for the erection of a new city building to construct the same of Concord granite, is hereby amended and modified to the extent that said committee are hereby authorized to construct the same of Concord granite and brick. There shall be included within or connected with said new city building a city hall capable of seating from sixteen hundred to two thousand people, constructed on the ground floor.

Passed December 31, 1901.

A JOINT RESOLUTION IN AMENDMENT OF A JOINT RESOLUTION PROVIDING FOR A SALE OF THE CITY'S INTEREST IN THE CITY HALL BUILDING AND A PORTION OF THE LOT, AND FOR THE PURCHASE OF A NEW LOT AND ERECTION OF A NEW CITY HALL BUILDING, PASSED NOVEMBER 12, 1901.

*Resolved by the City Council of the City of Concord, as follows:*

SECTION 1. That to the committee provided for by Section 2 of a joint resolution entitled, "A Joint Resolution providing for a sale of the city's interest in the city hall building and a portion of the lot and for the purchase of a new lot and erection of a new city hall building," there shall be added five citizens of Concord who shall not be members of the city council. Said additional members of the committee shall be appointed by the mayor and confirmed by the city council in joint convention by a majority vote.

The committee thus constituted, consisting of the committee whose appointment was provided for under the terms of the aforesaid original resolution and of the five additional members herein provided for, shall have and exercise all the powers and perform all the duties devolving upon the building committee under the terms of said original resolution. Said committee, as now constituted under the terms of this resolution, shall continue to exercise their powers and duties until the completion and acceptance of said new building, whether they continue to be members of the city government or not. No member of said committee shall receive any compensation for his services. Five members of said committee shall constitute a quorum for the transaction of all business, except the certification of bills and making requests for the issuance of notes or bonds.

SECT. 2. This resolution shall take effect upon its passage.

Passed January 14, 1902.

---

A JOINT RESOLUTION ESTABLISHING A LIQUOR AGENCY FOR THE ENSUING YEAR.

*Resolved by the City Council of the City of Concord, as follows:*

That a liquor agency be established for the ensuing year in accordance with the public statutes of the state of New Hampshire.

DEPARTMENT REPORTS.

# HIGHWAY DEPARTMENT.

## REPORT OF COMMISSIONER OF HIGHWAYS

*To the City Council:*

GENTLEMEN:—In accordance with the ordinance, I herewith submit the annual report of the work and expenditures of the highway department for the year of 1901. Much repairing in general, some permanent improvements and the usual work of the department has made the year a particularly busy one.

### GENERAL MAINTENANCE.

The sum of \$18,600 was appropriated for general maintenance this year, but this amount does not seem sufficient to meet the numerous expenses which must be taken from the appropriation. The streets are in bad condition generally and need a good deal of repairing. Beside the trimming of shade trees, the care of ice and snow and sanding walks does not keep the roads in repair in any way, and while the expense is considerable it does not show after the ice and snow are gone. Of course the month of December is very uncertain in regard to expense. This year we had a severe storm December 3 and 4, which was followed by a thaw, and the expense of this one storm was \$621.13, which shows that if we have many storms in the year serious inroad is made on the appropriation for general maintenance.

The shade trees of our city are dying fast and the department has been requested to remove a large number of dead trees the past season. Most of the shade trees need trimming badly and it will require quite a little expense. I think there should be a separate appropriation for removing and trimming trees, for the amount expended in that direction does not show in the street repairs.

Most of the bridges in the city are in good condition. Two new ones will have to be built across the Soucook river, one on the Sheep Davis road, so called, and the Thompson lower bridge, which was washed away two years ago and has never been rebuilt. The town of Pembroke has not been ready to rebuild, but I understand that they will be ready to build both bridges next season. East Concord bridge has been replanked and the Sewall's Falls bridge repaired this year. The Loudon bridge will need painting next summer.

Not many new streets have been granted this year. Stone street, at the south end, was granted and put into passable condition, and a small outlay another season will make it a good street.

A change of grade on Pitman street was granted last year, but the work was not done until this. After the street was cut down it was found to be unsatisfactory, and a petition to have the grade reëstablished was granted. The street is now in satisfactory condition.

By the new layout of the Concord Street Railway, granted by the city government, a new track was laid to the Concord State Fair grounds, which added quite an expense to this department for putting the street back into good condition. Should the railroad broad gauge its line next season it will call for more street repairs. The work of putting in the new electric railway on Hall street was begun late in the fall and a large amount of grading done. When the railroad completes the work in the spring I think the street will be in better condition than ever before.

The track of the street railway from West Washington street to Pine at the west end was moved into the center of the street, which made it grade Centre street. The expense was \$617.29, and we now have a street sixty-five feet wide, which is a great improvement.

The highway department has had eight horses at the city stable, which have for the most part been taken from the fire department after they were beyond service there. On coming into office in February I found that two of the horses were useless, and we killed and buried them. Later on

another became useless and that was killed also. Two more will soon be beyond service, and it will then be necessary to purchase some new horses for use in the department.

#### CLEANING STREETS.

The amount appropriated for cleaning streets was hardly sufficient this year, and although the changing from one method to another may have made some difference in the expense I would recommend that the appropriation be increased. The following ordinance relating to the removal of garbage was passed in April, 1901 :

#### NOTICE.

##### A RESOLUTION RELATING TO THE REMOVAL OF GARBAGE.

*Resolved by the Board of Mayor and Aldermen :*

That for the improvement of the sanitary condition of the city and for the convenience of the people residing in the central portion thereof, the Commissioner of Highways is hereby authorized and instructed to cause the city teams to collect and remove all waste material and garbage at least once in three weeks, in all seasons of the year, when practicable, within the following limits: Commencing at the point where Penacook street intersects with the Boston & Maine Railroad, thence by said Penacook street to North State street; thence by North State street to intersection of North State street and Rumford street; southerly through Rumford street to Beacon street; westerly through Beacon street to White street; southerly through White street to Washington street; westerly through Washington street to Centre street, to Park Ridge, Park Ridge to Giles; southerly through Giles to Warren; westerly through Warren to intersection of Warren and Pleasant; thence easterly through Pleasant street to South Spring street; thence southerly by South Spring street and Avon street to South street; thence southerly by South street to Pillsbury street; thence easterly by said Pillsbury street and the line of said street extended to the Boston & Maine Railroad; thence northerly by the Boston & Maine Railroad to the point begun at, including all streets that are within the territory herein bounded.

All such work shall be done in accordance with such rules and regulations as the Superintendent of Streets shall prescribe.

We began the work by starting one garbage team at each of the two extreme limits, both teams working towards the center of the city each day excepting Wednesdays, when both collect in the central portion, and going over the district once in two weeks. The ordinance requires collection only once in three weeks, but the department finds it can cover the territory in two, and if residents would please be careful not to put the garbage out oftener than once in two weeks it would assist the department greatly. Of course the amount to be collected varies considerably each time, so that often we are not able to reach each street on exactly the same day of the week, but the time will vary but a little. The whole system of collecting garbage has been re-arranged, and in another season the department hopes to give better service.

#### CATCH BASINS.

An appropriation of \$1,500 this year for catch basins was sufficient. The usual amount of repairing has been done, new basins built, and all thoroughly cleaned.

#### SIDEWALKS AND CROSSINGS.

Considerable repairing of concrete walks has been done the past year, and all new concrete walks granted by the city government have been laid excepting the one at the Dewey school, and the petition of G. H. Rolfe, which was granted too late to be constructed this season. In Penacook, a walk 1,800 feet in length was constructed on Merrimack street. It makes a fine walk from the railroad station to the village, and is a great improvement over the gravel walk, which was in very bad condition in wet weather.

#### PERMANENT WORK.

The amount appropriated for permanent improvements was \$10,000. The demand for general repairs was such that it was found necessary to keep back a portion of this amount for use under general maintenance in case of severe storms, and therefore we were not able to do as much in the line of permanent work.

A petition for macadam on Warren street was presented to the city government and granted. About two thirds of a mile, twenty-four-foot roadway was built from Spring street to Fruit at an expense of \$3,839.32, and we now have a good macadam road from Spring street to the "Monument." This road is used a great deal for pleasure riding especially, and it should be extended from the "Monument" to St. Paul's School.

Another piece of macadam, twenty-four-foot roadway 773 feet in length, was put in on South State street from West to Main at an expense of \$1,186.59. This class of macadam, such as Warren and South State street, can be built for about \$7,000 a mile.

The macadam on the Penacook road which was put in five years ago has stood the wear well, and nothing has been expended for repairs. On account of the large amount of travel over this road, I think it would be well to extend this both toward West Concord and Penacook from the piece now in.

North Main street from Centre to Pitman has been in such bad condition for several years that the city government voted to concrete that portion west of the street railway track. The expense was \$1,836.36, and we now have a very good street there.

Quite a little grading has been done on North State street with stone chips from the stone sheds. This makes a very good road for the money expended, especially where there is considerable heavy teaming.

The stationary crusher on Rumford street, which has been in use some twenty years, is in bad condition, and a new engine ought to be purchased before another season. The inspector's report of the condition of the boiler was unsatisfactory. He reports that it cannot be run with a pressure over sixty pounds, and we find that is not sufficient to run the plant. The matter of purchasing a new engine was considered by the committee on roads and bridges, and they thought it advisable to purchase, but the season's work was

so nearly done that the subject was given up. Quite a little will have to be expended in repairing both crushers and the steam roller next year.

#### SPRINKLING.

The street sprinkling precinct was extended the past season and two sprinklers added. There is still a call to have the precinct enlarged another season, which if done will require more sprinklers. The department now has thirteen sprinklers, which have all been repaired and painted, and are now ready for use.

#### IN GENERAL.

Early in the year the city purchased a lot for the highway department which is proving a good investment, for the city needed the gravel and a place to dump ashes. It seems to me that it is an advantage for the city to purchase a gravel bank rather than to buy by the load.

The call for macadam roads is increasing each year, and it seems it would be wise for the city to hold a portion of their quarries at West Concord, for there will be need of this class of material in a few years, as the present supply for macadam will soon be exhausted.

The city government voted to send the commissioner of highways to the annual meeting of the American Society of Municipal Improvements held at Niagara Falls the first week in October. It was a very interesting meeting, and the subject of good road building was quite freely discussed. The speakers taking the more active part in the discussion were from cities where good road building is done on an extensive scale and large amounts expended in their construction; but many useful ideas were advanced which would be a benefit to cities of our size.

I would call the attention of the city government to the dangerous condition of the roofs of the Baptist church on State street, the Warren-street side of the Baker Memorial, corner State and Warren, and the Spring-street side of the

brick tenement house, corner Spring and School. The accumulation of snow slides off these roofs during thaws, and there have been several narrow escapes from serious injury. The owners of these pieces of property should be requested to do something for the protection of the public.

In closing, I would express my appreciation of the interest taken in this department by the mayor and the members of the city council, and the courtesy extended to it by all departments of the city.

Respectfully submitted,

ALFRED CLARK,  
*Commissioner of Highways.*

# CITY ENGINEER.

---

## REPORT OF CITY ENGINEER.

---

OFFICE OF THE CITY ENGINEER,

CONCORD, N. H., December 31, 1901.

*To the City Council:*

In accordance with the ordinance creating this department, the ninth annual report is herewith submitted for your consideration, together with a statement of the amounts expended on sewer construction and repairs.

The accommodations in the office for the safe storage of plans, note books and records, are entirely inadequate, and it is respectfully suggested that a large vault be provided in the new city building for this purpose. Plans and records increase from year to year, and will probably continue to increase more rapidly as the city increases in population.

The work of this department has materially increased since its organization, but we have been able to carry it on with a small force.

Work on the general survey of the city has been carried on as in the past, that is, when we could spare the time for it from work under way. We have now completed the field work to the Loudon line on the Loudon road, with the exception of the Soucook river from Richardson's mill to the Davis bridge; also the territory lying between the Loudon road and the Mountain road, north of East Concord village and east of the Merrimack river above Sewall's Falls road.

## SEWERS.

Comparatively little work has been done in the city precinct, the Penacook precinct and the West Concord precinct. In the East Concord precinct nothing has been done, either in the line of extensions or repairs.

The question of enlarging some of the sewers in the city precinct must receive your attention at some time in the near future. Heavy showers have flooded many premises, and in some localities ordinary rains have overloaded the sewers.

No extraordinary repairs have been made upon the sewer system. The principal changes have been made on account of the Street Railway locations granted in Clinton street and in Hall street, but the greater portion of said changes have been borne by the Street Railway.

A pipe should be laid on the westerly side of North State street from Calvary cemetery to the brook, crossing North State street near the main entrance to Blossom Hill cemetery, to provide an outlet for the surface water coming from the cemeteries and adjacent property. This would avoid overloading the sewer in the easterly side of the street. It would be much cheaper than conveying the water to the Merrimack river, for that would necessitate the relaying of the entire line in North State street from Penacook street to Calvary cemetery. When the upper end of this line was laid it was assumed that the surface water would be carried, as it had been in years past, into the brook above mentioned. The sewer as constructed will carry the flow of surface water on the easterly side of the street, but it is not large enough—and was not intended—to drain the cemeteries and contiguous land on the westerly side of the street.

A relief sewer has been built the past season from a point in North Main street just north of the junction of North Main and Warren streets sewers, into Depot street. This should relieve the Main street sewer of a portion of its overload in time of showers and avoid the flooding of basements north of this point.

There has been added the past season one new sewer precinct, known as the St. Paul's School Sewerage precinct.

The system in process of construction in this precinct is what is known as the "separate system," and provides for the removal of house sewage only. No street or surface drainage can be connected with this system. The surface water can be easily disposed of in the natural channels without material damage to landowners.

The work is done under contract, and not until after the contract was let and operations commenced was there any objection raised to this system, or, at least, nothing was said to this department. A system to provide for all sewage and surface drainage could have been easily designed at the start, but the cost would have been materially increased and the burden of the taxpayers, in this precinct, would have been much heavier. The entire work should be completed early next season.

#### NEW STREETS.

One new street has been laid out: four streets have been extended; one street relaid, and two streets have been extended upon the condition that the landowners grade them, and put them in shape acceptable to the commissioner of highways.

In the opinion of your engineer, it would be to the mutual advantage of the city and owners of land to have all new divisions of land plotted upon the city plans, and have proposed streets plotted with some regard to grades and intersections with existing streets.

The employees of this department, the past season, have been: Frank W. Brown, principal assistant; P. M. Corry, transitman; Edward J. Murphy, Harry C. Hill and C. Walker Brown, rodmen, who have rendered valuable assistance in their respective positions.

The expenses of this department have been as follows :

Paid for salaries . . . . .	\$2,575.67
supplies . . . . .	125.15
car fares and livery . . . . .	251.82
repairs . . . . .	16.95
postage, express and incidentals . . . . .	6.45
coal . . . . .	77.33
	<hr/>
Total . . . . .	\$3,053.37
Appropriation . . . . .	3,000.00
	<hr/>
Overdrawn . . . . .	\$53.37

#### STREETS LAID OUT.

Ridge road, from its northerly terminus to Forest street extension.  
 Stone street, from its westerly terminus to Bow street.  
 Carter street.  
 Eastman street, from Pillsbury street to Carter street.  
 Kimball street, from Pillsbury street to Carter street.  
 Merrimack avenue, Penacook.

#### CONDITIONALLY.

Ridge road extension, north from Forest street extension.  
 Forest street, from Auburn street to Ridge road extension.

#### GRADES ESTABLISHED.

Easterly sidewalk, Dunklee street, from Allison street northerly 55 feet.  
 Northerly sidewalk, Allison street, from Dunklee street to Glen street.  
 Westerly sidewalk, Dunklee street, from Pillsbury street southerly 200 feet.  
 Easterly sidewalk, North State street, from Ola Anderson's southerly line to Stone bound No. 10.  
 Westerly sidewalk, South Spring street, opposite the premises of F. P. Kellom.  
 Westerly sidewalk, South Spring street, opposite the premises of M. T. Berry.  
 Stone street.

Easterly sidewalk, Rollins street, from Washington street southerly 138 feet.

Southerly sidewalk, Merrimack street, Penacook, from Cross street to Penacook street.

Hall street.

Water street, from West street to Hall street.

Ridge road extension.

Northerly sidewalk, Forest street, from Valley street westerly 100 feet.

Kimball street extension.

Eastman street extension.

Carter street.

Westerly sidewalk, South Spring street, opposite No. 40.

Southerly sidewalk, Beacon street, from Rumford street to Lyndon street.

Northerly sidewalk, Tremont street, from Lyndon street westerly 146 feet.

#### GRADES AMENDED.

Northerly sidewalk, Pillsbury street, from Broadway to South street.

Southerly sidewalk, Pillsbury street, from Broadway to South street.

Westerly sidewalk, South Main street, from Pillsbury street southerly 546 feet.

Easterly and westerly sidewalks, Eastman street, from Pillsbury street to South street.

Kimball street, from Allison street to Pillsbury street.

#### COST OF SEWER WORK, 1901.

##### RUMFORD STREET, SOUTH FROM WYMAN STREET.

101 feet of 8-inch Akron pipe.

Paid for labor . . . . .	\$23.12
pipe . . . . .	19.35
cement . . . . .	2.70
trucking . . . . .	1.00
oil . . . . .	.55
tools . . . . .	1.50
	<hr/>
	\$48.22

Average cost per foot, \$0.477.

Material excavated, sand.

HIGH STREET, SOUTH FROM CENTRE STREET.

165 feet of 10-inch Akron pipe.

Paid for labor . . . . .	\$119.48
pipe . . . . .	44.67
cement . . . . .	3.90
trucking . . . . .	4.50
oil . . . . .	.55
tools . . . . .	4.14
	<hr/>
	\$177.24

Average cost per foot, \$1.074.

Material excavated, gravel and hard-pan.

NORTH MAIN STREET, RELIEF SEWER, WARREN STREET TO DEPOT STREET.

181 feet of 24-inch Akron pipe.

Paid for labor . . . . .	\$391.39
pipe . . . . .	202.27
brick . . . . .	42.05
cement . . . . .	17.15
castings . . . . .	27.36
wrought iron . . . . .	2.38
trucking . . . . .	28.25
hardware . . . . .	2.20
oil . . . . .	1.65

Balance on hand, December 31, 1901 . . . . .	\$18.07

## EAST CONCORD SEWER PRECINCT.

No money has been expended in this precinct for repairs or extensions during the past season.

## ST. PAUL'S SCHOOL SEWERAGE PRECINCT.

Paid C. L. Fellows & Co. on contract . . . . .	\$4,564.50
inspector . . . . .	255.00
typewriting contract . . . . .	5.72
	<hr/>
Amount expended . . . . .	\$4,825.22
Appropriation . . . . .	\$6,000.00
Amount expended . . . . .	4,825.22
	<hr/>
Unexpended balance, December 31, 1901 . . . . .	\$1,174.78

Land damage to the amount of \$150 was awarded James W. and Lyman H. Lane, but up to date said award has not been accepted.

There has been deposited to the credit of the city, for rent of pumps and sale of material, the sum of \$43.57, for which amount I hold receipts of the city treasurer.

Respectfully submitted,

W. B. HOWE,  
*City Engineer.*

# REPORT OF BOARD OF EXAMINERS OF PLUMBERS.

---

## *To the City Council:*

The second annual report of the board of examiners, covering its action for the year 1901, is herewith submitted for your examination and consideration.

The board for the first three months of the year consisted of D. E. Sullivan, M. D., chairman; W. B. Howe, clerk, and Patrick A. Clifford.

On March 29, the new board organized as follows: Timothy Kenna, chairman; W. B. Howe, clerk; Russell Wilkins, M. D.

Under the city ordinance Dr. Wilkins became a member of this board as chairman of the board of health, and Mr. Kenna, a journeyman plumber, an appointment by the mayor, for the term of one year.

The board have held twelve regular and ten special meetings during the year. Seven men have successfully passed the examination and been granted licenses as journeymen plumbers; two have passed and been granted licenses as master plumbers, and two have failed to pass as journeymen. Your examiners would renew their recommendation of one year ago and respectfully request that a room be fitted up in the city building where the practical work can be done; the city engineer's office has not the necessary accommodations for this work, and it interferes with the work of that department.

The total receipts of the board are \$31.50, which amount has been deposited with the city treasurer and his receipts for the same are in the hands of the clerk of the board. There has been expended for supplies used in examinations \$18.24.

The following is a list of all the registered plumbers, given in the order in which they appear on the register :

MASTER PLUMBERS.

W. Arthur Bean, certificate renewed.

Seth R. Hood, “ “

Willis H. Robbins, “ “

William A. Lee, “ “

Benjamin H. Orr, “ “

Richard J. Lee, “ “

George A. Harwood, “ “

Michael J. Lee, “ “

Albert S. Trask, “ “

Edward H. Randall, “ “

Frederick Booth, “ “

G. Arthur Nichols, license renewed.

Charles W. Bateman, examined and license issued.

Timothy J. Fitzpatrick, examined and license issued.

EMPLOYING PLUMBERS.

George S. Milton, certificate renewed.

M. E. Clifford, “ “

Isaac Baty, “ “

Charles M. Downes, “ “

JOURNEYMEN PLUMBERS.

William S. Dutton, license renewed.

George N. Berry, certificate renewed.

Charles H. Berry, “ “

Henry P. Cilley, “ “

Timothy Kenna, license renewed.

Thomas Matthews, “ “

Philip King, certificate renewed.

William L. Reagan, certificate renewed.

William H. McGuire, “ “

Harry H. Kennedy, “ “

P. Harrison D. Leary, certificate renewed.  
 Edward M. Batchelder,       “       “  
 Patrick A. Clifford,       “       “  
 Richard O'Brien, license renewed.  
 Patrick J. Colbert,       “       “  
 Frederick T. Converse, license renewed.  
 Richard H. Lyna, certificate renewed.  
 Edgar W. Sanborn, license renewed.  
 Michael J. Finn,       “       “  
 Clarence A. Goodhue, certificate renewed.  
 Joseph D. McLaughlin, license renewed.  
 John Vogel,       “       “  
 Michael Tierney, examined and license issued.  
 Charles F. Bascom,       “       “       “  
 George W. McConnell,       “       “       “  
 Charles W. Hanson,       “       “       “  
 Joseph W. Buckley,       “       “       “  
 James F. Cribbins,       “       “       “

making a total of forty-six names on the register, holding licenses and certificates issued during the year.

Respectfully submitted,

TIMOTHY KENNA,  
 W. B. HOWE,  
 RUSSELL WILKINS,

*Board of Examiners of Plumbers.*

# POLICE DEPARTMENT.

## REPORT OF THE CITY MARSHAL.

*To the City Council:*

The organization of the police department at the present time is as follows :

POLICE COMMISSIONERS.

Josiah E. Dwight,    Giles Wheeler,    Myron J. Pratt.

G. Scott Locke, city marshal	Appointed June 30, 1888
James E. Rand, assistant marshal	“    April 16, 1861
Daniel S. Flanders, capt'n night watch	“    Jan. 26, 1889

REGULAR POLICE AND NIGHT WATCHMEN.

Whitney D. Barrett, Penacook,	Appointed Jan. 24, 1893
James Kelley, Penacook,	“    March 23, 1893
Charles W. Hall,	“    April 3, 1894
Charles H. Rowe,	“    Dec. 10, 1895
Samuel L. Batchelder,	“    Dec. 21, 1897
Hoyt Robinson,	“    March 28, 1900
John E. Gay,	“    April 24, 1901
Christopher T. Wallace,	“    Nov. 27, 1901

SPECIAL RESERVE OFFICERS.

George H. Silsby, captain.

O. H. Bean,	Charles E. Kelley,
Willie A. Little,	Rufus C. Boynton,
George W. Chesley,	James Jepson,
W. H. H. Patch,	Fred C. Coates,
Alvin H. Urann,	Oliver J. Raymond,
Harvey H. Oakes,	David J. O'Brien,
George N. Fellows,	Joseph A. Flanders,
Thomas P. Davis,	David S. Rogers,
Irving B. Robinson,	George G. Allen.

I will renew my recommendation for a stable suitable for a horse, wagon, and ambulance. It can be built after the same architectural design as the police station for \$1,000.

The police signal service has proved to be very useful and satisfactory. The number of duty calls that have been rung in by police officers during the past year is 35,472, besides a large number of emergency calls.

On account of the increased business at the south end there is a demand for an additional night officer, only one night officer being on duty south of Pleasant street at the present time. There is also a demand for an officer at the west end and at Fosterville, and I would most respectfully recommend that provision be made for the appointment of these additional police officers.

In submitting my report, I desire to express my gratitude to the board of police commissioners, His Honor Mayor Harry G. Sargent, and the city council, for their considerate treatment of this department. Thanks are due Edmund S. Cook, city solicitor, for valuable assistance rendered. To all who have contributed to our success we extend our thanks. To the members of the force my grateful acknowledgment and thanks are tendered for their efficiency and promptness in the discharge of their duties.

Respectfully submitted,

G. SCOTT LOCKE,

*City Marshal.*

## REPORT OF CLERK OF POLICE COURT.

---

*To the City Council:*

I herewith respectfully submit my annual report as clerk of the police court for the year ending December 31, 1901:

Number of civil cases entered, 82.	
Received entry fees in civil cases . . . . .	\$41.00
Paid city treasurer . . . . .	41.00

Respectfully submitted,

HARRY R. HOOD,

*Clerk of Police Court.*

## REPORT OF CITY SOLICITOR.

---

*To the City Council :*

I respectfully submit the following report for the year 1901 :

At the beginning of the year 1901, at which time I was elected city solicitor, there were pending against the city of Concord the following suits: Edward E. Hodgman *v.* Concord; Bertha E. Braley *v.* Concord; Mary J. Gay, William H. Gay, and Walter Gay *v.* Concord; Mary A. Bullock *v.* Concord; Lavina Arlin *v.* Concord; Concord Street Railway *v.* Concord; Elvira B. Lane *v.* Concord, and Augustus B. Hall *v.* Concord.

During the year the suits in favor of Edward E. Hodgman, Bertha E. Braley, and Mary J. Gay *et als.* have been settled on my recommendation; the city paying a small sum as damages in each case.

The suit of Mary J. Gay *et als.* was entered at the October term, 1893, of the supreme court. It appears from the reports of your former solicitor, Mr. Sargent, that the plaintiffs in this case took no steps for a number of years to bring it to a settlement. During the years 1899 and 1900 nothing could be done in this case, as Mr. Martin, counsel for the plaintiffs, was mayor of the city. The damage claimed in this suit was on account of laying out and building the extension of Glen street over land belonging to the plaintiffs. The city was clearly liable, the only question to determine being the extent of the damage. The amount of the damage was finally settled upon as \$361.12, and this amount was paid in full settlement of the case including all costs.

The suit of Edward E. Hodgman was entered at the October term of the supreme court in 1895. The damage claimed in this suit was on account of a change in the grade of North

State street which resulted in throwing surface water onto the land of the plaintiff, undermining the foundations of his buildings. The amount of damages claimed was \$150.00. At the time this suit was brought the plaintiff was not the owner of the damaged premises, although he owned them at the time of the damage. Mr. Sargent, the former solicitor, raised the question of law that on these facts the plaintiff could not maintain his suit. This question was decided adversely to the city by the supreme court. This decision of the supreme court rendered the city liable to the plaintiff for the actual damage sustained by him. This suit would undoubtedly have been settled by the former solicitor only for the fact that Mr. Martin, counsel for the plaintiff, was elected mayor, and nothing could properly be done with reference to this matter during his term of office. This suit was settled by the payment of \$100.00 as damages.

The suit of Bertha E. Braley was brought in October, 1897, and was for the recovery of damages on account of the laying out of Jackson street over land belonging to the plaintiff. The plaintiff in this case took no steps to press it to a settlement prior to this year. At the April, 1901, term of the supreme court, the plaintiff being dead, an administrator appeared in court to prosecute this suit. He was very anxious to get a settlement of this case in order to be able to settle the estate of the plaintiff. The city was clearly liable, and on my recommendation paid \$150.00 in full settlement of this suit including all costs.

The suit of Elvira B. Lane referred to in the last report of your former solicitor as being before the law term, at the time of making his report, was decided in favor of the city at the March term, 1901. At the April term of the supreme court judgment was entered for the city of Concord for costs. This judgment has been collected by me and paid over to the city treasurer.

The cases of Mary A. Bullock and Lavina Arlin and the Concord Street Railway are still unsettled.

The suits of Mary A. Bullock and Lavina Arlin are for damages for land taken in widening and straightening North State street. These cases will either be settled before the next term of court, or tried and disposed of at that time.

The case of Augustus B. Hall is for personal injuries received by the plaintiff while driving on Pleasant street, which the city was engaged in repairing. The amount claimed is \$5,000.00. The plaintiff claims that the city was guilty of negligence in the management of its road-roller, thereby frightening his horses, causing them to run away and resulting in the injuries complained of. This case came up for trial at the April term, 1901, of the superior court. I took the position that, even if the facts claimed by the plaintiff were true, the city was not liable as a matter of law. The plaintiff was non-suited on this ground. He took exceptions and the case was transferred to the supreme court. The case was argued before the supreme court at the December term, 1901, by counsel for the plaintiff and by the solicitor for the city. The solicitor has also filed two briefs in this case. If the decision of the supreme court sustains the ruling of the judge in the court below, judgment will be entered for the city. If the supreme court decides that the non-suit was improperly granted, the case will go back to the superior court for a trial on its merits.

During the year two suits have been brought against the city. One by W. H. Perry claiming \$2,000 damage on account of surface water being thrown onto his land and undermining the foundations of his buildings by reason of the construction of roads in the northern part of Blossom Hill cemetery. On my recommendation this suit was settled for \$200 in full for all damages and costs. The actual damage to the property was greatly in excess of this amount and I think this settlement was very favorable to the city. The other suit was brought by Joseph Stickney for an abatement of taxes. His claim is that his property is valued for the purpose of taxation largely in excess of any other property in the

city. Some depositions have been taken by the plaintiff in this action, and it will probably come up for trial at the April term, 1902, of the superior court.

During the year a large number of criminal complaints and warrants have been made in this office, and the solicitor has tried many criminal cases for the police department before the police court.

The solicitor has given advice and assistance to the various departments of the city government and to committees and members of the city council.

Respectfully submitted,

EDMUND S. COOK,

*City Solicitor.*

December 31, 1901.

# SANITARY DEPARTMENT.

---

## REPORT OF THE BOARD OF HEALTH.

---

*To his Honor the Mayor and City Council:*

In presenting the annual report of the Health Department, the board wishes to record the faithful work done by Mr. Palmer, our efficient sanitary officer.

During the year the personnel of the board has been somewhat changed, as Dr. Clark's term expired in April, and he declined a re-election; Mr. Berry was elected to fill the vacancy. Shortly afterward Dr. D. E. Sullivan resigned and Dr. L. A. Sanders was selected to fill the unexpired term. The board organized with Dr. Wilkins as president and Mr. Berry as secretary.

During the year there has been very little sickness from contagious diseases, as will be seen by reference to the detailed report of the sanitary officer. The total number of cases of diphtheria (65) seems large, but the general mildness of the cases can best be realized when we note that there were only four deaths from this cause. Undoubtedly the very mildness of these cases served to spread the disease.

The state Laboratory of Hygiene which has been opened since our last report has been of great value to the city, and promises to be of even more value in the future. Principally for the accommodation of the legal profession Dr. Watson has made arrangements to keep the laboratory open to receive cultures as late as nine o'clock in the evening. So far as we

know no other laboratory does this, and often in case of diphtheria it means a saving of twenty-four hours, when time is of inestimable value.

The board has thought it wise to lay in a small stock of antitoxine to be used upon patients who are too poor to purchase it, and would otherwise be deprived of its use. We consider this a legitimate expense for the protection of the public health. Application for antitoxine should be made through the sanitary officer.

Several complaints have been made to the board regarding the outlets of the West Concord sewer which empty near the old kit factory. This sewer should either be continued to the river as originally intended, or some other means found for disposing of the sewage. We also recommend that a sewer be laid in Penacook street from Bradley west for a distance sufficient to care for all the houses on that street.

#### INSPECTION OF MILK.

Agreeably to the recommendation made in the last report of this board, the city has adopted the law governing the sale and inspection of milk, skimmed milk and cream. This law was adopted October 8, 1901.

As with all new laws, it has taken some little time to complete arrangements for its perfect operation.

There have been issued up to January 1, 1902, 155 licenses. These were granted for a nine months' term, no license being issued for a shorter term than three months.

As the law has been in operation now over three months, and has been thoroughly discussed, there is no reasonable excuse for non-compliance with the law; and any person found selling without a license will be given a chance to test the law in its various phases.

There have been 54 inspections made. Of the above number nine samples were rejected as not being good average samples of the milk in question. The 45 samples gave the following result:

Out of 45 samples, 43 for cream tested standard or better. Out of 45 samples, 33 for total solids tested standard or better. Out of 45 samples, four for solids exclusive of fat tested standard or better.

As will be seen, only a few were up to the standard on solids exclusive of fat, while quite a number were below on total solids.

In order to determine what the true standard of a man's herd might be, the board has offered to make tests of milk that any dealer might bring in, providing it was done in a systematic and conscientious manner. In this way, we have no doubt shown to many the true value of each cow, and given them an opportunity to improve their herd with a view to getting better milk. The board felt that by this co-operation the standard could be brought up quicker and with better feeling for all concerned.

The inspection has been confined mostly to determining the percentage of fat, the total solids and the solids exclusive of fat. A few tests have been made for antiseptics, but with negative results. Some cream has been examined; no preservatives have been found, and the cream was of good general quality, but occasionally showed careless handling.

A volume could be written on the handling of milk. We find that careless handling leads to the use of antiseptics, because milk that has been stored in unclean cans, exposed to the air, will not keep for any length of time, and other means have to be resorted to in order to market the milk.

That antiseptics have been used by the milk trade of Concord there is no doubt, though we believe there are none being used to-day. To feel that a food product so universally used as milk, should be embalmed with a chemical or chemicals, which should only be used by the chemist and undertaker, cannot fail to impress even the most thoughtless and ignorant; and they should pause before making unjust criticisms on the importance of the law.

Milk is one of the most important food products that come under public inspection. It is the chief diet of invalids and

infants, while those in health are dependent on it to a greater or less extent. .

It must be borne in mind that milk furnishes the best of soil for certain kinds of bacteria, and that these bacteria increase very rapidly under the influence of heat and exposure to the air. Milk then, as generally taken care of, should be delivered to the consumer as soon as possible after being taken from the cow. Cleanliness should be observed in every detail, from the milking and the washing of the cans to the icing after proper cooling of the milk.

While the time has been short to expect great results from the present law, we feel sure that it has had a good moral influence. It takes time to arrange methods and to determine facts.

A systematic course will be followed in determining the most common offences, and it is the intention of the board that such offences shall receive their just punishment.

We are indebted to a number of milk dealers for their cooperation and support of the law, and we here extend our thanks to them in behalf of good government and citizenship.

#### SMALL-POX.

On Thursday, September 26, 1901, the board was notified that a case of small-pox existed in the city. Though this came somewhat as a surprise, as these cases must, still it did not find us totally unprepared, as we had been anticipating such an occurrence since the Manchester epidemic in 1900. The detention hospital had been opened up and thoroughly dried and aired a few days previously, so that it was in condition for immediate use and the patient was at once moved there. As soon as the state board was notified, they turned the entire control of the situation over to the local board. All exposed persons, so far as known, were immediately vaccinated and kept under observation; rooms and clothing that might be a source of further contagion were thoroughly fumigated. The patient was found to be very sick with confluent small-pox, said by competent authority to have been the first

case of this severe variety since the Claremont epidemic of six years ago. This patient died ten days after being removed to the detention hospital.

The question is not infrequently asked whether small-pox is really such a terrible disease or not, and whether the picture is not often overdrawn? To any such it is sufficient to say that if they had ever seen a case of true variola unmodified by vaccination and witnessed the sufferings of the patient, they never would have asked that question. It is one of the most repulsive and loathsome diseases which human flesh is heir to, and the horrors of it can neither be imagined nor described; one must be brought face to face with the conditions to fully realize what it means.

Another frequent source of inquiry is whether vaccination really has much influence in modifying the disease. It is at present the only known means of preventing or modifying small-pox. That it does this is evidenced by the present low mortality from a disease formerly so fatal.

Fortunately recent fearful epidemics are rare, and the few (7) deaths within our own state from upwards of four hundred cases which have occurred since the first outbreak in May, 1900, bears striking evidence to the efficiency of vaccination, and especially is this true when we consider that so far as it has been possible to ascertain the facts in regard to the fatal cases all have been among those not protected by vaccination. It may be interesting to quote one or two illustrations, showing the efficiency of thorough vaccination in eradicating the disease. A recent report in hygiene shows that in Russia the average number of deaths due to small-pox from 1846 to 1874 was 24.45 per 100,000 population, and one year the rate reached 262.4 per 100,000 population. In 1874 compulsory vaccination laws were passed and the death-rate from this disease at once dropped wonderfully as shown in the next ten years, which gave a mortality of only 1.51 per 100,000 population, and in 1886 it was only 0.49 per 100,000. Many similar cases could be cited, as, for instance, the recent report of the superior board of health of Porto Rico, in

which the following statement is made: "The average annual number of deaths from small-pox for the past ten years was 621, the greatest number, 2,362, occurring in 1890, and the least, 11, in 1893; in 1899 there were about 50 per cent. less deaths than in any of the three years preceding. This decrease was due to the general vaccination of the island, which was concluded June 30 of that year; 860,000 vaccinations were performed under the directions of the chief surgeon of the department during the four months preceding this date. All the deaths reported in 1899 from small-pox, except one, occurred prior to the day on which the work was concluded. At the rate of 242 for the first six months the annual deaths would have been practically the same as in the preceding three years. During the seven months covered by these statistics but one death has occurred from this cause.

"Since the completion of the general vaccination of the island, June 30, 1899, there have occurred down to the present time, November 23, 1901, but three deaths from small-pox in Porto Rico, the average annual death-rate has been reduced from 621 to less than 1.5."

To decry a prophylactic measure which has been proved so productive of good results, not only to the individual but to the community at large, would seem absurd.

It was generally supposed that the pupils of our public schools were well protected by vaccination, but a careful investigation revealed the fact that many had never been vaccinated at all, while others had a physician's certificate that they had complied with the law, themselves admitting that "it didn't take." All such were requested to get vaccinated at once. Altogether, upwards of eight hundred pupils were ordered to be vaccinated, this besides those attending private and parochial schools, of whom the same requirements were made. Certificates have been issued to all those presenting satisfactory evidence of having been successfully vaccinated. Such evidence may be either a satisfactory scar or a certificate properly endorsed by a licensed physician. A duplicate of the same is kept on file and all pupils are required to

present to the teacher before enrollment such certificate, which bears the seal of the health department. This uniformity in certificates will be of great assistance to teachers, besides relieving them of the responsibility of deciding whether certain certificates are valid or not. All this has necessitated considerable expenditure of time and money at the outset, but we believe it will prove to be a wise investment.

This board would earnestly recommend that the board of education require of our teachers what the law requires of our pupils.

In conclusion, we desire to express to the mayor, members of the city government, and to the sanitary officer our appreciation of their courtesy and support during the past year.

Respectfully submitted,

RUSSELL WILKINS, M. D.

L. A. SANDERS, M. D.

GEO. A. BERRY.

# REPORT OF THE SANITARY OFFICER.

---

*To the Board of Health :*

GENTLEMEN,—I have the honor to submit the following report relative to the operations of this branch of the department, and the condition of the public health during the year ending December 31, 1901.

## MORTALITY.

The total number of deaths reported during the year was 352, a decrease of 41 in the number as compared with last year, representing an annual death-rate of 13.11 per thousand population, this does not include the non-resident mortality in the hospitals and public institutions of the city; full information as to the number of deaths which occurred each month with reference to sex, disease, and age appears in the appendix.

## CONTAGIOUS DISEASES.

Happily the city has escaped all forms of epidemic during the year, the diseases that are more or less contagious having been broadly scattered and mild in character. Every possible effort has been made to carry out the quarantine rules and regulations, and in no instance have I known of the disease being spread after having been reported and the house placarded, and isolation ordered.

The following table contains the whole number of cases, and the deaths resulting therefrom:

MONTHS.	Diphtheria.		Scarlet fever.		Typhoid fever.		Small-pox.		Measles.	
	Cases.	Deaths.	Cases.	Deaths.	Cases.	Deaths.	Cases.	Deaths.	Cases.	Deaths.

1901.....	65	4	11	.....	13	3	40	.....	1	1	130	8

## DISINFECTION.

Formaldehyde has been generally accepted as the most potent of disinfecting agents, and is used almost exclusively for this purpose by the department.

An increased demand has been made upon the department for fumigation of houses in which cases of infectious diseases have existed.

Other methods of disinfection are faulty, but our experience with formaldehyde shows it to be a most effective agent, in that no case of infectious disease has followed where thorough fumigation with this gas has been instituted.

## NUISANCES, COMPLAINTS, AND INSPECTIONS.

A statement of the number and character of the nuisances which have been abated by this department during the year appears below :

Accumulation of decayed fruit and coal ashes	63
Bad sink drainage . . . . .	30
Broken sewer traps . . . . .	30
Catch basins not trapped . . . . .	41
Dead animals . . . . .	17
Decayed meat and fish . . . . .	11
Defect in house sewer . . . . .	34
Dumping rubbish . . . . .	26
Dropping manure in the streets . . . . .	4
Defective plumbing . . . . .	19
Filthy stables . . . . .	12
Filthy cellars . . . . .	23
Filthy swill barrels . . . . .	6
Filthy yards . . . . .	18
Filthy alleyways . . . . .	9
Foul and offensive cesspools . . . . .	5
Keeping hogs . . . . .	16
Keeping hens . . . . .	12
Offensive manure heaps . . . . .	14

Offensive privy vaults . . . .	11
Offensive odor in house . . . .	31
Privy vaults full . . . .	34
Private sewers obstructed . . . .	18
Sinks found without traps . . . .	9
Sewer gas in house . . . .	6
Sewerage backed into cellars . . . .	16
Street sewers obstructed . . . .	8
Sewers not properly ventilated . . . .	23
Surface sink drains . . . .	4
Throwing swill in alleyways . . . .	2
Throwing ashes in street . . . .	13
Throwing slops in street . . . .	1
Water closets without water supply . . . .	12
Water closets foul and offensive . . . .	5
Water closets not ventilated . . . .	7
	<hr/>
Total . . . . .	590

## HOUSE INSPECTION.

House inspection has been continued as time would permit. The following table will give the amount of work done in this direction :

Dwelling houses inspected . . . .	97
Tenement houses inspected . . . .	213
Stores inspected . . . .	18
Stables inspected . . . .	24
Meat and fish markets inspected . . . .	3
Schoolhouses inspected . . . .	15
Business blocks inspected . . . .	9
Alleyways inspected . . . .	13
Inspections of Penacook Lake . . . .	12
Inspections of reservoir . . . .	9
	<hr/>
Total . . . . .	413

## SEWER INSPECTION.

In compliance with the city ordinance I have endeavored to perform my duty in regard to the enforcement of the rules and regulations relative to sewers and drains. In all cases, so far as known, I have personally inspected the connections made and work completed.

A complete record has been made and filed of the fifty-one sewers, giving location of inlet, size and kind of pipe used, rate of fall per foot, total length, and name of drain-layer doing the work.

## INSPECTION OF PLUMBING.

The number of inspections made during the year will be found in the table below, and it gives me pleasure to state that with few exceptions, harmony exists all along the line. The plumbers, like all other craftsmen, come across conditions in their profession which no law seems to properly cover, and often the plumber and myself have to reasonably agree how the work can best be done to keep the spirit of the the city ordinance. I find the plumbers willing to assist in maintaining law, only once have I been called upon to prosecute a case.

Plumbing permits granted . . . . .	186
Water closets put in . . . . .	237
Bath tubs put in . . . . .	88
Urinals put in . . . . .	19
Wash trays put in . . . . .	24
Sinks put in . . . . .	139
Shower baths . . . . .	33
Wash-bowls put in . . . . .	114
Number sewers . . . . .	51
Total number of inspections of plumbing . . . . .	433

## SUMMARY.

Houses placarded in cases of contagious diseases . . . . .	117
Placards removed . . . . .	108
Visits made to contagious diseases . . . . .	763
Rooms fumigated . . . . .	470
Pieces of bedding and clothing burned . . . . .	206
Churches and schoolhouses fumigated . . . . .	6
Burial permits issued . . . . .	352
Burial permits issued to non-residents . . . . .	59
Transfer permits issued . . . . .	124
Garbage licenses issued . . . . .	52
Number of reports of contagious diseases sent to state board of health . . . . .	48
Number of reports of contagious diseases sent to U. S. Marine Hospital Service, Washington, D. C. . . . .	52
Number of monthly mortuary reports sent in exchange to other cities . . . . .	1,200
Number of certificates issued for children to return to school . . . . .	76

Thanking the members of the board for their uniform courtesy and consideration.

I am very respectfully,

CHARLES E. PALMER,

*Sanitary Officer.*

MORTALITY REPORT.

## Mortality Report. -- Concluded.

Total number of deaths for the year 1901, 352, compared with 393, 1900.

Average death-rate for the year 1901, 13.11, compared with 15.57, 1900.

Total number births for the year 1901, 402, compared with 392, 1900.

Total number marriages for the year 1901, 199, compared with 180, 1900.

CHARLES E. PALMER,

*Sanitary Officer.*

# FIRE DEPARTMENT.

## REPORT OF CHIEF ENGINEER.

*To the Honorable Mayor and City Council:*

I herewith submit for your consideration the following report of the Fire Department for the year 1901 :

The department responded to forty-six (46) bell alarms and one hundred and fifteen (115) still alarms.

In addition, four (4) fires occurred for which no alarms were given.

	Bell alarms.	Still alarms.	No alarms.	Total.
Precinct,	41	105	1	147

buildings and contents,	\$514,040.00	\$34,551.40	\$330,540.46	\$20,907.47	\$13,643.93

Although the number of alarms exceeded all previous records, in but one instance did the fire assume threatening proportions.

In view of the immense amount of property destroyed throughout the country during the year, the city can be regarded in no other light than extremely fortunate at being called upon to contribute so little to the national ash heap.

The apparatus is in good condition. Except in the case of "Kearsarge" steamer, which was provided with a set of new flues, repairs have been of a minor nature.

The heating apparatus at the Old Fort station was removed during the year to the Good Will station, and new heating apparatus was installed at the former.

This change yielded all the results sought for, and settled the heating problem as far as these two buildings are concerned for some time to come.

The heating apparatus at the Central fire station has been in use for a quarter of a century.

Some of the boiler sheets are in an unsatisfactory condition, and I respectfully recommend that new heating apparatus be provided during the coming year for this building. Two thousand feet of hose were relined during the year. The abnormal advance in the price of grain and the excessive fall of snow during December, with the attendant expenditures for extra horses and breaking out hydrants, prevented the purchase of hose recommended in the last report.

I would, therefore, respectfully renew the recommendation that five hundred feet of fire hose be purchased. No horses were purchased during the year.

They are at present in good condition, but as two of them have grown old in the service, it would, in my opinion, be wise to provide for the purchase of one pair.

Nothing has occurred during the year to weaken my belief, as expressed in former reports, that the horses should be behind the apparatus. On the contrary, horses have fallen in taking their places, and every occurrence of that nature

tends to strengthen the belief that the hazard run is out of comparison with the amount involved in the remedy.

A glance in that direction will show that the south end of the city is rapidly growing away from the extreme southerly fire station. Undoubtedly at no distant day the problem of better fire protection for that locality will have to be solved.

The department is in need of from four to five dozen canvas service coats, and I respectfully recommend the purchase of the same.

I would also respectfully recommend the purchase of at least four Eastman perfection holders.

The fire alarm telegraph system is in good condition.

Twenty-one new movements of the latest and most improved pattern were placed in old boxes, and one new box was purchased during the year. New wire has replaced old wherever found necessary.

The storage battery system was installed in December, 1896, and it was thought at that time that the life of the elements would extend for two years.

They have been in use for more than five years, and although they appear to be in good condition at present, the time cannot be far distant when they will have to give way to new. It would be wise, therefore, in my opinion, to provide for the purchase of a new set.

The change from the gravity to the storage battery system has resulted not only in obtaining better service than it is possible to exact from the old system but in saving to the city double the cost of the change.

A few sections of the city still exist which could be better protected by the installation of signal boxes, and I respectfully recommend the purchase of two such boxes during the coming year.

During the month of August I had the honor to attend as a delegate the convention of the International Association of Fire Engineers held at Indianapolis, Ind. It was a largely attended and instructive convention, a report of which was rendered at that time.

In conclusion, I wish to assure your honorable body that it has been the aim of the committee and the undersigned to confine the expenditures within the bounds of the appropriation.

That success crowned the effort by a very narrow margin is made apparent by the table of disbursements appearing with other data in this report.

Respectfully submitted,

W. C. GREEN,  
*Chief Engineer.*

## FIRE-ALARM TELEGRAPH.

## NUMBER AND LOCATION OF FIRE-ALARM BOXES.

For the purpose of uniformity in numbering the fire-alarm boxes, the city is divided into five districts, viz. :

DISTRICT 1. Embraces that section of the city north and west of Washington street, box 17 of this division being located on the south side of the street.

DISTRICT 2. Embraces all between School and Washington streets.

DISTRICT 3. Embraces all between Pleasant and School streets.

DISTRICTS 4 and 5. Embrace all south of Pleasant street. The first figure of the box number will indicate the district.

## DISTRICT NO. 1.

- 9. New Hampshire state prison.
- 12. Curtice avenue.
- 13. Franklin and Rumford.
- 14. Bradley and Walker.
- 15. Main and Church.
- 16. Franklin and Jackson.
- 17. Alert Hose house.
- 18. C. S. Gale's store.
- 19. Centre and Auburn.

## DISTRICT NO. 2.

- 21. State, opposite Court.
- 23. Main and Chapel.
- 24. Main and Centre.
- 25. Main and School.
- 26. Centre and Union.
- 27. School and Merrimack.
- 28. School and Spring.

## DISTRICT No. 3.

- 32. Warren and Pine.
- 34. Central fire station.
- 35. Martin's drug store.
- 36. Pleasant and Spring.
- 37. Pleasant and North Fruit.
- 38. Orchard and Merrimack.

## DISTRICT No. 4.

- 41. South and Thompson.
- 42. Good Will Hose house.
- 43. Main and Fayette.
- 45. Nelson & Durrell's store.
- 46. Perley and Grove.
- 47. South, opposite Downing.
- 48. Thorndike and South.
- 49. West and Mills.
- 412. Wall and Elm.
- 413. Main, opposite Thorndike.
- 414. State and West.

## DISTRICT No. 5.

- 51. B. & M. R. R. new shops.
- 52. South Main and Allison.
- 53. Hall and Hammond.
- 54. Broadway and Pillsbury.
- 56. St. Paul's School.

## PRIVATE BOXES.

- 5. Boston & Maine Railroad—north end passenger depot.
- 6. The Abbot-Downing Company.
- 7. New Hampshire Asylum for the Insane.
- 8. Page Belting Company.
- 31. Boston & Maine Railroad coal sheds.
- 33. State house.
- 55. Boston & Maine Railroad old repair shop.

In addition to the above private boxes there are three located inside the state prison, all numbered 9.

## FIRE-ALARM SIGNALS.

1. Alarms rung in from boxes 31, 41, 42, 43, 45, 46, 47, 48, 49, 412, 413, 414, 51, 52, 53, 54, 55, and 56 will not be responded to by the Alert Hose company until signaled. The signal to proceed to the fire will be a second alarm, except 56.

Alarms rung in from boxes 8, 9, 12, 13, 14, 15, 16, 17, 18, 19, 21, 23, 26, 27, 32, 37, and 56 will not be responded to by the Good Will Hose company until signaled. It will be governed by the same signals governing Alert Hose company. The Alert Hose and Good Will Hose companies will hitch up and remain in readiness twenty minutes after the first alarm, to all boxes not responded to on first alarm. Then, receiving no signal (all out or second alarm), the officers in charge shall dismiss their companies.

Kearsarge Hose company will respond to all calls except 512.

Kearsarge steamer to all calls except 51.

Eagle Hose company to all calls.

Eagle steamer to boxes 5, 6, and 7, on first alarm; to boxes 23, 24, 25, 33, 34, 35, 42, 43, 45, and 413 on second; to all others on third, except 9 and 56.

Governor Hill steamer will respond to boxes 8 and 9 on first alarm; to boxes 5, 6, 7, 12, 13, 14, 15, 16, 17, 18, 19, 21, 26, 27, 28, 31, 32, 36, 37, 38, 41, 46, 47, 48, 49, 412, 414, 52, 54, and 55 on second; to all others on third.

Chemical engine will respond to all box alarms except 8, 9, 51 and 56.

Veterans' Auxiliary company will respond to all third alarms occurring before the recall, whether emanating from same box or not.

Two rounds of eleven strokes each will signalize the requirement of assistance out of town, and will be responded to by a detail of three men from each company, appointed for the purpose, and by those alone. Such apparatus will be detailed as circumstances warrant. In case further aid is necessary, box 34 (Central station) will follow.

All out signal, three strokes of the bells.

## BRUSH FIRE SIGNAL.

Three rounds of four strokes each will be sounded on the bells, and will be responded to by a detail of four men from each company, appointed for the purpose, and by those alone.

## MILITARY SIGNAL.

Two rounds of 3-1-2.

## CONCORD STATE FAIR GROUNDS.

Two rounds of 5-1-2.

To be responded to by Good Will company and apparatus, Eagle company excepting engineers and stoker, Eagle wagon, Kearsarge engine, engineer and stoker, and Hook and Ladder company.

All apparatus excepting Kearsarge engine to return immediately to quarters with detail sufficiently large to reload and work apparatus should occasion require.

Companies not responding to remain in quarters until recall is sounded, in readiness to respond to summons by telephone.

## SIGNALS FOR CLOSING SCHOOLS.

Two strokes of the bell given three times, with a pause of fifteen seconds between the rounds.

The signal to close for the forenoon session will be given at 8 o'clock.

The signal to close for the afternoon session will be given at 1.15 o'clock.

The signals to close all schools for one session will be given at 11.30 A. M.

## TESTING SIGNALS.

For the purpose of testing the condition and accuracy of the fire-alarm telegraph, a box alarm will be rung in every Monday afternoon at 4.30 o'clock precisely. It will be one single round only, indicating by the strokes on the bells the number of the box. The boxes used for this purpose will vary each week, alternating in the circuits.

Upon each other week-day a single blow upon the bells will be struck from the button of a box, alternating as before mentioned.

#### THE FIRE-ALARM TELEGRAPH

is the "Gamewell" patent. It embraces 38 miles of wire.

On the lines are 38 fire-alarm boxes belonging to the city, and 10 private boxes,—in all 48. There are three alarm bells, one of 3,724 pounds (bell-metal), one of 3,740 pounds (bell-metal), and one of 2,000 pounds (American steel). There are also 16 mechanical tappers, 40 direct-action tappers, one four-circuit repeater, and four indicators.

The battery consists of 226 storage battery cells for the lines, and 34 open circuit battery cells for other electrical purposes.

The alarm system was installed in 1880 by the Gamewell Fire-Alarm Telegraph Company.

#### DIRECTIONS FOR GIVING AN ALARM.

Above all things, keep cool.

In each box there is a small bell called a "tell-tale," designed expressly for the purpose of informing you whether an alarm is being transmitted, the instant you open the door.

Open the box, and, if this bell is not heard, pull down the hook once only and let go.

But if this bell should be heard it would indicate that another box had been pulled and it would be useless to attempt to pull another until the one already pulled had performed its mission.

Wait until twenty seconds have elapsed after the "tell-tale" has stopped ringing, close the door, which will restore the armature to the position it left when the door was opened.

Open the door, pull down the hook once only and let go.

Should there be no response, pull it again.

Then, should there be no response, go to the next box.

Unless your presence is most urgently required at the scene of the fire, remain at the box to direct the department.

Never open the box or touch anything pertaining to it except in case of fire.

Never give an alarm for a fire seen at a distance.

Be reasonably sure that there is a fire before giving an alarm.

Never give an alarm for a chimney fire unless there is imminent danger of the building catching.

# REGULATIONS OF CONCORD FIRE DEPARTMENT.

## CITY OF CONCORD.

IN THE YEAR OF OUR LORD ONE THOUSAND NINE  
HUNDRED AND TWO.

AN ORDINANCE RELATING TO THE FIRE DEPARTMENT.

*Be it ordained by the City Council of the City of Concord  
as follows:*

SECTION 1. The fire department shall consist of a chief engineer, two assistants within the precinct, one engineer each from Ward 1, Ward 2, and Ward 3; two steamer and hose companies, one company to consist of thirteen men, including driver, and one company to consist of fourteen men, including drivers; one relief steamer [company] to consist of two men; two hose companies to consist of eleven men, including driver; a chemical engine company to consist of two men; a hook and ladder company to consist of twenty-one men, including driver; steamer Pioneer, not less than twenty or more than forty men; hand engine companies, No. 2 and No. 3, not less than twenty or more than thirty men each. The engineers shall exercise the powers of fire wards, and those within the precinct shall constitute the board of engineers.

SECT. 2. The chief engineer and assistant engineers and all other members of the fire department shall hold their respective offices and places until they are removed, or their offices or places are otherwise vacated. The board of mayor and aldermen, for cause, and after a due hearing, may at any time remove from office or place the chief engineer, any assistant engineer, or any officer or member of the department. In case of vacancies from any cause in the department, of officers or men connected in any manner with the fire service, such vacancies shall be filled by the board of mayor and aldermen.

SECT. 3. The chief engineer shall give his entire time to the duties of his office, and shall not engage in or be connected with any other business or occupation, and shall reside in a house to be furnished by the city free from rent. He shall receive in full for his services, in addition to the use of said house, rent free, the sum of ten hundred and fifty dollars per annum.

SECT. 4. The chief engineer shall have the sole command at fires over all persons, whether members of the fire department or not. He shall direct all proper measures for extinguishing fires, protecting property, preserving order, and enforcing the laws, ordinances, and regulations respecting fires; and shall examine into the condition of the fire engines and all other fire apparatus, and of the fire engine houses, and other houses belonging to the city and used by the department, and by the companies thereto attached, as often as once a week, and whenever directed to do so by the mayor, or the committee on fire department through its chairman. He shall certify all bills and submit the same for inspection monthly to the joint standing committee on fire department. He shall report to the city council annually a statement of the receipts and expenditures of the fire department, the condition of the fire engines and all other fire apparatus, a detailed schedule of the property in his charge, the names of the officers and members, and all other facts in relation to the department. Whenever the fire engines or other fire apparatus require repairs he shall, under the direction of the committee on fire department, cause the same to be made, and as far as practicable he shall examine into the location and condition of fire apparatus belonging to corporations or private individuals within the limits of the city. He shall require permanent men, when not otherwise engaged, to perform such other duties and do such other work as in his judgment may be deemed proper. He shall be responsible for the proper care of all property connected with the fire department. He shall keep fair and exact rolls of the respective companies specifying the time of admission

and discharge, and the age of each member, and shall report annually, or oftener if directed, all accidents by fire which may happen within the city, with the causes thereof, the number and description of the buildings destroyed or injured, and the amount of loss and insurance on the same, together with the names of owners or the occupants, and shall make returns as required by the laws of 1889, Chapter 84, and entitled: "An act in relation to returns and statistics of fires." He shall visit each department house as often as practicable, and inspect the men, the books of the house, and see that the quarters are properly conducted and in good order. He shall have the power to suspend any officer or member of the department for insubordination, disorderly conduct, or neglect of duty, said suspension to continue pending the action of the mayor and aldermen. The chief engineer shall examine all places where shavings and other combustible materials may be collected or deposited, and cause the same to be removed by the tenants or occupants of such places, or at their expense, whenever in his opinion such removal is necessary for the security of the city against fires.

SECT. 5. In the absence of the chief engineer, the next assistant engineer in rank, who may be present, shall have the powers and perform the duties of the chief engineer and the seniority in rank of the engineers shall be determined by the board of engineers at their first meeting.

SECT. 6. The foreman of each engine, hose, and hook and ladder company, immediately after every fire at which said company may have attended, shall examine into the condition of the fire apparatus belonging to his respective company, and report any deficiency which may exist to the chief engineer. He shall keep, or cause to be kept by the clerk of his company, exact rolls, specifying the time of admission, discharge, and age of each member, and accounts of all city property entrusted to the care of the several members, and of all cases of absence and tardiness, in a book provided for that purpose by the city, which rolls and record

books are always to be subject to the order of the chief engineer and mayor. They shall also make, or cause to be made, to the chief engineer, true and accurate returns of all members, with their ages, and of the apparatus entrusted to their care, whenever called upon so to do.

SECT. 7. The foreman of each company shall, under the direction of the chief engineer, have charge and management of his company at fires; the assistant foreman shall assist the foreman in the discharge of his duties, and act as clerk of the company, and in the absence of the foreman assume his authority. The foreman and assistant foreman shall be appointed by the chief engineer.

SECT. 8. The stewards of the Alert and Good Will Hose companies shall act as drivers of hose carriages, take charge of and properly care for and exercise the horses used by each company. They shall be permanently engaged and devote their whole time to the department, and sleep in their respective hose houses at night; and for the proper execution of all duties required of them shall be subject to the direction of the chief engineer.

SECT. 9. It shall be the duty of every engine, hose, and hook and ladder company to have its engine, hose and other apparatus, cleaned, washed, oiled, reeled and housed immediately after its return from any fire or service, and at all times to maintain the same in good condition, and the members of the several companies shall perform any necessary duties which the chief engineer or their respective foreman may direct.

SECT. 10. All members of the department when on duty shall wear some suitable badge, to be designated by the board of engineers. The chief and permanent members shall wear at all times when on duty the regulation parade uniform worn by the fire department.

SECT. 11. The pay rolls for the board of engineers and the several fire companies shall be made up by the chief and clerk of the board of engineers semi-annually, on the first day of January and July. Foremen and clerks of companies

will forward their pay-rolls to the board of engineers for approval and after the action of said engineers and the approval of the city auditor and the committee on accounts and claims, said pay-rolls shall be passed over to the city tax collector, under whose sole direction all sums for services of call firemen shall be disbursed.

SECT. 12. No charge for extra services will be allowed any member of the department unless upon an order of a member of the board of engineers.

SECT. 13. No engine, hose or hook and ladder carriage shall be taken to a fire out of the city without permission from the chief engineer, except steamer Pioneer, which may be taken to any fire in the village of Penacook, nor shall any apparatus of the fire department be taken from the city except in case of fire, without permission from the board of mayor and aldermen; and in sending any apparatus to aid in extinguishing fires in neighboring localities, the chief in all cases will authorize his assistant next in rank available to take charge of the direction of such apparatus, and not allow any fireman, at such an emergency, to leave the city, except such a number as is actually required to man the apparatus, and no member to leave without permission or direction from the chief engineer.

SECT. 14. It shall be the duty of engineers and firemen, whenever there is an alarm of fire in the city, to repair immediately to the place of such fire, wearing a suitable badge, and the engineers shall take proper measures that the several engines and other apparatus be arranged and duly worked for the speedy and effectual extinguishment of the fire. The engineers shall inspect and make themselves familiar with all shops, hotels, tenement blocks, and all public buildings, halls, churches, schoolhouses, and asylums once in each six months, and study the location of all hydrants and reservoirs in the city, and generally inform themselves in all matters pertaining to their duties as engineers. No engineer shall interfere with or attempt to give orders relative to the location or use of a line of hose, when he has ascertained that another has

command of it, unless by consent of the engineer in command of it, or by orders of the officer in command of the fire; and it shall be his duty to inquire if there is an officer in charge.

SECT. 15. For each absence from fire, or neglect of duty, the chief engineer, the assistant engineers, and engineers of steamers shall be fined three dollars, and each other member of the department one dollar; provided, however, that any fireman liable as above may in case of sickness have power of substitution by giving notice, each assistant engineer to the chief, each foreman to an engineer, and each other member to the foreman of his company. All fines shall be paid to the clerks of respective companies at the first regular meeting after they are incurred. The clerks of companies shall disburse the fines to substitutes answering for absent members in cases where there were substitutes. In cases where there were no substitutes the fines shall be paid to the city.

SECT. 16. Any volunteer company using the apparatus of the city at any fire shall be under the control and command of the chief engineer and his assistants, agreeably to the foregoing provisions of this chapter.

SECT. 17. The department shall appear for public parade, drill and inspection at such times as the chief engineer and committee on fire department shall order, for which purpose three hundred dollars can be expended annually. The companies in Wards 1, 2, and 3 will attend by invitation and voluntarily. Each company in the department under the direction of the chief engineer or assistants shall take out their respective engines and apparatus for exercise and drill as often as he shall direct, such exercise and drill to take place in public, not oftener than once a month, and at least once in two months, between the first of April and November.

SECT. 18. The engineers shall have control of all persons appointed to serve in any company of the fire department and power to direct and control the labor of all persons present at any fire. An engineer may and shall cause any fire deemed by him to be dangerous in any place to be extinguished or removed.

SECT. 19. The engineers may establish such regulations respecting the kindling, guarding, and safe-keeping of fires, and for the removal of shavings and other combustibles from any building or place, as they shall think expedient. Such regulations shall be signed by a majority of the engineers. Such regulations shall be approved by the mayor and aldermen, recorded by the city clerk, and copies attested by him posted up in two or more places in the city thirty days, when they shall take effect. Penalties not exceeding twenty dollars for each offense may be prescribed by the engineers for the breach of such regulations, and such regulations shall remain in force until altered or annulled.

SECT. 20. The board of engineers may from time to time make and enforce such regulations for the government of the department as may be deemed proper, subject to the approval of the board of mayor and aldermen.

SECT. 21. If any member of any of the several companies shall willfully neglect or refuse to discharge his duty, or shall be guilty of disorderly conduct or disobedience to any officer or to any engineer he shall for any such offense be forthwith dismissed from the department by direction of the chief engineer. No person shall be a member of, or serve in, the fire department, who is under the age of twenty years, and no person whose occupation is carried on outside the city shall be appointed a member of the fire department.

SECT. 22. All applicants for membership shall be nominated by the chief engineer, and shall receive pay and be considered members of the department from the date of their confirmation by the board of mayor and aldermen.

No person shall hereafter be appointed to any position in the fire department unless and until the committee on fire department shall have certified in writing to the board of mayor and aldermen that such person has been examined by them, or under their supervision, and is in their opinion qualified to perform the duties of the position to which he is nominated.

No officer or member of the permanent, or officer of the call, force shall attend any political convention as a delegate,

distribute tickets at any election, or take any part whatever in political matters other than to exercise the right of suffrage, and no political or religious discussion shall be permitted in any of the department houses.

SECT. 23. The chief engineer shall have the care and management of the rooms, apparatus, machinery, wires, poles, and signal boxes connected with the fire-alarm telegraph. He shall prepare rules and directions for giving alarms of fire through the telegraph. He shall have the superintendence, and under the direction of the joint standing committee on the fire department have control of the several stations, the apparatus, the furniture therein, and all other property appertaining to the department. He shall, with the assistance of the permanent men at the Central station, make the necessary repairs and take care of the fire-alarm system, including the batteries, all alarm boxes, and everything pertaining to the fire-alarm system. He shall personally be able to master the fire-alarm in every particular, and every permanent man at the Central station shall be obliged to understand the fire-alarm system, in order that the chief engineer may call upon any of them to attend to and repair any part of the same. This provision shall not be construed to prevent the chief engineer from employing extra linemen when necessary, or from acting promptly in any emergency.

SECT. 24. Permanent officers and men of the department shall be entitled to a vacation, without loss of pay, of fourteen days in each year, to be granted under the direction of the chief engineer.

SECT. 25. The joint standing committee on fire department, subject to the board of mayor and aldermen, shall by themselves or agent purchase all supplies in connection with the fire department, and direct all repairs of houses and apparatus; and all bills contracted for the department must receive their approval before being passed on by the committee on accounts and claims. They shall hold stated meetings at least once each month at the Central fire station, and all communications to the city government from the fire department

must come through said committee, and annually at the call of the finance committee, in connection with the chief engineer, they shall make recommendations as to the amount of appropriations the wants of the department will require for the coming year.

SECT. 26. The city marshal and regular police officers shall have in charge all matters relating to the removal and protection of personal property endangered by fire, and any person entering a building or removing property contrary to the orders of the city marshal or such police officers, shall be fined five dollars; and in the absence of firemen at fires from their respective department houses, the policemen in that vicinity will take charge of said houses.

SECT. 27. It shall be the duty of the chief engineer to cause all snow and ice or other obstructions to be removed from and around all fire hydrants owned by the city, so that at all times the fire department can make immediate connection of the hose to the hydrants.

SECT. 28. The annual pay of the members of the fire department shall be as follows, and in full for all services:

Chief, ten hundred and fifty dollars per annum and house-rent; permanent force at Central fire station, seven hundred and twenty-eight dollars each; drivers at Good Will and Alert hose houses, seven hundred and twenty-eight dollars each per annum, paid monthly; assistant engineers, within the precinct, one hundred and twenty-five dollars each; engineers of steamers, within the precinct, one hundred and fifteen dollars each; foremen of companies, within the precinct, each ninety dollars per annum; assistant foremen of companies, within the precinct, eighty-five dollars per annum; members of steamer, hose, and hook and ladder companies, within the precinct, eighty dollars per annum; outside the precinct, engine companies Nos. 2 and 3, two hundred and forty dollars each, and Pioneer Steamer company, No. 3, five hundred dollars; said sums to be divided among the members as each company shall direct; engineer of steamer at Penacook, seventy-five dollars per annum; assistant engineer

at Penacook, twenty-five dollars; assistant engineer at East Concord, fifteen dollars; and assistant engineer at West Concord, twenty dollars.

SECT. 29. The several engineers residing in Wards 1, 2, and 3 shall have the entire care and control, under the direction of the chief engineer, of the buildings and appurtenances occupied in part by the fire department situated in said wards, respectively, to whom all applications for the use of the halls, or any other part of such building, shall be made. Said engineers may severally appoint janitors, who shall serve under the exclusive direction of the engineer having the care and control of the buildings where said janitor shall be appointed. Each of said engineers shall annually, in the month of December, render a detailed statement, in writing, to the mayor and aldermen, of all receipts and expenditures for the preceding year on account of such buildings.

SECT. 30. Stewards for the Pioneer Steamer company and engine companies Nos. 2 and 3 shall be appointed by the mayor and aldermen, and shall receive for all services performed by them in that capacity the following sums: For Pioneer Steamer company, thirty dollars per annum, and when performing the duties of janitor of the building an additional sum of forty-five dollars per annum; and for stewards of engine companies Nos. 2 and 3, each fifteen dollars per annum. No steward shall be allowed to purchase supplies for such building, or for the department, unless by the authority and direction of the committee on fire department; and in no case shall he have any care or control of the building or its appurtenances occupied by the company of which he is a member, except in the immediate service of the company, unless he shall be appointed janitor thereof, when he shall be under the direction of the engineer, as provided in the foregoing section.

SECT. 31. The permanent men and horses at all of the fire stations in Concord shall at all times be on duty at their respective stations to attend to fire-alarm calls; and neither

the permanent men nor the permanent horses connected with the fire department shall engage in any work for any other department of the city.

The men at the different fire stations shall do such work in connection with the station and apparatus as the chief engineer or his assistants may direct. All permanent men shall lodge in their respective stations (except chief), and in all cases of absence a substitute must be furnished; and in all cases when any extra service is required, the chief, with the sanction of the committee on fire department, shall have power to hire the same; the chief may also increase as far as possible the number of call men that wish to lodge at any fire station, subject to the regulations of the fire department. The chief engineer shall be furnished with a horse and wagon, to be maintained by the city, for his use at all times.

SECT. 32. All alarms for brush or forest fires shall be responded to by members of the fire department under such rules and regulations as shall be prescribed by the chief engineer.

SECT. 33. All ordinances and parts of ordinances inconsistent with this ordinance are hereby repealed; but such repeal shall in no wise revive or put in force any ordinance heretofore repealed, and this ordinance shall take effect upon its passage.

Passed February 11, 1902.

## ADDITIONAL REGULATIONS.

ARTICLE 1. Any engine or hose company running out a line of hose from a hydrant or steamer shall be entitled to the pipe, although the hose of other companies may be attached, in order to reach the fire. And any company coming to a fire, and finding an incomplete line of hose laid out from a hydrant or steamer, shall attach to and lengthen out such line, in lieu of laying a line of its own.

ART. 2. When two or more engine companies are playing in a continuous line, the pipe shall belong to the company attaching to hydrant or steamer as provided in the foregoing article; but any company furnishing the entire line, and receiving water from a steamer, the pipe shall belong to such company so receiving.

ART. 3. Hose companies shall attach first lines to high pressure hydrants where accessible; steamers attaching to those of low pressure, or reservoir.

ART. 4. No company shall take possession of a hydrant or reservoir unless their hose and apparatus for attaching to the same are at hand and ready for use.

ART. 5. In proceeding to, working at, or returning from fires, noisy demonstrations are strictly prohibited, and it is required of officers of companies to maintain perfect order and decorum in their respective commands during all such service.

ART. 6. In case of fire the foreman first arriving shall be in command until the arrival of an engineer.

ART. 7. Drivers are strictly enjoined, in proceeding to a fire, to use the utmost care and caution consistent with promptness. Racing between companies is forbidden under any circumstances. Any collision or casualty occurring to horses or apparatus will be considered a sufficient cause for the suspension of the driver in charge at the time.

ART. 8. Fire hats are furnished by the city for the protection and identification of firemen, and they must be worn at all fires except in the severest weather, when caps may be worn.

ART. 9. While attending fires it shall be the duty of members of the department, when not performing active service, to concentrate about their respective pieces of apparatus.

ART. 10. All engine and hose companies responding to second or general alarms will connect, but will not lay their lines until they have reported to the officer in command for orders.

ART. 11. The wearing of badges shall not be regarded by members of the department as conveying to them the privilege of free access to premises after fire has been extinguished.

ART. 12. All members of the department shall address all officers by their respective titles while on duty at fires.

ART. 13. The roll of each company shall be called as soon as the apparatus is housed, and no member will be excused except in case of sickness. Rolls must be called after every alarm. No officer or member will be marked present on the company roll unless present at fires and returns to house with apparatus, unless excused by an engineer.

ART. 14. Each company shall be allowed three substitutes, to be approved by the chief engineer.

ART. 15. All orders issued by the chief or an assistant engineer shall be promptly obeyed. At all fires occurring in the night, the chief engineer shall be identified by a red light, assistant engineers by blue lights.

ART. 16. Members of the department are expected to cheerfully comply with all rules and regulations which are adopted or which may be adopted. Foremen will be held responsible for all lack of promptness and efficiency in their commands.

HARRY E. STEVENS.

---

Engineer.

HENRY A. ROWELL.

## CONCORD WATER BOARD.

Date of election and length of service of members.

Abraham G. Jones, <i>ex officio</i>	1872—three months.
John M. Hill *	1872—1878.
Benjamin A. Kimball	1872—1878.
Josiah Minot *	1872. Resigned Jan. 10, 1874.
David A. Warde *	1872—1874.
Edward L. Knowlton *	1872. Resigned Sept. 25, 1875.
Benjamin S. Warren *	1872—1873.
John Kimball, <i>ex officio</i>	1872—1876.
John Abbott *	1873—1876.
John S. Russ *	1874—1877.
Abel B. Holt *	1874—1877.
Samuel S. Kimball *	1875. Resigned July 1, 1891.
Geo. A Pillsbury, <i>ex officio</i> *	1876—1878.
Luther P. Durgin *	1876—1885.
John Kimball	1877. Resigned July 1, 1891.
William M. Chase	1877. Resigned July 1, 1891.
Horace A. Brown, <i>ex officio</i>	1878—1880.
James L. Mason *	1878—1893.
James R. Hill *	1878. Died 1884.
Geo. A. Cummings, <i>ex officio</i>	1880—1883.
Edgar H. Woodman, <i>ex officio</i> *	1883—1887.
Joseph H. Abbot *	1884—1893.
George A. Young	1885—1894.
John E. Robertson, <i>ex officio</i>	1887—1889.
Stillman Humphrey, <i>ex officio</i> *	1889—1891.
Henry W. Clapp, <i>ex officio</i> *	1891—1893.
Willis D. Thompson	1891—1895.
William P. Fiske	1891. Now in office.

\* Deceased.

## SUMMARY STATISTICS.

---

### CONCORD, NEW HAMPSHIRE, WATER-WORKS.

---

Population of the city by census of 1900 . . . . .	19,632
Population of that portion of the city included within the water precinct, estimated . . . . .	17,000

Date of construction, 1872; additions since.

Works are owned by the city.

Source of supply, Penacook lake, a natural body of water containing 265 acres, situated about three miles and a half from the state house, and about 125 feet higher than Main street in front of the state house.

Mode of supply, gravity and pumping to reservoir.

# FINANCIAL.

## MAINTENANCE.

Receipts.	Expenditures.
From consumers, mostly for domestic uses     \$62,172.56	For care and maintenance . . . \$3,676.88
From rents . . . . . 91.64	For repairs on cement-lined pipe . . . . 485.41
From pipe sold, etc. . . . 63.78	For new distribution pipes . . . . . 21,228.53
	For new service-pipes . . 1,563.23
	For maintenance of pumping-station . . 2,597.68
	For inspection . . . . . 660.00
	For meter account . . . 1,972.08
	For land at Penacook lake . . . . . 2,782.55
	For incidental expenses . 253.98
	For abatements . . . . . 74.37
	<u>\$35,294.71</u>
	Amount required to pay interest on bonded indebtedness . . . 25,700.00
	Balance . . . . . 1,333.27
<u>\$62,327.98</u>	<u>\$62,327.98</u>

## CONSTRUCTION.

Cost of land damages, flowage, and water rights :

Paid B. F. & D. Holden, for water rights	\$60,000.00
Concord Manufacturing Co., for water rights . . . . .	83,000.00
W. P. Cooledge, for mill privilege and land . . . . .	5,500.00
Humphrey & Farnum, for kit-shop privilege . . . . .	5,000.00

Paid Flowage rights around Penacook lake . . . . .	\$4,375.61
W. P. Cooledge, Hutchins house and lot . . . . .	2,250.00
Mary C. Rowell, for land . . . . .	1,500.00
Moses H. Bradley, " . . . . .	5,000.00
Joseph B. Walker, " . . . . .	2,214.00
John G. Hook, " . . . . .	370.00
A. S. Ranney, " . . . . .	1,350.00

## REPORT OF WATER COMMISSIONERS.

---

*To the City Council:*

The Board of Water Commissioners submit herewith their report for the year 1901. The report of the superintendent, which is a part of this report, exhibits in detail the work of the department.

Mr. Frank D. Abbot, who was elected a commissioner in 1893, and who occupied the office of secretary of the board, resigned, and Mr. Obadiah Morrill was chosen to fill the vacancy; and Mr. Timothy P. Sullivan, who was elected in 1899, also resigned, and Mr. Geo. D. B. Prescott was elected to fill the vacancy. These gentlemen have served faithfully and ably, and it is a regret that their business relations have called them from the city.

The year has marked the completion of the 20-inch main to Penacook lake to take the place of the cement-lined main laid at the beginning of the works; thus a serious menace has been overcome.

More pipe has been relayed than in many previous years, so that if in the coming five years we can continue this important work, the city will practically be relaid with cast-iron pipe, and in a way that shall not call for a large expenditure in any one year. The weakness of the old pipe is evident by the frequent leaks, but each year makes it easier to control them. A feature of the relaying with new pipe is the necessity of much expense in changing over the service-pipe and setting of gates, also, connecting with the hydrants.

The payment of the hydrant rental by the city has enabled the board to push the work, and the expectation is that the plans suggested by the superintendent in his report will be carried out.

The good results of the pumping station have been maintained during the year; the pump having been in commission constantly for ten years shows the careful management of the engineer.

It may be wise, to guard against any mishap in the future, to look at the matter of an auxiliary pump.

The continued use of meters, while it will have the effect of lessening the income, prevents a waste of water. The number now in use is 1,142.

The building of cottages on the eastern shores of Lake Penacook has been prosecuted to an alarming extent, so that the Board have made purchases of the shores now unoccupied, to prevent encroachment. The purity of our drinking water is vital, and the Board will endeavor to use such methods as seem to them to best reach that end.

The height of the water is gratifying, but on account of it some needed repairs have not been made on the face of the dam.

The Board desire to express their appreciation of the satisfactory manner in which the superintendent and his assistants have carried on their individual work during the past year.

Respectfully submitted,

SOLON A. CARTER,  
OBADIAH MORRILL,  
JOHN WHITAKER,  
HENRY E. CONANT,  
EDSON J. HILL,  
GEORGE D. B. PRESCOTT,  
WILLIAM E. HOOD,  
WILLIAM P. FISKE,  
HARRY G. SARGENT, *ex officio*,

*Water Commissioners.*

# REPORT OF THE SUPERINTENDENT.

*To the Board of Water Commissioners:*

I herewith present to you the thirtieth annual report of the operations of this department, showing the receipts, expenditures, and abatements, together with a statement of extensions and improvements made during the year ending December 31, 1901.

## RECEIPTS.

For water, from consumers by fixed rates . . . . .	\$30,240.99
For water, from consumers by meter rates . . . . .	31,762.73
From delinquents . . . . .	58.70
For water used for building purposes . . . . .	110.14
For rents . . . . .	91.64
For water-wheel sold . . . . .	40.00
For pipe sold, etc. . . . .	23.78
	<hr/>
	\$62,327.98
Deduct abatements . . . . .	74.37
	<hr/>
Net receipts for 1901 . . . . .	\$62,253.61

## EXPENDITURES.

### General Expenses.

Paid pay-rolls, salaries, and labor . . . . .	\$10,894.74
Nathaniel White, Jr., rent of office and heating . . . . .	350.00
S. G. Sanborn, rent of shop in Penacook and smith-work . . . . .	24.80
Rumford Printing Co., printing . . . . .	89.45
Ira C. Evans, printing . . . . .	84.40

Paid Frank L. Sanders, books, etc. . . . .	\$28.15
E. C. Eastman, office supplies . . . . .	2.13
Library Bureau, card cases and supplies . . . . .	46.50
Concord Light & Power Co, gas . . . . .	11.70
N. E. Telephone & Telegraph Co., telephones . . . . .	129.00
J. M. Stewart & Sons Co., office supplies, etc. . . . .	29.43
Humphrey Dodge Co., hardware . . . . .	51.64
Thompson & Hoague, hardware . . . . .	73.05
D. Waldo White, grain . . . . .	137.29
H. H. Crowell, slab wood . . . . .	15.00
C. H. Martin & Co., lard oil, etc. . . . .	10.45
Batchelder & Co., oil, etc. . . . .	28.94
Woodworth & Co., cement, etc. . . . .	35.70
Dickerman & Co., cement . . . . .	14.80
A. C. Sanborn, dynamite and care of horses . . . . .	7.25
C. W. Dadmun, electrical supplies . . . . .	5.40
Samuel Holt, brick . . . . .	4.00
Z. F. Swain, brick . . . . .	3.60
Sewall & Day Cordage Co., jute packing . . . . .	40.35
Page Belting Co., leather valves . . . . .	14.40
Smith & Anthony, repair bands . . . . .	4.20
U. S. Cast Iron Pipe & Foundry Co., cast-iron pipe . . . . .	10,295.78
Builders Iron Foundry, castings . . . . .	35.63
Ford & Kimball, castings . . . . .	31.27
Concord Foundry Co., castings . . . . .	27.70
Ludlow Valve Manufacturing Co., gates and hydrants . . . . .	1,423.80
R. D. Wood & Co., hydrant sup- plies . . . . .	76.50
Richards & Co., pig lead . . . . .	908.66
Boston Lead Mfg. Co., lead pipe . . . . .	86.94

Paid J. H. Cunningham Co., pipe and fittings . . . . .	\$197.34
Walworth Mfg. Co., gate boxes and tools . . . . .	203.02
Summer-Goodwin Co., tools and fittings . . . . .	138.23
The George Woodman Co., fittings	5.10
Goodhue & Milton, fittings . .	9.69
Hays Mfg. Co., service boxes . .	173.28
National Meter Co., meters . .	727.00
Thomson Meter Co., meters . .	702.24
E. B. Hanchay, smith-work . .	180.85
Ross W. Cate, smith-work . .	22.05
J. M. Crossman, smith-work . .	56.95
Concord Axle Co., steel and machine work . . . . .	5.75
J. D. Johnson & Son, repairs . .	11.60
George D. Huntley, repairs . .	10.85
George L. Theobald, team work .	252.90
O. F. Richardson & Son, team work . . . . .	75.64
J. H. Coburn, team work . .	4.20
Fellows & Clark, use of horse . .	10.50
E. B. Hutchinson Building Co., lumber and labor . . . . .	26.31
Rowell & Plummer, mason-work	39.62
James Cookson, whitewashing . .	4.60
J. H. Rowell & Co., repairing concrete . . . . .	43.00
J. H. Flood, use of derrick . .	4.00
M. J. Duffy, use of derrick . .	3.50
J. L. Quinn, use of derrick . .	2.00
Engineering News . . . . .	5.00
Morrill & Danforth, insurance .	114.46
Eastman & Merrill, insurance . .	32.50
Chase & Martin, insurance . .	25.00
Boston & Maine Railroad, freight and repairing siding . . . . .	1,332.49

Paid Concord Street Railway, car tickets	\$50.00
town of Webster, taxes . . .	56.00
heirs of Lowell Brown, land at Penacook lake . . . . .	1,032.55
Cook & Hood, land at Penacook lake . . . . .	1,750.00
E. B. Morse, horse . . . . .	125.00
A. G. Cochran, clerk, cash paid out . . . . .	113.98
incidentals . . . . .	52.81
	<hr/> \$32,622.66

#### Pumping-Station Expenses.

Paid pay-rolls, engineer and fireman . .	\$1,510.00
C. H. Stevens & Co., coal . . . . .	822.89
H. H. Crowell, slab wood . . . . .	69.00
Vacuum Oil Co., oil . . . . .	55.69
A. W. Chesterton & Co., packing . . . .	16.14
Knowlton Packing Co., packing . . . .	10.24
N. E. Roller Grate Co., grate . . . . .	56.00
Henry R. Worthington, valve spring . . . . .	6.30
Rowell & Plummer, mason-work . . . .	9.14
J. H. Sanborn, mason-work . . . . .	4.00
Humphrey-Dodge Co., supplies . . . . .	7.75
Thompson & Hoague, supplies . . . . .	2.50
Boston & Maine Railroad, freight . . .	2.50
Concord Light & Power Co., gas . . . .	6.15
New England Telephone & Tele- graph Co., telephones . . . . .	19.38
	<hr/> \$2,597.68
Total expenditures for 1901 . . . . .	<hr/> \$35,220.34

The expenditures are divided as follows :

### General Expenses.

For care and maintenance . . . . .	\$3,676.88	
repairs on cement-lined pipe . . . . .	485.41	
new service-pipes . . . . .	1,563.23	
new distribution pipes . . . . .	21,228.53	
inspection . . . . .	660.00	
meter account . . . . .	1,972.08	
land at Penacook lake . . . . .	2,782.55	
incidentals . . . . .	253.98	
	<hr/>	\$32,622.66

### Pumping-Station Expenses.

For salaries, engineer and fireman . . . . .	\$1,510.00	
fuel . . . . .	891.89	
oil, packing and other supplies . . . . .	92.32	
repairs . . . . .	77.94	
gas and telephone . . . . .	25.53	
	<hr/>	\$2,597.68

### EXTENSIONS AND IMPROVEMENTS.

Cast-iron main and distribution pipes have been laid and hydrants set during the year, as follows :

*On main line,*

north from Lake street in West Concord to a little below the brick gate-house, 2,615 feet 20-inch pipe.

*In South State street,*

south from Pleasant to Thompson street, 978 feet 14-inch pipe, in place of 10-inch cement-lined pipe discontinued.

*In South street,*

south from Pleasant to Thompson street, 1,102 feet 12-inch pipe, in place of 6-inch cement-lined pipe discontinued.

*In Pleasant street,*

west from State to South street, 600 feet 12-inch pipe, in place of 8-inch cement-lined pipe discontinued.

*In Pleasant street,*

east from State to Main street, and west from South to Rumford street, 1,331 feet 10-inch pipe, in place of 8-inch and 6-inch cement-lined pipe discontinued, and 1 hydrant.

*In North Main street,*

north from Centre to Chapel street, 997 feet 10-inch pipe, in place of 6-inch cement-lined pipe discontinued.

*In Thompson street,*

on connection at South State street, 38 feet 10-inch pipe.

*In Warren street,*

west from North Spring to Tahanto street, 1,082 feet 8-inch pipe, in place of 6-inch cement-lined pipe discontinued.

*In Warren street,*

west from near Giles to North Fruit street, 685 feet 8-inch pipe, in place of 4-inch cement-lined and iron pipe discontinued.

*In South Spring street,*

south from Pleasant street, 83 feet 8-inch pipe, in place of 4-inch cement-lined pipe discontinued.

*In Thompson street,*

west from South State to South street, 1,020 feet 6-inch pipe, in place of 4-inch cement-lined pipe discontinued, and 1 hydrant.

*In Fayette street,*

west from South State to South street, 915 feet 6-inch pipe, in place of 4-inch cement-lined pipe discontinued.

*In Wall street,*

west from South State to South street, 754 feet 6-inch pipe, in place of 4-inch cement-lined pipe discontinued.

*In Stone street,*

west from near Broadway, 555 feet 6-inch pipe.

*In Court street,*

west from North Main street, 58 feet 6-inch pipe, in place of 4-inch cement-lined pipe discontinued.

*In Montgomery street,*

west from North Main street, 43 feet 6-inch pipe, in place of 4-inch cement-lined pipe discontinued.

*In Giles street,*

north from Warren street, 82 feet 6-inch pipe, in place of 4-inch cement-lined pipe discontinued, and 1 hydrant.

*In Green street,*

north from Pleasant street, 61 feet 6-inch pipe, in place of 4-inch cement-lined pipe discontinued.

*In North Spring street,*

north from Warren street, 41 feet 6-inch pipe, and north from Pleasant street, 22 feet 6-inch pipe, in place of 6-inch cement-lined pipe discontinued.

*In North Fruit street,*

on connection at Warren street, 13 feet 6-inch pipe.

*In Hall street,*

extended south, 790 feet 4-inch pipe and 1 hydrant.

*In Hammond street,*

extended east, 252 feet 4-inch pipe.

*In Elm street,*

south from Pleasant street, 131 feet 4-inch pipe.

*In Elm street,*

south from Wall street, 108 feet 4-inch pipe.

*In Durgin street,*

near Toof's laundry, 1 hydrant.

*On hydrant branches,*

297 feet 6-inch pipe and 22 feet 4-inch pipe; 260 feet 6-inch and 18 feet 4-inch cement-lined pipe discontinued.

Also 670 feet 1-inch pipe.

There have been set 50 gates; discontinued, 24.

### Summary of the Foregoing.

#### NEW PIPES, HYDRANTS AND STOP-GATES.

equal to 2.90 miles.	5	50

#### PIPES AND STOP-GATES DISCONTINUED.

<i>Pipes.</i>	<i>Stop-Gates.</i>
4-in., 3,632 feet.	4-in., 12
6-in., 3,863 "	6-in., 6
8-in., 1,551 "	10-in., 1
10-in., 978 "	14-in., 3
14-in., 23 "	18-in., 2
<hr/> 10,047 feet,	<hr/>
equal to 1.90 miles.	24

Total length of main and distribution pipes now in use, 323,158 feet, equal to 61.20 miles.

Total number of hydrants now in use, 272.

Total number of gates now in use, 783.

#### SERVICE-PIPES.

There have been laid during the year and connected with the main pipes, 57 service-pipes consisting of

56 $\frac{3}{4}$ -inch,	1,572 feet.
1 2-inch,	24 "
<hr style="width: 50px; margin-left: 0;"/> 57	<hr style="width: 50px; margin-left: 0;"/> 1,596 feet.

There have been discontinued, 6; whole number in use at the present time, 3,278; total length of service-pipes, 76,968 feet, or 14.57 miles. We have placed 167 service-boxes at the curb on old services.

We have set 134 meters during the year; 2 have been removed, making the total number now in use, 1,142.

The following table shows the height of water in Penacook lake on the first day of each month:

January	.	.	182.90	July	.	.	184.75
February	.	.	182.70	August	.	.	184.00
March	.	.	182.30	September	.	.	184.35
April	.	.	184.00	October	.	.	183.90
May	.	.	184.85	November	.	.	183.75
June	.	.	185.00	December	.	.	183.80

The lowest point reached during the year was on March 8, being 182.15; the highest was on April 7, 185.40; mean height, 183.86, which was .77 foot higher than the mean height for the year 1900.

The water has been running over the overflow one hundred and two days during the year: in April, 26; in May, 31; in June, 25; in July, 16; in August, 3; in December, 1. At no time has the water been lower than thirty-two inches below the overflow.

The work of relaying the original 14-inch cement-lined main was completed, and there is now a continuous line of 20-inch cast-iron pipe from Penacook lake to the pumping-station. Good progress was made toward relaying the cement-lined pipe in the city, and I would recommend that the following streets be relaid the coming season: South Main street from Freight to Thorn-dike; South State and South streets from Thompson to Thorn-dike; South Spring from Pleasant to Concord; Fayette and Thompson from South Main to South State; Thompson from South to South Spring; and Concord, Monroe and Thorndike streets, thus making the entire area between Pleasant and Thorn-dike and South Main and South Spring streets supplied by cast-iron distribution pipe.

In conclusion, I desire to thank all the members of the board for their hearty support and many courtesies extended through the year, and also wish to express my appreciation of the faithful service of the employees of the department.

Respectfully submitted,

V. C. HASTINGS,

*Superintendent.*

# REPORT OF THE ENGINEER OF THE PUMPING-STATION.

## PUMPING-STATION, CONCORD WATER-WORKS.

V. C. HASTINGS, *Superintendent* :

SIR,—I would report that the pumping machinery at the pumping-station is in very fair working condition, but it will be necessary to make some repairs the coming year.

Following will be found a statement of the coal and supplies used at the pumping-station during the year ; also a table showing the work for each month.

### Statement.

134 tons 1,556 lbs. Pocahontas coal.  
 24 cords of wood.  
 52 gallons of oil.  
 25 lbs. of waste.

### ENGINE RECORD.

Date.	Pumping time. <i>h. m.</i>	Gallons water pumped.	Daily average pumped.	Total coal burned.	Daily average coal burned.	*Gallons pumped per pound of coal.
January.....	131:00	11,035,893	355,996	22,580	726	488

## REPORT OF THE TRUSTEES.

---

*To the City Council:*

The accompanying report of the librarian presents at length the methods of library management during the past year, their development, and the condition and prospects of the institution, and it is respectfully commended to your thoughtful consideration. We will add a few words only with reference to the expense of maintenance and a recommendation as to the appropriation.

Last year, in view of the accumulated interest on the Seth K. Jones fund, \$875.43, then first available, the appropriation to the library was reduced from \$5,000 to \$4,500. Of the interest on the Jones fund there has been expended \$646.26; interest on other funds and on Jones fund for current year, \$169.21. The total expenditure, \$5,315.47, has been used for the following purposes: purchase of books, \$1,174.62; subscription to newspapers, \$45.95; to periodicals, \$181.85; and the remainder, \$3,913.05, has been required for expenses of administration, supplies, etc. A detailed statement of these disbursements is included in the report of the city auditor. There have been received from fines \$194.75 and from the sale of catalogues \$11.00, which amounts have been paid to the city treasurer.

As only \$229.17 of the interest on the Jones fund remains unexpended, the trustees respectfully recommend an appropriation of \$5,000 additional for the support of the library during the coming year.

We take this occasion to express our appreciation of the faithful services of the librarian and the assistants and of the unvarying courtesy and assiduity with which the patrons of the library have been served.

CHARLES H. SANDERS,

*Trustees.*

CONCORD, February 1, 1902.

## REPORT OF THE CITY LIBRARIAN FOR 1901.

*To the Board of Trustees of the Concord Public Library:*

GENTLEMEN,—During 1901 our library has quietly continued its work of dispensing pleasure with one hand and instruction with the other. More than the usual number of books have been bought, a liberal supply of the most recent literature has been promptly placed before the public, the library building has been kept in repair, and some improvements made.

We have not been able to think of any new privileges to offer our patrons, and no event has specially stimulated reading, yet we have given out more books than in 1900. This is gratifying, particularly as the increase in circulation has been accompanied by another slight reduction in the reading of fiction; this is now down to 76 per cent., a rate not discreditable when compared with other libraries' statistics, but one which we hope to see lowered as time goes on; only four years ago our fiction was read to the extent of 85 per cent. Magazines have been taken out even more freely than heretofore; and it may interest the members of the science department of the Woman's Club to know that there has been a perceptible increase in the circulation of scientific works.

What we at the library have known as the "Saturday night rush," when hundreds of persons came to get a good story for over Sunday, has been less noticeable of late months, and we feared to add up our figures, lest we should find a deficit in our desk work for the year. But the footing was many hundreds in advance of 1900, and we exulted that the steady, sane use of better books all through the week had

given us an excess to the credit of non-fiction. If, some day, we can offer, by access to shelves, as free an examination of books and magazines as can be enjoyed in a private library, many valuable but comparatively unknown volumes will be selected, and the character of our circulation raised still higher.

Concord has a population of 19,632. Exactly 89,000 books were handed over the delivery desk in 1901. We wish these statistics meant that each citizen had read over four books thoroughly. Instead, some child has skimmed dozens of books and another has read none at all; one adult has known the library to be the place where he can find out things; another adult has had the general idea that a public library contains poetry, essays, biography and history, and has not imagined our abundance of technical and industrial works.

A public library is, nowadays, a great department store, and should be managed with the same push and enterprise and desire to supply all customers, i. e., all taxpayers. At Field's, in Chicago, one can buy lettuce on the top floor and steam-engines in the basement. So, at a library, a borrower ought to be able to get perishable green goods in latest novels, or works of originality and force which will move the world.

We despair of a right understanding of our institution, however, so long as our budding clientèle says, "Please may I take out 'libr'ies'?" We ask the small applicant if he wants the building, or us, or books? And when his face lights up at the word books, we hope he begins to see a difference in words, which may lead to his knowing some time a difference in books, and end by his realizing that truth is stranger than fiction, that "Up from Slavery" and "The Making of an American" are as fascinating as any fictitious tale of a poor boy's rise to fame and fortune. Titles that take boys' fancy read, "Luck and Pluck," "Strive and Succeed," "Try and Trust." Surely no Horatio Alger urchin ever so strove and so succeeded as Mr. Washington and Mr. Riis.

If people only knew that a library *likes* to be put upon its mettle as a provider of information, they would not hesitate to come in and, if necessary, expose, by inquiry, the weak places in our departments. As soon as a lack on any given subject becomes known, it is made good immediately. For instance, a leading civil engineer came in to get something on the laying of electric railroads. We had nothing recent in that line, but in three days the two most helpful books on that topic which could be bought in Boston were on our shelf. Again, the school instructor in domestic science had only to find us short on that subject, to lead us to buy at once.

It is the bright spot in a weary day when an intelligent adult comes in for assistance; when, for example, a mother says: "My children are beginning to read 'The Outlook' editorials, and to ask me questions concerning our government which I cannot answer. Have you any book which will post me?" When, to illustrate further, a young man calls for books on Germany before going to Mr. Streeter's address on the union of that empire, and afterwards takes pains to tell us that he got more out of the address and could talk more understandingly with the speaker because of his preliminary running through of our material. Mr. Streeter's address is the first thing we shall hand to future inquirers on this subject.

One hour a borrower wants to know what stain will make new wood look old; the next, a committee-woman *must* have a play to enact at a Christmas festival. A business man drops in to consult a city directory of '67, and as he goes out meets coming in a newspaper reporter after biographical matter for the obituary of a former Concord resident. From our Concord collection came the only picture of Moses Woolson procurable for the article on the Concord High School. Hardly a day passes without a satisfactory happening of this kind, in which the library has sufficed the investigator.

The tendency is markedly toward a more serious use of the library for purposes other than recreation. The use of the reference room by children is rapidly growing. Pupils are

finding out that there is a relation between their ordinary text-books and literature. To foster this, we sent out postal-cards at the beginning of the school year, reminding our teachers of what the library accords them in the way of privileges and of what more it might easily be persuaded to accord. We wish more teachers would bring in their classes to learn the use of indexes, encyclopædias, etc. To derive the greatest benefit from a library it is essential to know how to use page-headings, tables of contents, a card catalogue, etc.; and this knowledge should be gained in school days, and no pupil be allowed to graduate with the idea that the dictionary is the only book of reference. As Sam Walter Foss, genial poet and fine librarian of Somerville, says, desirous that each resident shall be a borrower at his library: "If our books are good for half the pupils, they are also good for the other half."

Many of our teachers occasionally take a dozen or so of our library books to their schoolrooms, thus making the books seek the readers, and creating a brisk little circulation of them, which, if counted, would add sensibly to our total stated in this report. One little girl advised her teacher to have library books there for leisure minutes, "for," she said, "I think we will have better 'conduct' if you do."

Turning from the consideration of circulation and borrowers to the subject of purchases, we have first to acknowledge gratefully our use of the accumulated interest on the bequest left in 1878 by Mr. Seth K. Jones for the buying of books for the Public Library. We have conservatively reserved a fraction of this interest to spend next year, but have nevertheless been able to add more volumes than in any year of which the present librarian has record.

Of the 1,250 volumes bought, many fill vacancies caused by the wearing out of old favorites. It will surprise you to hear that in the last twelve months we had to discard, as utterly disreputable, 392 volumes.

Some one has said, "New books are the vitality of the library, the old, its strength." Replenishing, therefore, goes hand in hand with purchasing new material.

Some of our notable additions have been :

The Warner Library of the World's Best Literature	30 vols.
The Harriman Alaska Expedition . . . . .	2 vols.
Tissot's Life of Christ . . . . .	4 vols.
Dictionary of Building and Architecture . . . . .	3 vols.
Dictionary of Philosophy and Psychology . . . . .	3 vols.
The Abridged Poole's Index.	
Various books of design.	
A new edition of Lippincott's Biographical Dictionary.	
A set of juvenile French periodicals, and a set of	
Heath's Home and School Classics . . . . .	32 vols.

These last we keep on an open shelf by the desk, and there they win hundreds of readers among the little folks who otherwise might never know these best of youthful stories. Several adults have smilingly renewed their "Robinson Crusoe" in the neat little brown volume.

Another noteworthy purchase has been that of stereoscopic views of different countries, which we let out on borrowers' cards judiciously, as we do valuable books. These pictures and accompanying lenses are so fine that only praise has come from those who have already seen them; and we foresee a long life of usefulness for the stereographs among invalids and travel clubs.

In purchasing books, we aim to get all those which will enable people to identify treasures they possess in their homes; for instance, illustrated books on rare laces, Indian baskets, oriental rugs, old china, glassware, and antique furniture.

During 1901 we tried the system of adding new books every month, instead of putting out a larger number every two months. We are convinced that the monthly additions are better, and that a library's tendency should be toward placing a few new books often before the public. A feast or a famine in mental food is no more salutary than in other kinds of nourishment.

We shall bind up most of the magazines taken during the year, and thus continue the files which are becoming recog-

nized by investigators as invaluable, by reason of the modern means of tracing articles through the "Cumulative Index to Periodicals."

"We are confident," says one librarian, "that the appetite for fiction has a solid foundation in nature and will endure. We think that under due limitations it ought not to be considered an evil." We feel like adding,—Let him who is not accustomed to relax or divert himself with fiction cast the stone at story-writers, and incidentally hit George Eliot, Victor Hugo, Thackeray, and Hawthorne. Your librarian pleads guilty, on an exhausting day, to reaching up to the new books over her desk for "Mrs. Wiggs of the Cabbage Patch," rather than for the "Studies in Fossil Botany." Missions to the sick are deservedly much commended and are carried on by many agencies. But there is a mission to the *tired* which is worthy to be done, and a public library wants a share in it.

We try, however, to buy fiction of such a character that no permanent injury can come from reading it. Occasionally the excusable curiosity of many very intelligent readers clamors for a book of dubious value. We compass this difficulty by buying one copy of the book and entering it in our card catalogue only. By the time the book has worn out the demand for it has ceased, the cards are removed from the catalogue, and future librarians will not be obliged, much against their will, to keep it in the library.

Clever and persistent advertising stimulates a call for certain new novels, producing a run on a library which affects its staff about as pleasantly as a run on a bank affects its officials. I presume there is usually about as good cause for the one as for the other. For the "six best-selling books" are not the six best books. Dr. Van Dyke says, "Although the fact that a book has reached its 200,000 mark cannot possibly prove that the book is bad, such a figure is unfortunately no sure sign of its real literary value." "When the public shall have learned that much of that which appears owes its success to the business methods of its publishers, there will be a rebound to the older standards and more worthy books."

The Booklovers Library seems to have been created to satisfy this almost universal desire to read the new books. It may soon perceptibly relieve the pressure upon public libraries to furnish manifold copies of a nine days wonder in literature. We are often asked politely, in roundabout ways so as not to hurt our feelings, if the Booklovers Library conflicts with ours.

No, a hundred times no! It may keep us from seeing in our building some delightful people who have become enrolled among its members; but the giving out of fresh novels is only a small item in our work and opportunities. We are not on a single track, and there will be no collision.

We have one protest to make, however, in connection with the Booklovers Library. If townspeople studied our monthly lists, kindly printed by our two daily papers, as assiduously as they study the beautiful catalogues of the Booklovers Library, they would find that we possess most of the books (in the English language) offered by the latter. We do not care how many copies of "The Crisis" come from Boston, but we do feel it when a citizen thinks she must send there for "The Progress of Invention in the 19th Century," or when a teacher says she is enjoying a Booklovers' copy of Greenough's "Words and Their Ways," and asks if we have heard of it, while there is the book in front of her on our open shelf, trying to allure some one into taking it. Let no one import "The Improvement of Towns and Cities," for we bought that admirable book as soon as it was published last spring, and have been disappointed that no one has cared enough for the civic beauty of Concord to read it.

It is entertaining to observe how a new successful work sets the public to reading all the old writings of the same author. "The Cavalier" revives an interest in Cable. We are always reminded that dealers say they buy a new stock of goods to make the old stock sell.

Comparing our institution with other libraries, we find we have very little "red tape"; even reference books and works of art are given out when at all practicable, for they are for the use of the present generation as much as for posterity.

We have shown from the source of the Library Art Club many exhibits of pictures which have been greatly enjoyed.

About the same number of new borrowers register annually, 639 being the number of applicants the past year.

Almost 500 children have frequented the little box we dignify by the name of Boys' Room. May the day be not far distant when a big, sunny Children's Room will be an adjunct of our library! It is a valued feature in progressive libraries of any size.

We are indebted for gifts of books, periodicals, plants, and picture exhibits to the following: Mrs. Armenia White, Miss M. A. Downing, Mr. Samuel C. Eastman, Mr. Henry A. Kimball, Mrs. Sarah J. Adams, Dr. J. E. Hoyt, Mrs. Eddy, to the government press at Washington, to the Salvation Army, and to temperance and philanthropic societies for their publications, to state and city institutions for their yearly reports, to the publishers of several newspapers, and to the different colleges for their annual catalogues. Through the warm weather we are fortunate in being remembered very frequently with flowers for the desk.

It has been said that the first requisite of means to bring the treasures of a library to the notice of the people is attendants ready, eager, and willing. My assistants are that.

It is an honor and a privilege to give the foregoing account of the growth and work of the library.

Respectfully submitted,

GRACE BLANCHARD,

*Librarian.*

# REPORT OF THE BOARD OF ASSESSORS

FOR THE YEAR ENDING DECEMBER 31, 1901.

*To the Taxpayers of the City of Concord :*

The board of assessors respectfully submit for your perusal information regarding the valuation of the city for 1901 as compared with the previous year.

Respectfully submitted,

WENDELL P. LADD,

*Tax Collector.*

CONCORD, N. H., January 1, 1902.

# PUBLIC PARKS.

---

## REPORT OF PARK COMMISSIONERS.

---

*To the City Council of the City of Concord:*

The park commissioners respectfully submit the following report:

Appropriations and expenditures for the past year were as follows:

	Appropriations.	Expenditures.
White park . . . . .	\$2,500.00	\$2,424.60
Rollins park . . . . .	800.00	764.87
Penacook park . . . . .	75.00	88.08
Bradley park . . . . .	40.00	34.72
Ridge Avenue park . . . . .	25.00	42.28
Fiske park . . . . .	200.00	199.61
	<hr/>	<hr/>
	\$3,640.00	\$3,554.16

It will be noticed that in the aggregate the commissioners have kept within the appropriations; but work which is absolutely necessary must be put off from year to year on account of lack of funds.

### WHITE PARK.

The work at White park has been carried on by the usual force, which with the large area to cover and the necessary work demanded has been well done. Over eight hundred loads of filling have been put on the north end of the park, covering up the low ground, and making it ready for a top covering which will be needed in the spring.

On account of badly-washed walks the superintendent has laid over 750 square feet of gutters to prevent in the future damage which is occasioned by heavy showers. The walks have been newly gravelled with material which we have had on the grounds, but which now is exhausted and will necessitate our finding it in other localities.

It was hoped that we could build a much-needed tool house this last year, but could not do so, although the stone foundation for one was laid, and we shall hope to erect a building this coming year. A fence will also have to be constructed, as the temporary one erected some years ago is giving way.

Owing to the widening of Centre street between Pine and Auburn streets, the park has become exposed and changed so much that quite a sum must be expended to fix it.

With each year the development of this park is gratifying, and when all the plans are carried out it will accommodate all with facilities for rest and pleasure.

The expenditures have been: For labor, \$2,023.06; grade, \$88.65; shrubs and seed, \$84.20; hardware and tools, \$48.34; lumber, \$14.90; fertilizer, \$21; water, \$15; incidentals, \$129.45; a total of \$2,424.60.

#### ROLLINS PARK.

The larger part of the work has been done on the clearing. The ground was smoothed and leveled thoroughly with plow and harrow, then seeded, and one ton of fertilizer put on. New water service was laid, using one thousand feet of iron pipe, with eight hydrants at various points with which to supply water for the grass and shrubs.

This park is enjoyed by many people, and services have been held on Sunday during the summer months. On the whole, better order has prevailed.

The expenditures have been: For labor, \$533.96; seed and trees, \$29.50; fertilizer, \$28; hardware and tools, \$22.52; iron pipe and fitting, \$111.36; incidentals, \$39.53; a total of \$764.87.

## PENACOOK PARK.

This park has been a very popular resort for picnickers, and the work is wholly one of care and keeping the pavilion in repair.

There has been expended: For labor, \$77.10; lumber, \$8.18; incidentals, \$2.80; a total of \$88.08.

## BRADLEY PARK.

For the maintenance of this park the following has been expended: Labor, \$24.02; fertilizer, \$4.20; water, \$4.00; incidentals, \$2.50; a total of \$34.72.

## RIDGE AVENUE PARK.

On account of the dry weather after seeding, also for preserving the trees and shrubs already planted on this plot of ground, it was found necessary to put in pipes for city water, making an extra expense, and a consequent over-running of the appropriation.

The expenditures have been as follows: Labor, \$20.01; iron pipe and fittings, \$13.72; water, \$3.00; fertilizer, \$2.80.

## FISKE PARK.

The sum of \$200 was appropriated to grade the triangle between North Main street and Fiske street, at the earnest solicitation of the citizens at the North End. The amount was carefully expended by the superintendent, but the uneven grade of the original ground and the high grade given by the city engineer necessitated more filling than was at first anticipated. Over 380 loads of gravel were placed on this plot; the loam was moved, and then replaced after the filling. In order to make a path over the embankment, granite steps were put in at a cost of \$35.

To fix the title to this piece of ground, an arrangement was made by a joint resolution of the city government, authorizing the mayor to accept a deed from William P. Fiske, quitclaiming all his right and title to land lying south of stone bounds

placed by the city engineer. The superintendent estimates that it will require the additional sum of \$350 to complete this park.

The expenditures have been: For labor, \$163.65; stone steps, \$35; incidentals, \$0.96; a total of \$199.61.

The park system has grown since the first board of park commissioners who were chosen in 1885, and who consisted of Josiah Minot, Benjamin C. White, John M. Hill, Joseph B. Walker, and William P. Fiske. Since 1887 the commissioners have received from regular appropriations \$40,000, or an average of \$2,666.67 per year. They have also received in gifts from Mrs. N. White \$1,700, Mrs. C. H. Newhall \$500, and Mr. C. H. Newhall for the bridge, \$50; from other sources \$1,215, making a total of funds passing through their hands of \$43,465. The city has also paid \$5,350 for land which has been added to White and Rollins parks.

The gentlemen composing the West End syndicate in 1898 made a gift of land to the city, and it has been named Ridge Avenue park.

The commissioners have also improved other tracts of land owned by the city, together with the maintenance of Penacook park, which came under their control in 1895. Appended are tables giving the yearly appropriations and expenditures for construction and maintenance since a park board was established.

Respectfully submitted,

HARRY G. SARGENT, *Chairman*,  
BENJAMIN C. WHITE,  
WILLIS D. THOMPSON,  
GARDNER B. EMMONS,  
GEORGE A. YOUNG,  
WILLIS G. C. KIMBALL,

## REPORT OF HISTORY COMMISSION.

*To the City Council:*

The completed manuscript of the History of Concord is now in the possession of the History Commission. An editorial committee, consisting of James O. Lyford, Henry McFarland, and Charles R. Corning, is revising and arranging this manuscript for the printer. The contract for printing will be made when this work is completed. As nearly as can be now estimated the history will be a volume of upwards of one thousand pages of five hundred words to the page, including the illustrations. After the contract is made the subscribers will have the option of having the book bound in two volumes or one, those who elect to have two volumes paying for the additional cost of binding, which in the cloth binding will probably not exceed one dollar. This is merely a question of convenience to the subscribers in the use they make of the book. If it is to be referred to often it will be easier to handle if bound in two volumes. It is probable that the copies bound for the trade, after the subscribers have been supplied, will be in two volumes, and the price to purchasers will be in excess of that to subscribers. For a limited period subscriptions can be made to the Secretary.

When the contract is made with the printer it can be definitely stated what month this year the history will be ready for delivery.

JAMES O. LYFORD,

*Secretary History Commission.*

## REPORT OF CITY PHYSICIAN.

*To the City Council:*

I have the honor to present the following report of the work done in my department for the year ending December 31, 1901.

Number of calls . . . . .	92
Office consultations . . . . .	27
Vaccinations . . . . .	271
Examinations for insanity . . . . .	4

It will be noticed that there was an unusually large number of vaccinations. This is a consequence of the wholesome fear engendered by the epidemic of small-pox now sweeping over the country, together with the activity of our board of health in the matter of compulsory vaccination of school children. Through the efforts of this board probably nearly, if not quite, all of our school children now satisfy the law in this respect.

I think it worthy your notice, as tending to controvert the increasing fear of untoward effects following vaccination, that of this large number of cases, only one was sick enough to call me in consultation. This one was all right the day following my attendance. They are perfectly free from trouble to-day.

Respectfully submitted,

CHAS. H. COOK, JR.,  
*City Physician.*

CONCORD, N. H., January 1, 1902.

# CEMETERY DEPARTMENT.

## REPORT OF THE COMMISSIONERS OF CEMETERIES

---

CONCORD, N. H., March 1, 1902.

*To the City Councils of the City of Concord:*

In making our annual report the commissioners of cemeteries beg leave to say that the work of the past year has consisted mainly in repairing and beautifying lots and avenues.

During the year we have laid out and provided a new block of lots in the northeast section of Blossom Hill Cemetery, and lots are being rapidly taken.

No great expense incident to grading will be incurred the coming year.

We intend to plant trees and shrubs, and in a general way beautify our already beautiful cemetery.

The burials during the past year have not been as many as some previous years. The burials in Blossom Hill Cemetery have been one hundred and twenty-six (126), and in the Old North, twenty-two (22).

We have completed the iron fence the entire length of the north line of Blossom Hill Cemetery, and consider it a great benefit to the grounds.

We have constantly called your attention to the great need of a chapel, hoping that some generous citizen would place such a memorial in Blossom Hill Cemetery. After years of waiting it seems that a realization of our hopes is near. We are reliably

informed that such a chapel will be built the coming year, by a wealthy and generous lover of Concord. Concord cannot boast of a more beautiful memorial to the dead than this will be; and your commissioners feel greatly rejoiced in being able to report the prospect of this much needed improvement.

Respectfully submitted,

JOHN E. ROBERTSON,  
FRANK P. ANDREWS,  
CHARLES G. REMICK,  
GEORGE A. FOSTER,  
FRANK J. BATCHELDER,  
GEORGE O. DICKERMAN,

*Commissioners of Cemeteries.*

GEORGE O. DICKERMAN,

*Secretary of Board.*

REPORT OF THE BOARD OF EDUCATION  
OF  
UNION SCHOOL DISTRICT,  
CONCORD, N. H.,  
*FOR YEAR ENDING MARCH 31, 1902.*

---

The Board of Education herewith presents to the people of Union School district its forty-second annual report, embracing the financial year from March, 1901, to March, 1902.

The organization of the board remains practically the same as last year, the only changes being those in the membership of certain sub-committees made necessary by the election of three new members at the last annual meeting.

The distribution of the pupils attending the Rumford school was accomplished by the superintendent in such a manner as to entail the least possible detriment to scholars and inconvenience to teachers. In the past few months a large and handsome structure has risen over the site of the old Rumford, and so rapidly is the work carried on that there seems to be no doubt as to the new Rumford being ready for occupancy at the beginning of the fall term. This building, modern in every feature, is a splendid addition to Concord's collection of schoolhouses.

During the year the Training school has been transferred to the Dewey building from the Franklin, its first home. The singularly attractive location of the Dewey building, together with its convenient accessibility and internal arrangements, convinced the committee to whom the question had been referred that the present and future welfare of the school

would be promoted by making the change. This opinion met with the entire concurrence of the board; consequently the change was made and the best of results have followed. In some respects the Training school is the most critically observed school in the district; its work is constantly on trial, and its methods attract constantly a large number of visitors.

Since the school has moved to the Dewey building the number of strangers visiting the classes has been surprisingly increased. Connected with the Training school is a Kindergarten training department inaugurated during the year just passed. Experience had shown the necessity of this branch of teaching and the results derived from its trial have met the approval of the board. Respecting this subject, we call attention to what Mr. Rundlett has to say in his report.

Another change suggested by experience has been the adding of a third room in the Eastman building (East Concord). In order to do class work properly, so that teachers and pupils should find it in the highest degree beneficial and satisfactory, another room became imperative. When the Eastman school was built two rooms on the ground floor were finished, leaving the upper story unfinished and open to the ridge-pole. In this space was made a light and commodious school-room for pupils of the higher grades, including the ninth.

It will be remembered that in our report for last year we called attention to the subject of ventilation and improved sanitary conditions, according to the tentative plans of Professor Woodbridge and the suggestions of health-officer Palmer. An appropriation of two thousand dollars was voted for beginning work of this kind, part of which has been expended in installing new methods of ventilation, and part in substituting a modern system of sanitation for the old.

From the report of the Committee on Buildings and Repairs, made to the Board of Education, will be seen the nature and extent of the work accomplished, while reference to the financial report will show the expenditures incurred in carrying out the plans of Professor Woodbridge and the recommendations of the board of health.

REPORT OF THE COMMITTEE ON BUILDINGS  
AND REPAIRS.

OCTOBER 7, 1901.

The Committee on Buildings and Repairs beg to submit the following report of work done on school buildings during the summer vacation of 1901 :

## EASTMAN SCHOOL.

1. South half of second floor partitioned off and one schoolroom with hall and stairs finished.
2. Ventilation flue for the three rooms carried to attic floor.
3. Fresh-air flue from south wall brought to stove.
4. Roof-plate on west wall straightened and fastened.
5. Gutter on west roof repaired.

Ventilating flue for three rooms ends at attic floor and should be carried out through roof.

Two lower rooms and halls should be renovated.

## WALKER SCHOOL.

1. All plumbing taken out.
2. Entire new plumbing put in.
3. Furnaces in this building do not warm the basement, consequently water in latrines, pipes, etc., has to be drawn off every night during cold weather. Pipes are so arranged that they can be emptied, except traps which are enclosed in boxes filled with dry saw-dust. Water-pipes are hung from basement ceiling, then wrapped with paper, asbestos and felting.
4. Basement whitewashed.
5. Floor of basement recemented where necessary.
6. Roof where covered with tin repaired and painted.
7. Basement windows to air-box repaired.
8. Iron grating and stonework put back, concrete repaired around stonework.
9. Window sashes drawn where necessary.

10. Four front doors painted.
11. Railing for additional protection to small children put on original hand-railing on stairs.

This building should be painted outside another year, also fire-escape painted.

Brickwork under some of the stone-trimmings should be pointed-up.

Would strongly suggest that a door be cut in partition wall between lower halls, in order that the door between the girls' and boys' basements can be kept locked.

#### MERRIMACK SCHOOL.

1. Size of ventilating shaft in hall reduced.
2. Smoke-stack painted on outside.
3. Enlarged the outlet to foul-air shaft of lower west room.
4. Sheet-zinc put in to reduce right angles to curves, to facilitate better flow of air.
5. New foul-air shaft put in lower east room.
6. Hot-air pipe run from hall furnace to same, to ensure draft.
7. Extra register in east room removed.
8. Outlet of same in furnace capped.
9. Ventilator on roof enlarged at outlet to twice its former capacity.
10. New smoke-flue for hall furnace.

Plumbing should be changed as soon as possible.

Plastering wants repairing in some of the rooms.

Slate on roof in poor condition.

#### HIGH SCHOOL.

1. New service-pipes to wash-basins.
2. Traps to wash-bowls cleaned.
3. New water-pipes through building below first floor.
4. New tubes in steam-boiler.
5. New urinal.
6. Building painted outside.

Janitor complains basement flooded at times of heavy rains. Building should have back-pressure valve to prevent this.

#### CHANDLER SCHOOL.

1. Platform removed, and wainscoting repaired and painted.
2. Brick post put under the iron pipe that ventilates the sewer traps.
3. Window sashes repaired.

#### PENACOOK SCHOOL.

1. Old plumbing taken out.
2. New plumbing put in.
3. Concrete in basement mended.
4. New furnace pipe.
5. Opening in furnace chimney closed to get improved draft.
6. Furnaces front removed in order to clean furnaces.
7. Furnaces covered with sheet iron to confine hot air and deliver more directly to the rooms.
8. Cold air chamber enlarged.
9. Exhaust fan and motor installed at outlet of foul-air shaft to insure circulation.
10. Window sashes repaired and painted.
11. Basement whitewashed.
12. Main wall front building near underpinning repainted and bricks relaid.

Hall furnace flue should run to chimney on west side of building.

Present chimney used for flue of hall furnace should be used for ventilating flue for rooms containing latrines.

Basement, west half, should be concreted.

#### COGSWELL SCHOOL.

1. Porch floor and steps repaired.
2. Windows set in screens in front of latrines to get more light.

3. Brick box put around water shut-off.
4. Cement floor repaired.
5. Desks renovated.

This building should be painted another year.  
The floors should also be done over.

#### KIMBALL SCHOOL.

One water-closet fitted with door and lock for teachers.  
Building painted.  
Building should be partly replumbed.  
Some pipes re-covered.

#### DEWEY SCHOOL.

Steps should be leaded.

#### FRANKLIN SCHOOL.

1. Building painted outside.
2. Woodwork where rotten repaired.
3. Bulkhead doors repaired.
4. New name and date put on building.
5. Furnaces repaired.

Fence and flag-pole should be painted. \  
Should have new coal furnaces.  
Old ones burnt out.

JOSEPH T. WALKER,  
GEORGE M. KIMBALL,  
JOHN C. ORDWAY,

*Committee.*

At the beginning of the fall term an unlooked-for and perplexing situation was presented by the High school. Owing to its suddenness and novelty no measures had been taken to meet it, and some inconvenience was experienced in adjusting the extraordinary conditions. Instead of finding the usual number of Concord pupils, the principal found awaiting him not only that number but more than fifty additional

pupils hailing from Penacook, the town district, and from towns near and far. The explanation of all this is found in an act passed by the legislature of 1901, the first section of which is as follows:

“Any town not maintaining a high school or school of corresponding grade, shall pay for the tuition of any child who with parents or guardian resides in said town, and who attends a high school or academy in the same or another town or city in this state, and the parent or guardian of such child shall notify the school board of the district in which he resides of the high school or academy which he has determined to attend.”

The immediate result of this legislation brought to our High school about thirty boys and girls living without the city limits. Complimentary as this was to the reputation of our school, it has nevertheless caused an overcrowding that is anything but desirable. Strange as it may seem to those unacquainted with the condition of the High school building, the fact is that the room space and facilities for carrying on the work of teachers and scholars are not only inadequate at the present time, but have been inadequate for several years. The scholars from Union School district alone have so outgrown the space provided for them, that the question of an enlarged building has become paramount.

One of the exigencies by which the board is confronted is the crowded condition of the High school building, and the immediate need of increased facilities for the accommodation of those pupils who come from adjacent districts, both within and without the city limits. Not only is the large hall overcrowded, thus necessitating the use of all the available space for desk room, thereby blocking several aisles which should always remain open, but the recitation rooms are altogether inadequate. Not only are these all used, but the room occupied by the board of education has to be utilized by classes for recitation, as well as the large hall during study hours. These cramped facilities not only greatly interfere with the proper work of the school, but also with the maintenance of

the highest discipline, without which no school can produce the best results. If the present influx of pupils is to continue,—and there seems to be no reason for anticipating any reduction of the present number,—the present building should be enlarged so as to increase the capacity of the hall, as well as provide more recitation rooms.

We feel that the time has come when the district should take action respecting the school on the Plains. That section of our city, constantly increasing in population, has certainly the right to ask for larger and more modern school facilities for its children. The present building, containing but a single room, is utterly inadequate for the number of children attending the school. It seems to the board of education that a two-story building should be provided for this district, with two lower rooms made ready for present occupancy, leaving the upper story unfinished, but available for future use.

The addition of a few feet to the Manual Training School, thereby gaining much-desired space, seems called for. At present the schoolroom is hardly large enough for the work carried on, and some addition ought at once to be made, relieving the overcrowding and affording more storage space. A few hundred dollars would probably be sufficient for this purpose.

With the completion of the Rumford building the district will own seventeen schoolhouses, valued at nearly four hundred thousand dollars, four of these houses having been built within the past twelve years, namely: The High, Kimball, Dewey, and Rumford. It will be readily seen, therefore, that the district has been rapidly acquiring a very valuable set of school buildings which, added to the older houses, makes a school plant of large valuation. The board have given much thought to this matter, and have come to the conclusion that the present system of supervision of our buildings ought to be changed. For several years, or since 1886, the general oversight and care of buildings has been performed by a sub-committee of three, designated the committee on

buildings and repairs. For a time this committee did very well, but with changes in membership and the increase in the number and size of the new structures, the deficiencies of this arrangement became noticeable. In other words, the largely increased school plant renders the old-fashioned method of supervision impracticable. The buildings not only need constant attention if they are to be kept in good condition, but repairs should be made seasonably. Moreover, the buildings should be frequently inspected, and a watchful, intelligent supervision exercised over them. The making of contracts and the overseeing of repairs has now become no small part of the duties connected with the board of education.

The extent and importance of the work performed under the supervision of the committee on buildings and repairs during the summer vacation of 1901, may be in a measure comprehended by reading the report of the committee on a foregoing page. This is likely to be repeated year by year until the buildings are put in better sanitary condition. Even at the end of that period, further need of repairs will be found urgent, for the larger the buildings the greater the necessity of care and watchfulness. It is plain that the time has arrived when a change should be made in the present method of effecting repairs and supervising contracts. We feel that some arrangement whereby the office of financial agent could be so enlarged as to include the regular and intelligent oversight of our schoolhouses and the supervision of repairs, painting, and alterations, would be for the positive good of the district. We should then have an officer whose duty it would be not only to purchase the supplies and act as disbursing agent, but to do the work now entrusted to a sub-committee of the board. It is hardly to be expected that the members of the committee, usually active men of business, can give as constant and thorough attention to these matters as a permanent supervisor could give. For the best interests of the district, and for economical reasons as well, we are of the unanimous opinion that a change in this method should be made.

With the payment this year of fifteen thousand dollars is closed the account incurred by the building of the High and the Kimball schools, one hundred and twenty odd thousand dollars in all paid by the people of this district since 1889. The bonds of the Dewey are payable eight thousand a year beginning in 1906, and three years will cancel them; and then comes the indebtedness represented by the new Rumford, which, let it be hoped, will be funded for yearly payments at an amount not exceeding five or six thousand dollars. While freedom from debt is most commendable, the method of paying the debt by raising so large a sum as fifteen thousand dollars annually on the property of Union District, has raised the tax rate appreciably, and caused taxes to bear heavily on our people.

The board of education ask the taxpayers for only such appropriations as experience seems to demand, consistent with the proper conduct of the schools and the inevitable progress of educational subjects. The people of Concord are splendidly generous toward their schools, being determined that no schools shall surpass those of Union District; and the members of the board, mindful of the trust imposed upon them, strive strenuously to maintain the high character of our common schools.

In conclusion, we ask a careful perusal of the superintendent's report, and of those accompanying it.

## REPORT OF THE SUPERINTENDENT.

---

*To the Board of Education of Union School District:*

With respect I submit to your honorable body my sixteenth annual report of the condition of the schools in Union School District, being the forty-second of its series. I have made the usual tabulated statistics a part of the report, but will comment upon them no further than to say that the total enrollment for the year ending June 27, 1901, showed an increase of ninety pupils over that of the preceding year. Statistics are necessary and interesting, but the decisive test of our system of instruction lies in the character of the work done by the pupils. The number of children of foreign birth in Concord is so small that the energy of the teachers is not consumed in trying to carry them along with the more readily instructed portion. The public school, speaking as it does for the republic and for personal liberty, has always been considered the safeguard of our form of government, and our greatest solicitude is that all classes of children, both foreign and native born, rich and poor, should receive the benefit of its teachings.

# TABLE OF ATTENDANCE

## FOR THE YEAR ENDING JUNE 28, 1901.

SCHOOLS.	Length of school in weeks.	Whole number of different pupils registered.			Average membership.	Average monthly enrollment.	Average daily attendance.	Per ct. of daily attendance based on av. membership.	Number of cases of tardiness.	Average number of tardinesses to each pupil.	Whole number of pupils under 6 years of age.	Whole number of pupils over 16 years of age.	Whole No. pupils betw'n 6 and 16 years of age.	Number of visits by committee.	Number of visits by superintendent.	Number of visits by parents and others.	No. of pupils not absent or tardy during year.	No. cases of corporal punishment during year.

## ATTENDANCE AND SCHOOL ACCOMMODATIONS.

The school attendance has held its own remarkably well in spite of so many hindrances. The giving up of the old Rumford building forced us to make provision for four extra schools with four less rooms than last year. To do this, the Cogswell and Chandler kindergartens and the ninth grade of the Kimball school were discontinued. No fourth room being available, the pupils were housed by sending them where they were most easily accommodated, school lines heretofore existing being disregarded. Many were asked to walk long distances, and were put to other inconveniences; but the parents generally showed forbearance, so that the arrangement has been maintained with comparatively little friction. Many rooms were so crowded as to render excellent work next to impossible. Pressure was so great in the Chandler and Penacook primaries that it was thought best to employ an assistant teacher for them during the last half of the year. Even this unusual condition, and the taking out of pupils by the new French parochial school, did not cause the attendance to fall below that of last year. The schools in the northern part of the district still continue crowded, particularly in the lowest primaries,—the Tahanto suffering the most. Unless a steady increase is shown in this section, however, I see no immediate need of constructing more school buildings. The southern part of the city will be well accommodated when the new Rumford building is completed, with the exception of that section near the southern boundary in the vicinity of Rockingham, Donovan, and South Main streets. I think the board will soon see the necessity of moving the Bow Brook building to this vicinity for the accommodation of kindergarten and primary pupils who cannot walk to the Penacook and Cogswell schools. There are between forty and fifty pupils here who would be benefitted thereby. The attendance at the Plains school has been large, and satisfactory work has not been done. The large number of classes renders it impossible for the teacher to give as much drill as is required. Some pupils have become discouraged and left school because of a lack of attention.

In the Eastman building one new room was finished in the second story and occupied in the fall, and as a consequence these schools have been prosperous, and are now in the best condition since this part of the city joined Union district.

The attendance in the high school shows an increase due to the influx of tuition pupils for whom the new high school law makes provision. Should this law continue in force for an extended period of time, it will compel the district to furnish more room for high school purposes. The new law in regard to compulsory attendance at school has been carefully observed, and Mr. Johnson has been kept busy in its execution. Already thirty-nine labor certificates have been issued since last September. The truant officer's report to be found elsewhere is worthy of careful study.

#### TRAINING SCHOOL.

At the beginning of the year in September the training school was transferred from the Franklin to the Dewey building. This was caused by an urgent demand for more commodious quarters, consequent upon the institution of a normal kindergarten class which was enrolled during the summer after the board had decided to make a trial of a scheme submitted by the superintendent. Our system of instruction requires the kindergarten teacher to be well versed in primary methods for sub-primary work. Few kindergartners are thus qualified. The question resolved itself into this, either give up the kindergartens or provide some means for the efficient training of such teachers. The scheme was arranged so as to be practically self-supporting, and next year will prove to be the means of saving expense to the district. This class which numbers five resident and six non-resident pupils is in charge of Miss Helen L. Southgate, normal kindergartner, with Miss Augusta M. Judkins as her working assistant. From the beginning, in spite of the difficulties which usually attend such worthy enterprises, the class has prospered, both instructors and pupils evincing much zeal in making this initial movement a success. There

is little doubt but that the scheme will prove its value to our system of instruction and to our city, enhancing its already acquired reputation for the conception, adoption, and practice of advanced educational ideas. The pupils and regular kindergarten teachers of the district have had the advantage of lectures by Miss Ellen Gray, of Boston, who lectured on "Kindergarten Games and Plays," on January 25 and March 8; and by Miss Laura Fisher, February 15, supervisor of kindergartens in Boston on "What education is best for young children?" The training classes for primary work have been unusually small and I find it easy to account for this only upon the theory that it happened so. The school has now only two pupil teachers but the prospect for a much larger class next year is good.

The accommodations for successful work here were never better, and it speaks well for those interested in the welfare of our schools that they forego petty criticisms and credit the school for what it has done and is likely to do in the future.

#### SUPERVISION.

The schools have been supervised as faithfully as conditions would permit, and results attained commensurate with the amount of attention bestowed upon them; yet it has not been close enough to realize the best results. Choosing sound methods and insuring their careful execution, securing uniformity of work, detecting irregularities, and correcting mistakes will not admit of hasty action. Time drawn from school duties by work that is essentially clerical is really misapplied and will not yield the returns which it ought. The usual number of visits to the schools have been made by the superintendent, and the teachers have been called in meeting whenever occasion demanded.

#### KINDERGARTENS.

The kindergartens have been materially improved by the skilled supervision of Miss Southgate. Weekly meetings of the teachers have been held, a uniform programme mapped out and carried into execution. The pupil teachers of the

normal class have been assigned observation duty at stated periods in the regular schools. Besides supplementing their theoretical knowledge by practical work, they have lent material aid to the regular teachers in various ways. The attendance in the kindergartens has been good and the worth of the instruction generally acknowledged. Parents will do well to give their children a full kindergarten course before placing them in the regular primary schools.

#### MILITARY DRILL.

Two periods weekly of about thirty five minutes each have been allowed for military drill and calisthenics in the high school. The boys have been instructed in "School of a company in close order," "School of a soldier with and without arms," while some attention has been paid to "Extended order" and "Battalion drill." The girls have been given calisthenic exercises designed to correct the carriage, improve the circulation and respiration, and increase the physical strength. In addition to the annual competitive drill the company had a field day in the spring. This was held on the intervale and the afternoon was spent in drill and athletic games, closing with a dress parade and a salute to the colors. The numbers being large, a battalion of boys of two companies and a four-company battalion of girls was organized. Some new equipments have been provided and more ought to be. The instructor has attended to his duties faithfully, taught intelligently, makes a generally favorable report of the condition of the company, and advises that more time be given to the study of military science in order to broaden the field of instruction and allow the lower classes more time for drill.

#### THE HIGH SCHOOL.

The high school has recorded the largest attendance in its history. The maximum enrollment has been 258, the minimum 251, only seven having dropped out for various causes. This is a fine record. There are at present fifty tuition pupils, thirty coming from without the limits of Concord.

The building was originally constructed to accommodate 180 pupils. Without the tuition pupils there would be an attendance of 201, so that the question of more room with or without tuition pupils is one which cannot long be put off. The revenue from tuition pupils is \$2,250 and the extra expense incurred by their attendance cannot be over \$800, so that the net proceeds of tuition would be \$1,450. This is the interest on quite a large sum of money and it is desirable that the district should have it to lighten the general expense. The hall alone now contains 230 desks crowded together by narrowing the aisles far below the minimum required for safe hygienic conditions, some having no aisle space at all. The remainder of the pupils are seated in one of the recitation rooms. There is no indication of a decrease in attendance. The principal says "It is absolutely imperative that additional accommodations for the school be provided at once." There were not enough recitation rooms for the pupils so the board room was utilized as well as the laboratories. The principal reports a prosperous year and generally commends the work of the subordinate teachers.

Miss Walker was granted a leave of absence for the year, her place being taken by Miss Grace Morrill. Miss Emma Hindley was chosen to fill the vacancy caused by the retirement of Mr. Hyatt. The increased attendance made it necessary to hire another teacher and Miss Carrie M. True was chosen to fill the position.

The high school in a measure sets the standard of scholarship and discipline for the lower schools, and any lapses in either of these particulars is exceedingly injurious to the whole system.

#### PRIMARY AND GRAMMAR SCHOOLS.

The grading of the schools between the kindergarten and the high school remains much the same as in previous years. Each succeeding year brings up the question of a better adjustment of the requirements to the taste and ability of the pupils. No more conscientious work is done in the district

than that of these schools and none more important. The character of the work in the various branches is strengthened each year by more judicious handling and a power of mind ensues which is highly favorable when compared with that produced by methods in use when I was a boy. The teachers still have to combat prejudices caused by a departure from old ways and by many things which distract the attention of the child from school work. It may be interesting to know that almost all the criticism of school work comes from homes where the pupil is not required to do any considerable amount of manual labor. The school must always demand careful application, and when it becomes subservient to the demands of pleasure it cannot do that which is of service to the child and for which taxes are annually assessed. Arithmetic shows to advantage in the increased ability of the pupil to think and reason, and I do not hesitate to say that for knowledge of mathematics in this respect the schools were never better equipped than they are to-day. The new geographies are sound in theory and practical work and are sure to prove their worth when the full series has been on trial for a reasonable length of time. The reading course should be revised and enriched by the introduction of new material possessing literary merit, at least through the first six grades. The results in map drawing and coloring shown at the exhibition last June elicited much favorable comment. A new spelling list has been provided for the eighth grade. This has three objects in view, correct spelling, correct pronunciation, and correct definition. The mother tongue in grades three, four, and five should be followed by the second book in grade six to make the series complete. The Latin book introduced last June is not satisfactory and not having proved successful should be replaced by a more teachable one. The results of the course in vertical penmanship are commendable. It is legible, decidedly helpful to the eyesight, and recent tests among school children developed the fact that it is faster than the slant by from ten to fifteen letters a minute.

Commercial houses vying with each other for trade frequently discover errors which do not exist, and are to be credited with much of the agitation upon this subject.

As a whole the work of these grades is creditable and has not been subject to as much criticism as in former years.

#### WOOD AND IRON WORK.

The school has enjoyed its full measure of prosperity from increased attendance and a continuation of the interest shown in previous years. The classes are all large, some not having adequate accommodations for carrying on the work. The working outfit has been increased through the generosity of public spirited citizens. Mr. Charles P. Virgin presented the school with a case of wood-working tools, Dr. George M. Kimball a fine emery-wheel grinding machine, and the instructors have constructed a power jig-sawing machine. These are all desirable for the working outfit, aid in the execution of the work, and furnish extra educational features. The school is badly cramped for storage room. This may be had by raising the shed another story or by moving the school to new quarters. The principal compliments the work of the new assistant, Mr. Stewart.

#### SEWING.

The instructor reports added interest and increased attendance over former years. The pupils from the high school deserve commendation for their faithful industry and excellent deportment, the junior class being exceptional in this respect. The number of pieces of finished work exceed those of last year. The classes have been so large that the time for work usually given to machine sewing has been shortened. It may be well to suggest more attention to that kind of work which is properly classed under industrial art. While having had some attention here it has not been given the attention that it ought, but it is rapidly growing in favor, and in

some cities the instructor has been sent abroad to become more fully informed of its value and to be better able to facilitate its introduction.

The instructor desires more visitors that the work may be better understood and appreciated.

#### COOKING.

Nearly the same course and line of work in cooking has been in practice this year as last. It has been more carefully arranged, thus giving something new to each succeeding grade. Individual cooking has been tried with signal success, and has resulted in an increased interest as well as a more complete knowledge of the preparation of the different dishes. It involves a reasonable amount of home work, the pupil practicing from recipes given at the school and bringing in the samples for inspection. At the close of the spring term the eighth and ninth grade pupils prepared, cooked, and served a dinner to their teachers. The cooking room has been improved in various ways so that it is now in a quite satisfactory condition. There have been thirty-five visitors to the school this year and the instructor would be pleased to have the number doubled next year.

#### DRAWING.

The supervision of drawing has been exercised by Miss Bell, the proficient instructor of last year. The same general plan has been in use and the progress marked. Water-color work has shown a decided improvement and if other conditions would permit, more time would be allotted this branch. In the high school, time had to be saved and as usual the scientific course drawing had to suffer. Only half the time of last year has been available. I agree with the instructor that this course is seriously injured by this arrangement and the pupils will be poorly prepared in this line of work if the time is not fully restored. There are thirty-six pupils in the studio class this year, attending in two divisions. The attendance is larger, more regular, and the pupils more enthusiastic

than before. They are obliged to work in poorly heated, ventilated, and lighted quarters, and there is urgent need of more suitable accommodations. The primary and kindergarten normal classes combined have received instruction one hour each week in free-hand drawing, composition, color and harmony. Something has been done in the way of decorating buildings. A beginning was made by purchasing and placing in the halls of the Dewey school, a reproduction in ivory-tinted plaster by Lucca Della Robbia, a Bambino by Andrea Della Robbia, a Madonna by Michael Angelo, a large photograph of The Children of Charles I. by Van Dyck, and a statue of Diana of Versailles. The effect of mural decorations would be better if the walls were tinted for an appropriate background. This new departure in decoration will surely exert a refining influence upon the pupils by bringing them in contact with the truly good and beautiful in art. The exhibition of last June, poorly attended on account of the intense heat, was the best ever held here. The work reflected great credit upon the instructor and the pupils.

#### MUSIC.

No radical changes have taken place either in method or matter of musical instruction. Supplementary rote songs have been added to the regular work of the first two grades. Sight reading has increased in power and this was ably demonstrated by the supervisor with a class from the West Concord school at the February meeting of the Merrimack Valley Teachers' Association. The high school has a chorus of well-trained voices which was shown to excellent effect in the midwinter concert, which was held with assisting talent at Phenix Hall, on the evening of February 14. About forty dollars was realized from this concert and has been placed on deposit as a guaranty fund for future concerts. The instructor justly asks for more than forty minutes a week for his work in the high school in order to accomplish satisfactory results. The teaching has been efficient and the supervisor generously gives the greater part of the credit to the regular teachers.

## THE MORALE OF SCHOOL WORK.

In casting a critical eye toward the scholastic phase of school work, we should not be unmindful of the moral element which forms the basal principle of all true education. Those who have given but little thought to child nature, and have never actually engaged in school work are too often inclined to think that the very necessary element of school instruction is teaching the pupil how to obtain a livelihood, or rather something that bears directly upon wage earning. On the contrary, those who have studied the educational problem believe the primary principle to be, teaching the child how to live, not merely how to obtain a living but how to enjoy his provision as well.

To attain the highest measure of excellence, to stand as something desirable for the children of all, to act as a lever which constantly lifts society from a lower to a higher plane, a school system must be founded upon morality, justice, and intelligence. The one indispensable element is truth—truth in manner, truth in matter, and truth in method. The nearer the pupil gets to truth in heart and action, the nearer he is perfected as a responsible, moral and intellectual being.

Conducive to the æsthetic education of the child is the improvement in the construction and decoration of school buildings. If the building is commodious, well-heated and ventilated, perfect in its sanitary conditions, of sound architectural design, and embellished with works of art, a child naturally dresses better, acts better, talks in better language and thinks purer thoughts. Frequently this healthful influence extends to the immediate neighborhood and its social status is perceptibly improved.

Methods of instruction should be founded upon reasonable hypotheses, for after youth has been passed and manhood reached, reflection often causes keen regrets at the amount or time wasted upon work called for by methods which had their false conception in the brains of aspirants for educational fame through introducing something new. The same

is true of old methods, practiced because they were thought to be good when I was a boy. Usually those engaged in active teaching are good judges of what methods are suited to promote the moral and intellectual welfare of the child.

So it is with the matter which is taught within and without the text-book, matter illogical in statement and arrangement which fails to fortify the pupil against future contingencies. Error in thought, spelling, grammatical construction, mathematical accuracy, geographical and historical statement — all work havoc with results we expect from time and effort spent in school.

Nature alone stands forth as the most persistent of truth-tellers. Her laws are still immutable. The nearer we bring a child to nature the nearer we bring him to truth in thought and act. This being an indisputable fact, it ill becomes anybody to belittle the study of nature through minimizing its helpful influence. Its work is sure and sooner or later will be made manifest in various and unexpected ways.

All recreations identified in any way with school life or indorsed by those in charge of school children should be of such a character as to elevate, not lower, the moral tone. There are enough diversions combining the recreative and the educative to lighten the monotony of school routine without descending to cheap and degrading amusements.

Underlying all these things and transcendent in importance is the nature and attitude of the teacher. To become a power for the upbuilding of the school morale, of society in general, and a credit to the profession, the teacher must be free from boorishness, refined in nature, just to all, pure in speech, thought and action, and must set an example of manhood and womanhood which the pupils may safely emulate. The subject of school morale is one which is being brought forward to-day more forcibly than ever before, and the best educational minds are giving it due thought. This thought is necessary in order that the educational superstructure, reared by years of patient toil and anxiety, may not be ruthlessly torn down.

I am again made mindful of the sympathy and encouragement given me by the board of education and teachers, and the trust reposed in me by the general public.

L. J. RUNDLETT,  
*Superintendent.*

† Henry E. Sawyer, principal of the High School, performed the duties of superintendent of schools, in addition to those of instructor, in 1862-'63.

## OFFICERS OF UNION SCHOOL DISTRICT, 1859-1901.

*Moderators.*—Asa Fowler, 1859, '63, '68, '69, '70, '72. Samuel Coffin, 1860. Dudley S. Palmer, 1861. Amos Blanchard, 1861. Henry E. Sawyer, 1862, '64. Thomas P. Treadwell, 1862. P. B. Cogswell, 1863. William E. Chandler, 1863, '64. Charles P. Sanborn, 1865, '73. Anson S. Marshall, 1866. John Kimball, 1867, '76, '77, '79, 1880-1888 inclusive. Enoch Gerrish, 1871. George A. Pillsbury, 1873, '74. William M. Chase, 1875. Benjamin E. Badger, 1876. William H. Buntin, 1878. E. H. Woodman, 1889, '90, '91. Charles C. Danforth, 1892-1901 inclusive. James O. Lyford, 1897. Samuel C. Eastman, 1898.

*Clerks.*—Jeremiah S. Noyes, 1859. Stillman Humphrey, 1860-1894 inclusive. Willis D. Thompson, 1895, '96, '97. Louis C. Merrill, 1898-1901 inclusive.

The following persons served as clerks *pro tem.*: Paltiah Brown, Aug. 17, 1861. S. C. Eastman, April 8, 1865. William M. Chase, July 8, 1871. Thomas B. Little, March 24, 1877. Isaac W. Hammond, March 28, 1884.

## ANNUAL SCHOOL MEETING WARRANT.

## STATE OF NEW HAMPSHIRE.

*To the inhabitants of Union School District qualified to vote in district affairs:*

You are hereby notified to meet at the city hall in said district, on Thursday, the twenty-seventh day of March, 1902, at 7 o'clock in the evening to act upon the following subjects:

1. To choose a moderator for the ensuing year.
2. To choose a clerk for the ensuing year.
3. To hear and act upon the report of the board of education for the past year.
4. To choose three members of the board of education to hold office for three years, to fill vacancies arising from the expiration of the term of office of John M. Mitchell, Susan C. Bancroft, and Charles R. Corning, and also fill any other vacancies which may occur in said board.
5. To choose one or more auditors and all other necessary officers for the ensuing year.
6. To see what sum of money the district will raise and appropriate for the payment of the debts of the district.
7. To see what sum of money the district will raise and appropriate for the support of schools for the ensuing year, including industrial education, military drill, and calisthenics.
8. To see what sum of money the district will raise and appropriate for repairs of school buildings during the ensuing year.

9. To see what sum of money the district will raise and appropriate for extraordinary repairs of school buildings during the ensuing year.

10. To see what sum of money the district will raise and appropriate for the completion and furnishing of the new Rumford school building, for the grading of the Rumford school lot, and building of walks thereon.

11. To see what action the district will take with reference to funding the indebtedness arising from the building and furnishing of the new Rumford school building and grading of the lot of said school, and with reference to providing payment of said indebtedness as it becomes due, and what arrangements, if any, the district will make with the City of Concord for its aid in funding said indebtedness, under the act of the legislature passed in the session of 1889, entitled "An Act to Authorize the City of Concord to borrow money in aid of its School Districts," and to appoint all necessary agents to carry into effect such vote as the district may pass.

12. To transact any other business that may legally come before said meeting.

Given under our hands this 12th day of March, 1902.

CHARLES R. CORNING,  
JOHN C. ORDWAY,  
JOHN VANNEVAR,  
GEORGE M. KIMBALL,  
SUSAN J. WOODWARD,  
EDWARD N. PEARSON,  
JOSEPH T. WALKER,  
SUSAN C. BANCROFT,

*Board of Education of Union School District.*

I certify that on the eleventh day of March, 1902, I posted a copy of the written warrant attested by the board of education of said district at the place of meeting within named, and a like attested copy at the police station in the City of Concord, N. H., being a public place in said district.

L. J. RUNDLETT.

MERRIMACK SS.

CONCORD, March 12, 1902.

Personally appeared the said L. J. Rundlett, and made oath that the above certificate by him signed is true.

Before me :

GEORGE W. JOHNSON,

*Justice of the Peace.*

## ANNUAL MEETING OF UNION SCHOOL DISTRICT.

---

CONCORD, N. H., March 28, 1901.

Agreeably to the foregoing warrant, a meeting of the legal voters in Union School District was held in city hall, this twenty-eighth day of March, 1901, at 7 o'clock in the evening, and was called to order by the moderator, Charles C. Danforth, who read the warrant.

ARTICLE 1. John M. Mitchell moved that the clerk cast one vote for Charles C. Danforth for moderator; motion carried, the clerk cast one vote for Charles C. Danforth for moderator, and having all the votes cast, he was declared elected, and the oath of office was administered by John M. Mitchell.

ART. 2. Edward N. Pearson moved that the moderator cast one vote for Louis C. Merrill for clerk, and he was declared elected unanimously, and the oath of office was administered by John M. Mitchell.

ART. 3. H. H. Metcalf moved that the printed report of the board of education be accepted. Motion adopted.

ART. 4. John M. Mitchell offered the following resolution:

*Resolved*, That the three members of the board of education to be chosen for three years each, be voted for on one ballot. That the polls be opened at this time, and remain open until 8 o'clock this evening. Motion seconded, vote taken, resolution declared adopted, and the polls declared open.

At 8 o'clock the moderator declared the polls closed, and appointed E. N. Spencer and James M. Killeen to assist in sorting and counting the votes.

The moderator declared the ballot as follows :

Total number of votes cast . . . . .	199
Necessary for a choice . . . . .	95
May Martin . . . . .	1
James M. Killeen . . . . .	6
Henry C. Brown . . . . .	87
Eben B. Hutchinson . . . . .	91
John Vannevar . . . . .	99
George M. Kimball . . . . .	105
Joseph T. Walker . . . . .	163

The moderator declared John Vannevar, George M. Kimball, and Joseph T. Walker elected members of the board of education for three years.

ART. 5. W. D. Thompson moved that the clerk cast one ballot for William Yeaton and Adam P. Holden as auditors for the ensuing year. Motion carried, and moderator declared William Yeaton and Adam P. Holden elected as auditors.

ART. 6. John P. George offered the following resolution and moved its adoption :

*Resolved*, That there be raised by tax on the polls and ratable estates within Union School District, the sum of fifteen thousand nine hundred dollars (15,900), of which sum fifteen thousand dollars shall be appropriated for the payment of notes maturing July 1, 1901, and nine hundred dollars (\$900) for the payment of the interest on its funded debt during the year. Motion adopted and appropriations made.

ART. 7. John M. Mitchell offered the following resolution and moved its adoption :

*Resolved*, That there shall be raised, and is hereby ordered to be raised by tax on the polls and ratable estates within Union School District, for the support of schools for the ensuing year such a sum as in addition to the sum assigned to

the district by the city of Concord out of the appropriation for schools, will amount to the sum of fifty thousand six hundred and fifty-three dollars (\$50,653). Resolution declared adopted, a vote being taken.

ART. 8. John M. Mitchell moved the article be passed over, and so declared by the moderator.

ART. 9. Henry C. Brown offered the following resolution and moved its adoption :

*Resolved*, That the sum of two thousand dollars (\$2,000) be raised by taxation upon the polls and ratable estates within Union School District, and appropriated for extraordinary repairs on the school buildings, and that the expenditure of such a sum shall be under the direction of the board of education.

A vote was taken and resolution declared adopted.

ART. 10. W. D. Thompson offered the following resolutions :

*Resolved*, That a new schoolhouse of not less than eight rooms be erected on the lot now occupied by the Rumford building, between Monroe and Thorndike streets, at an expense not exceeding thirty thousand dollars (\$30,000) ; that Henry C. Brown, Eben B. Hutchinson, and Louis C. Merrill be a building committee to erect and furnish said schoolhouse ; to employ architects, agents, and such other assistants as they may require, and to do in the name and in behalf of the Union School District such other acts as may be necessary to carry this resolution into effect.

*Resolved*, That one fifth of the sum mentioned in the last resolution be raised by taxation upon the polls and estates within the district when the money is raised for the regular appropriation for the year nineteen hundred and two, and that the remaining four-fifths of said sum be borrowed upon the credit of the district, as authorized by law.

*Resolved*, That the building committee aforesaid be and hereby is authorized to receive the money arising from taxation, and to borrow the balance of the money appropriated as aforesaid in the name and in behalf of the district, and to sign the name of the district to notes or other evidences of debt therefor, and to receive the proceeds.

*Resolved*, That the building committee aforesaid be and hereby is authorized to appoint a treasurer from its number or otherwise, to hold and disburse upon its order the money coming into its hands.

Mr. Thompson moved the adoption of the resolution. Dr. S. C. Morrill moved to amend by substituting \$16,000 for \$30,000.

Sylvester Dana moved that the whole matter be referred to the board of education, to report at some subsequent meeting. Motion seconded, a vote taken, and motion declared lost.

Dr. S. C. Morrill withdrew his amendment, and moved to amend the resolution by substituting \$25,000 for \$30,000.

Amendment seconded, vote taken, and amendment declared lost.

Mr. Thompson's motion was seconded, a vote taken, and declared adopted.

ART. 11. Mr. W. D. Thompson then read the following report of the treasurer of the building committee for the Dewey school :

## REPORT OF TREASURER OF BUILDING COMMITTEE.

UNION SCHOOL DISTRICT, March 28, 1901.

## RECEIPTS.

From City of Concord . . . .	\$6,000.00
From money borrowed . . . .	24,000.00
	————— \$30,000.00

## EXPENDITURES.

Lot and grading . . . . .	\$4,904.87
Plan and services of architect, etc. . . . .	941.75
School building . . . . .	20,174.00
Heating and ventilating . . . . .	1,867.59
Furniture . . . . .	764.13
Interest . . . . .	271.67
Insurance . . . . .	50.00
	—————
Total cost to date . . . . .	\$28,974.01
*Cash balance on hand . . . . .	1,025.99
	————— \$30,000.00

W. F. THAYER,

*Treasurer.*

CONCORD, N. H., March 28, 1901.

I have examined the above account of receipts and expenditures, and find the same correctly cast, together with receipted vouchers for the same.

GEORGE K. HAZELTINE,

*City Auditor.*

On motion, voted to accept the report.

\* Cash in hands of treasurer for expense of grading, concrete walks to be laid, etc., \$1,025.99.

John C. Ordway then offered the following resolution :

I. *Resolved*, That the present indebtedness of the district arising from building and furnishing the Dewey schoolhouse, twenty-four thousand dollars (\$24,000), be funded at a rate of interest not exceeding three and one-half per cent. ( $3\frac{1}{2}\%$ ), the principal to be paid as follows :

\$8,000 July 1, 1906.

\$8,000 July 1, 1907.

\$8,000 July 1, 1908.

And that a sufficient sum of money be assessed upon the polls and estates in said district on the first day of April in each year hereafter to meet the payments of interest and of the principal falling due in the years as aforesaid, and that the money obtained by said assessment be and the same is appropriated to the making of said payments.

II. *Resolved*, That the district request the City of Concord to aid in funding the indebtedness as the city is authorized to do by the act of the legislature of New Hampshire, approved August 14, 1889, entitled "An act to authorize the City of Concord to borrow money in aid of its school districts," provided said district will raise the money necessary for the purpose upon the terms set forth in the last resolution, and will allow the district to have the use of the money so borrowed; and further, that if this request is complied with, the district will seasonably pay to the city sufficient sums of money to enable it to meet the payments of interest and principal upon its indebtedness so created as the same fall due, and all incidental expenses, and will apply the money to be raised under the last resolution to the payment aforesaid.

III. *Resolved*, That John C. Ordway, Willis D. Thompson, and William F. Thayer, the building committee of said district, be the agents of the district to negotiate and agree with the city for its aid, as set forth in the last resolution, and to sign, seal, and deliver all writings and papers that may be

deemed necessary or advisable relating to said negotiations and agreement, and if the city does not aid the district as requested, said persons are authorized to borrow money for the use of the district upon the terms set forth in the first resolution; and to give the district notes or other obligations for the money so borrowed, and full authority is hereby given to said persons to do all the acts aforesaid, and it shall be their duty to make a full report in writing of their doing under the authority herein granted at the next general meeting of the district.

Mr. Ordway moved the adoption of the resolutions. Motion seconded, a vote taken, and declared unanimously adopted.

ART. 12. Mr. John P. George offered the following resolution and moved its adoption :

*Resolved*, That the board of education are hereby authorized to make such disposition of the Bow Brook schoolhouse and lot as they may deem for the best interests of the district.

A vote was taken, and the resolution declared adopted.

No other business being presented, it was voted to adjourn.

A true record. Attest :

LOUIS C. MERRILL,

*Clerk.*

## APPENDIX.

OPINION OF THE SUPREME COURT IN REGARD TO  
TUITION PUPILS OF PENACOOK.

No. 101. Merrimack.

UNION SCHOOL DISTRICT *vs.* DISTRICT NO. 20.

ASSUMPSIT, for tuitions of children who, with their parents or guardians, reside in the defendant district, and who attend the high school of the plaintiff district.

The defendant district does not maintain a high school, or one of a grade corresponding to the plaintiff's high school.

The respective parents or guardians of the children attending said high school notified the defendant school board of the purpose of said children to attend said school.

The defendants declined to pay said tuitions, or any of them, claiming that the same should be paid by the city of Concord.

There are three school districts in Concord, namely: Union School district, District No. 20, and the town district.

Transferred from the superior court by Stone, J.

*Mitchell & Foster*, for the plaintiff.

*David F. Dudley*, for the defendant.

BLODGETT, C. J. The sole contention of the defendant district is that the tuitions of the children resident therein, who attend the high school of the plaintiff district, should be paid by the city of Concord, in which both districts are situate.

We are unable to find any tenable basis for this contention. So far as appears, and as we take the fact to be, each district has "a special, independent, and complete organization, and officers of its own having exclusive authority for the superintendence and government of its schools, and the administration of all its school affairs," and is a distinct and separate

organization and corporation, not merely as to each other, but as to the city of Concord. *Sargent vs. District*, 63 N. H. 528, 530, 533, 534; *Wheeler vs. Alton*, 68 N. H. 478.

With these relations and conditions existing, it would not only be obviously unjust to subject the city to the payment of tuition at the plaintiff's high school, for children resident in the defendant district, which has authority to establish and maintain a high school of its own (Public Statutes, chapter 89, section 9), but we think the parties fairly come within the meaning of "town" as used in chapter 96, Laws of 1901, indicating that "any town not maintaining a high school or school of corresponding grade, shall pay for the tuition of any child who with parent or guardian resides in said town, and who attends a high school or academy in the same or another town or city in this state, and the parent or guardian of such child shall notify the school board of the district in which he resides, of the high school or academy which he has determined to attend."

This construction not only accords with the requirements of justice and the well-recognized independent corporate powers of school districts, and the historical evidence, but it is also authorized by *Sargent vs. District* and *Wheeler vs. Alton*, *supra*, and by section 5, chapter 2, of the Public Statutes, which provides: "The word 'town' shall extend and be applied to any place incorporated, or whose inhabitants are required to pay any tax, and shall mean that city, town, ward, or place in which the subject matter referred to is situate, or in which the persons referred to are resident, unless from the context a different intention is manifest." But, apart from these considerations, towns, as such, not being authorized to maintain high schools, and having no boards of education, it is manifest from the act of 1901, itself, that the construction adopted is the correct one.

The plaintiff's action is maintainable. Case discharged. All concurred.

## REPORT OF THE BOARD OF EDUCATION OF DISTRICT No. 20, PENACOOK.

---

The Board of Education presents herewith its annual report, accompanied by the report of the superintendent of schools and of the treasurer to the board, and respectfully submits them to the citizens of the district. For the first time in the history of this district we have a superintendent of schools, this district uniting with the city of Franklin for this purpose, in accordance with a vote passed at an adjourned school meeting held April 27, 1902.

The value of the work of a superintendent of schools cannot be demonstrated in one year. Especially is this true when teachers and members of the Board of Education are unused to such supervision. For this reason, and because a superintendent is considered a necessity in most districts and by all competent educators, we recommend that the district appropriate money for the purpose of employing a superintendent another year. A pressing need in education in this district is skilled supervision by a man of broad and liberal training, who is familiar with educational methods in other and larger localities, and who shall have power and opportunity to administer school affairs according to such methods. The time has come when we must either adopt this plan with consequent skilled work and improvement in our schools, or grow more accustomed to low standards, in consequence of which children waste time and opportunity and society suffers sorely. With the administration of school affairs by a superintendent who is given authority and held responsible, goes out the personal element which has sometimes caused friction and unpleasantness.

The Board of Education should centralize responsibility on the same principle as large business interests are managed, and the superintendent should understand that he is to be judged by his record and held responsible for results. It is because the Union District believes in skilled supervision and

has confidence in Mr. Sanborn, that they are willing to admit the graduates of our grammar school to their high school without examination, and the continuance of such supervision means that *every* graduate of our grammar school will be qualified to commence work in the high school without the extra effort and expense of tutoring, or the dread of examination by teachers with whom they are unacquainted.

No parent can afford to send his child to a teacher who is not qualified by education, training, culture and nobility of character, to develop the child into the noblest possible type of manhood or womanhood. There is no place where high ideals should be so constantly proclaimed both by precept and example as in the school, and a high standard of qualifications of teachers, both educational and moral, should be maintained.

During the past year sanitary improvements have been made in the basements of the school building. Sinks with automatic faucets have been substituted for the unsightly and unsanitary pails for drinking purposes, and a new urinal with automatic flush has been substituted for the old wooden trough. These improvements are, however, only a beginning of what ought to be done. The schoolhouse is unsanitary, and will continue to be a menace to the health of every child in the school until a thorough system of ventilation is put in the building.

We commend the untiring zeal with which Mr. Merriam and Mr. Sanborn have worked for the uplifting of the whole school, the improvement of the school building, and the establishment of high moral and physical ideals.

IRA C. PHILLIPS,  
OSCAR E. SMITH,  
H. C. HOLBROOK,

*Board of Education.*

## REPORT OF SUPERINTENDENT.

I herewith respectfully submit to the School Board of District No. 20, Penacook, N. H., my first annual report.

The labors of a school superintendent in a new field must in part be that of the student. He must find out and become conversant with those conditions of school and community which have a bearing upon the educational problem which he is to solve. When this is done he can wisely formulate a plan along which he can work for the best interests and greatest improvement of the schools. In the following report I shall endeavor to set forth some of the items of such a plan, and on careful consideration you will agree with me that these items are of vital importance to the welfare of the schools.

The superintendent's work in Penacook has been difficult, and not altogether as pleasant as it should have been. This was in part due to the fact that in the fall the idea of a school superintendency was entirely new to both schools and community. However, many thanks are due to those teachers and members of the district who have heartily coöperated in working for the good of the school. Some of the difficulties have already been removed, and those which remain to threaten the interests of the school must soon disappear under the united efforts of an efficient school board, an interested community and able teachers.

The results of working among children can be wrought out only by the slow process of time. New plans and methods must be pursued with care for a long period before decision can be passed upon their success. Education and its development are necessarily slow, and in passing judgment upon the work of those who have the schools in charge this fact must be kept constantly in mind.

## ATTENDANCE.

A glance at the table of attendance for 1900-1901, will convince any one that in this line there is chance for great improvement. Only one school has a per cent. of attendance over ninety and the total tardiness is 686. Here is where the

parents can greatly assist the teachers. Place the school in its true relation of importance to the child, teach the child the first lessons of punctuality and regularity in school attendance, then you will have done a great deal to secure the present success of the schools and the future success of the child. The teachers are doing much to make attendance what it should be; but their efforts cannot be fruitful of the best results without the hearty coöperation of the parents.

#### TRUANT LAW.

Under the recent law of 1901, twenty-one employment certificates have been granted to children between the ages of fourteen and sixteen years. By the provisions of the law, all children between the ages of eight and fourteen must attend school, and the school districts may make by-laws, not repugnant to law concerning the attendance of children between the ages of six and sixteen. As the average child is sufficiently well developed to attend school when six years of age, the district ought to make a by-law concerning the attendance of children between the ages of six and eight. Most towns of the state have already made such regulations, and compel the children to attend at six years of age. The Union District of Concord compels all children to attend at five years of age. It might not be advisable in Penacook to fix attendance at such an early period, but something ought to be done at once. The majority of children between the ages of six and eight are far better off in school than they are outside of the school-room. A great deal might be said showing how great the advantage to be obtained for both children and school by such a regulation. It is hoped that the district will see fit to take prompt action in regard to the matter.

#### PRIMARY SCHOOLS.

There ought to be an addition to our primary schools, in order to accommodate the large number of small children. At present the first grade is very much overcrowded. This addition might take the form of a sub-primary or kindergarden.

Under present conditions the children come into the first grade with little or no training, and several weeks of valuable time must be spent in teaching them how to use their hands and to become familiar with school customs. In this place let me quote from the Hon. A. E. Winship, who says in a recent issue of the *Journal of Education* :

“The right kind of a kindergarten affects for great good the child’s whole school life. The primary school work in any town is decidedly improved when it follows the kindergarten. Primary school work is in a better spirit, and the child is in a vastly better mental attitude. No primary school teacher can do reputable work with newcomers if she has more than twenty-five children. All statistics demonstrate that in towns and cities with no public kindergarten, about forty per cent. of the primary children are required to do the work of the first or second grade over, so that forty per cent. of the primary schools must be charged up to the absence of the kindergarten.”

This shows that the establishment of a kindergarten would not incur an appreciable extra expense to the district. It seems to me that the time is ripe for the establishment of such a school for the children, and that District No. 20 could only be placed in the objectionable rank of those who are indifferent to the progress of modern education should it longer delay action in this direction.

#### IMPROVEMENT.

During the last summer vacation over two hundred dollars were expended on improvements in the basement of the school building. A new and improved system of sanitary water-closets has taken the place of the old objectionable system. New porcelain sinks have been placed in the basements, and further improvements in piping have been made. In order to drain the water from the steam pipes in the two north rooms and facilitate the heating of those rooms, escape pipes

have been put in. These carry off the water and allow the pipes to fill more rapidly with steam, thereby making it much easier to gain the required temperature. Nodusto has been applied to the floors of some of the rooms. This seems to have made a great improvement in the air of the rooms, and its use can, I believe, be continued to good advantage.

#### TEACHERS.

Unless the teaching force of a school acts as one harmonious whole, the best results cannot be obtained. The work of each teacher must supplement that of every other one. In the modern educational system no teacher is independent of all others. They must work together, hand to hand, and it is much better if they work in full sympathy for the fulfillment of a noble purpose—that of making the world better by teaching the children to become good citizens.

There have been several changes in the teaching force this year. While it is always a misfortune to lose an experienced teacher if his work is satisfactory, a new teacher often brings new life, new methods, and new vigor into the school, and sets in motion the thoughts of the other teachers.

Miss Bessie Kelley began work in the first grade at the opening of the fall term. Miss Mary W. Smith took up the work of the sixth and seventh grades early in the fall. At the beginning of the winter term, Miss Bessie Rolfe entered upon the work of the second grade in the place of Mrs. Hannah Holden who was transferred to the third grade to take the place of Miss Florence Chandler who resigned. Early in the fall Miss Annie Chandler entered upon the duties of music instructor. Miss Maria Carter and Miss Susan Pickard are doing faithful work in the fourth and fifth grades respectively.

Near the end of the fall term Mr. Gushee resigned and Mr. B. J. Merriam was chosen to fill his place. Under Mr. Merriam the school has shown marked improvement in spirit and order. All belonging to the district should give

sympathy and as far as possible material aid to Mr. Merriam in his earnest effort to place the school on a higher educational plane.

Great care should be used in the selection of teachers. This is an age of trained labor. No untrained, unskilled person can hope to take a front rank in his profession. The skill which will assure success to the teacher may be obtained through years of experience, the training school or normal instruction. It may not be wise to make radical changes in our present teaching force; but as vacancies from time to time occur, I would strongly recommend that candidates be required to present a state certificate, or in place of that proof of professional training or successful experience in other schools.

The majority of our teachers have their homes in Penacook. This is wise. All due consideration should be given to the employment of home teachers when the working capacity of the schools is not impaired thereby. No school can afford, however, to have on its teaching force, simply because they are home teachers, those who through lack of education, training, or a sufficiently strong personality are eminently unfit to hold positions in the public schools.

When other conditions are equal it is right that preference should be given to teachers who reside in town. Yet the conditions can not be considered equal when the home candidate does not present a certificate of qualification, while candidates from elsewhere present certificates from training schools and sometimes in addition the proof of successful experience. Those who are looking forward to teaching in the future should plan to train themselves for their work by reading and study.

#### MUSIC AND DRAWING.

Early in the year the school district was very fortunate in securing the services of Miss Annie Chandler as music teacher. Under her supervision several new and progressive features have been added to the music course. The third and fifth books of the educational music series have been

introduced with success. The amount of money expended on the department of music is by far inadequate to the amount of work required and also to the amount of work actually done.

The condition of the drawing in the schools is far from what it should be. Perhaps the work might be somewhat improved by the introduction of a series of books on the subject. Such a course, however, seldom proves satisfactory. Free-hand drawing is an art and only an artist can successfully teach it. In fact it is almost, if not quite, impossible for a grade teacher to do sufficient work along this line. She has not the time to spare and often lacks the talent required. The best remedy for the present unsatisfactory condition of the drawing in our schools is to employ a supervisor. This can be done at very small expense and would add greatly to the improvement of the schools.

#### TEXT-BOOKS AND SUPPLIES.

At present all supplies are, according to law, furnished by the school district. This especially in the case of paper is a matter of neatness and economy. In the fall the children were buying their own tablets, wasting the paper and throwing it about the schoolroom. Under the present system the paper is furnished to the pupils at a much less cost than they can possibly buy it, and the teachers oblige them to be much more careful in the use of it.

A few new text-books have been introduced this year. Great care has been used to get only the best. Early in the year Wentworth's Algebra was adopted in the ninth grade, and later the fourth book of the Stepping Stone series of readers was placed in the fifth grade and the Arnold primer in the first grade. Mention has already been made of the third and fifth book of the educational music series. Recently the Lockwood and Emerson lessons in English have been placed in the ninth grade. The subject of arithmetic is now under consideration, and it is hoped that at the beginning of another year a new arithmetic on the spiral plan may be placed in the hands of the pupils of the lower grades at least.

## SCHOOL ACCOMMODATIONS.

The overcrowded condition of the schoolhouse is a well-known fact to all members of the school district. When school opened in the fall Mr. Gushee had four grades in his room. This was a very unsatisfactory, overcrowded condition, and a remedy was immediately sought. It was thought wise to establish a school in some outside building, but as it was impossible to secure a suitable room, the plan failed. Finally, at the suggestion of Mr. Oscar Smith, the present arrangement was decided upon. Seats were placed in the hallway, and a part of the scholars removed from Mr. Gushee's room. This arrangement, though the best that could be made, has been very unsatisfactory, and will be impossible another year on account of the large in-coming sixth grade. There are now eighteen in the sixth grade, six in the seventh grade, fourteen in the eighth grade, and thirteen in the ninth grade. This makes a total of fifty-one pupils in four grades, with two teachers, and very poor seating accommodations. The estimate on the size of the same grades for next year is as follows: Forty-one in the sixth grade, fifteen in the seventh grade, ten in the eighth grade, and fourteen in the ninth grade. This makes a total of eighty pupils to be accommodated where it has been very difficult to accommodate fifty-one pupils.

The question arises, What can be done? The only answer is, More room must be furnished. All the grades below the sixth will have over forty pupils, which is fully as large a number as any room in the building ought to accommodate.

Great care should be used in planning for new accommodations. To build a new building that in a few years would become inadequate in the matter of room accommodation, would in the end cause much inconvenience, and certainly pecuniary loss. The number of pupils is yearly increasing. At present we have a sufficiently large number of pupils to fill two new rooms, and in a few years the number will greatly increase. A building of four rooms would not in any

respect be an overestimate of the accommodation needed in the near future. Moreover, I believe that such a building should be so constructed as to admit of a large addition.

Great care should be used in the construction of new buildings. The arrangement of rooms, their general equipment, heating, lighting, and ventilation, should be left in the hands of those who are thoroughly familiar with the everyday requirements of the modern school.

Heating and ventilation are matters of great importance. The best methods of heating and ventilation are none too good for the schoolroom. To do the most effective work children must be surrounded with the most favorable conditions. In a crowded, overheated, poorly ventilated room, children become restless, their minds dull, and their work unsatisfactory. Furthermore, poor ventilation is a constant menace to the bodily health of the pupils. A perfect sanitary condition demands that each pupil shall be furnished with two thousand cubic feet of pure air per hour. At present the average schoolroom in Penacook has an air capacity of about two hundred and ten cubic feet per pupil. This would necessitate a change of air five times each hour. The present methods are altogether ineffectual. In fact, as far as can be ascertained, our schoolrooms have no ventilation whatever except by means of the doors and windows, which is a most dangerous system. The children are constantly suffering from impure air, or are in danger of taking cold from draughts of cold air. This matter should be attended to at once, and prompt action should be taken by the members of the district, in whose charge the children really are.

#### IN CONCLUSION.

The aim of an educational system is not to simply fill the mind of the pupil with a long list of dry, uninteresting facts, but rather to develop in the pupil a power of mind which he can use in his after life. Very few children remember what they have learned from their books in the schoolroom, and yet they have grown mentally, have formed habits of study

and thought, and have acquired force of character. Educators have been and still are studying to find and foster the natural development of the child's mind. It is with this end in view that the old method of learning rules by number, and wasting time and energy on the solution of problems far too difficult for the capacity of the child's mind, has given place to the brighter one of teaching nature, music, and drawing. The same idea has led to the introduction of the kindergarten, where the child's play is regulated and skillfully guided, so that it may form a part of the training for the life-work. The present methods of educational training tend to give the children a bright and cheerful disposition, broad mental development, and strength of character. To be sure, the present system cannot be approved in full until it has stood the test of time; yet it can be readily seen that the schools of to-day show a conservation of school time, scientific methods of teaching, and cultivation of the fine sensibilities of the child's mind which have not been shown by any previous system. Then it should be the object of our school systems to develop in the children those qualities which will make them good citizens. This I consider the ultimate aim of my work in Penacook, and I seek from all interested in the schools hearty coöperation.

H. C. SANBORN,  
*Superintendent.*

TABLE OF ATTENDANCE FOR THE YEAR 1900-1901.

SCHOOLS.	Whole number of different pupils registered.			Length of school in weeks.	TEACHERS.												
	Boys.	Girls.	Total.		Average membership.	Average daily absence.	Average daily attendance.	Percent. of daily attendance.	No. cases of tardiness.	Average number of tardinesses per pupil.	No. of pupils under 6 years of age.	No. of pupils over 16 years of age.	No. of pupils between 6 and 16 years of age.	No. of visits by committee.	No. of visits by parents and others.	No. pupils not absent or tardy during the year.

## REPORT OF THE TOWN SCHOOL DISTRICT

FOR THE YEAR ENDING MARCH, 1902.

Another school year with its successes and disappointments is in the past. Success has been general. Our selection of teachers has been eminently fortunate, and their work has been thorough without exception. The teachers and school board have been almost unanimously supported by parents and residents of the district, though now and then we encounter one of those people whom nobody seems to please. Fortunately such persons' influence is seldom felt beyond the disadvantages they bring to their own families. Having some acquaintance with schools in adjacent towns, we may be pardoned for saying that ours compare favorably with other rural schools in this section of the county. We give below a concise report of each school in the district.

## MILLVILLE SCHOOL.

The spring and fall terms of the advanced grades were taught by Miss Luella Marden, of Epsom, who gave perfect satisfaction, and it was with many regrets that we accepted her resignation. The winter term was taught by Mrs. Sarah E. H. Clark, who is a lady of large experience. The excellence of the school was fully maintained under her management.

A.

## MILLVILLE PRIMARY.

The spring term was taught by Mrs. Sarah E. H. Clark. Her work was fully appreciated, and was attended with marked results. The fall and winter terms were taught by Ethel M. Paige. This was Miss Paige's first school, but we fail to see how her work could have been better done; the district should retain her.

A.

## IRON WORKS SCHOOL.

Miss Jennie C. Brown has taught this school for several years. Fine scholarship is positive proof of Miss Brown's ability and faithfulness as a teacher. Keep her in some of our schools.

A.

## STANDISH SCHOOL.

This school was organized for the benefit of scholars near Pembroke line, with Miss Lora L. Tarbell as teacher. This was Miss Tarbell's first school, and the room in which she taught was unsuitable. She succeeded just the same, and won the respect of parents and the love of her scholars.

A.

## HORSE HILL SCHOOL.

The spring and fall terms were taught by Miss Carrie E. Foss, whose faithful service in the past has brought this school to its present excellent standing in scholarship. Miss Georgiana Webster, of Kingston, N. H., was employed for the winter term, during which the school maintained its usual high rank. The closing examination was notable for the exhibition of some excellent spellers, among whom two young girls showed remarkable proficiency for their years.

S.

## NUMBER FOUR SCHOOL.

This school was in charge of Miss Mary F. Barnes for the entire school year. Miss Barnes is a graduate of the Maine State Normal School, and well equipped for the duties of her position. Good progress was made in all branches taught, and thoroughness was a prominent feature of her work. The teacher, however, did not have the unanimous support of the parents, which may account in part for a very low per cent. of attendance.

S.

## LITTLE POND.

The three terms of the past year were taught by Miss Georgia A. Foster. Though a difficult school in some respects, the year's work has been successful. Miss Foster is a teacher of experience whose faithfulness is seen in every detail of school management.

S.

## BOROUGH SCHOOL.

This is one of our larger schools, over thirty names appearing on the register for the winter term. One of the obstacles in the way of best results here, as in most of our schools, is irregularity in attendance. Miss Hannah M. Stanyan has taught this school during the past year. She is a successful teacher, and has gained the respect of both parents and scholars.

S.

## VIRGIN SCHOOL.

This is a very pleasant school, and has been under the care of Miss Ida B. Sleeper, a teacher of experience, who is perfectly at home in the schoolroom. Good advancement was made, and the school was one of profit. Great interest was manifested at the closing examination, there being twenty-five visitors present.

V.

## TURTLETOWN SCHOOL.

The summer term was taught by Miss Mabel Virgin; the fall and winter terms by Miss Bessie E. Virgin. This is a small school, there being but seven pupils enrolled. Good interest was manifested.

V.

## PLAINS SCHOOL.

This school has been under the instruction of Miss Mae E. Morrill, of Amesbury, Mass., who has been a kind and useful teacher, giving good satisfaction to both parents and pupils. The names of ten scholars were enrolled.

V.

## MOUNTAIN SCHOOL.

Mr. S. L. French, a teacher of many years' experience, has had charge of this school for several successive terms. Good discipline, thoroughness, and attention to duties, were the elements of success in this school. This is a school of twenty-five scholars, but has been much broken up the past term on account of sickness. There were over twenty visitors present at the close, and much interest was manifested.

ALBERT SALTMARSH,  
GEORGE T. ABBOTT,  
FALES P. VIRGIN.

*School Board.*

## TREASURER'S REPORT.

The treasurer of the Town School District of Concord, respectfully submits the following report of the receipts and expenditures for the year ending March, 1902.

Received as follows :

Balance March, 1901 . . . . .	\$15.39
Town of Loudon . . . . .	8.10
Appropriated by city . . . . .	2,316.48
"    "    for text-books . . . . .	211.20
"    by district . . . . .	800.00
Literary fund . . . . .	107.03
Dog licenses . . . . .	82.18
Town of Loudon, Maynard tax . . . . .	13.05
	<hr/>
Total receipts . . . . .	\$3,553.43

Paid as follows :

Teachers' salaries . . . . .	\$2,707.65
Books . . . . .	129.38
Supplies . . . . .	16.93
Fuel . . . . .	217.00
Repairs . . . . .	141.52
Conveying scholars . . . . .	60.00
Incidentals . . . . .	186.21
Hopkinton school district . . . . .	15.32
Truant officer . . . . .	3.00
District treasurer . . . . .	25.00
Printing . . . . .	6.00
Cash to balance account . . . . .	45.42
	<hr/>
Total expenditures . . . . .	\$3,553.43

ISAAC N. ABBOTT,

*Treasurer.*

# TREASURY DEPARTMENT.

ANNUAL REPORT FOR THE YEAR 1901.

## TRUST FUNDS.

CITY TREASURER'S ACCOUNTS AS CUSTODIAN OF TRUST FUNDS.

### ABIAL WALKER TRUST.

For the benefit of the School Fund.

Capital . . . . .	\$1,000.00
Income received, 1901 . . . . .	32.50
Paid into the city treasury . . . . .	32.50

Invested in Merrimack County Savings Bank.

### COUNTESS OF RUMFORD TRUST.

For the benefit of the Concord Female Charitable Society. Income to be applied to the charitable uses and purposes of said society, and under its direction.

Capital . . . . .	\$2,000.00
Income received, 1901 . . . . .	120.00
Paid Fannie E. Minot, treasurer of the society . . . . .	120.00

Invested in Eagle and Phenix Hotel Company 4% notes, secured by mortgage.

### MINOT ENCLOSURE CEMETERY TRUST.

Donated to the city by Abby P. Minot, the income to be expended annually by the Superintendent of Cemeteries for the preservation, care, and embellishment of the burial lots known as the Minot Enclosure, under the direction of the duly appointed officials, or members of the Minot Cemetery Association.

Capital . . . . .	\$3,000.00
Income received, 1901 . . . . .	108.33
Paid H. H. Dudley, treasurer . . . . .	108.33
Invested in City of Concord 3% bonds . . . . .	2,000.00
Merrimack County Savings Bank. . . . .	1,000.00

### DAVID OSGOOD TRUST.

Capital . . . . .	\$200.00
Balance from last year . . . . .	\$163.55
Income received, 1901 . . . . .	11.50
	\$175.05

Capital, \$200, invested in City of Concord 4% bond, and \$100 of income invested in City of Concord 3½% bond.

The purpose of the donor of this trust fund was that the income should be used for the purchase of school-books for poor children; but since the bequest was made, a state law has been enacted that requires the towns and cities to buy all the school-books, consequently the beneficiary of the donor is provided for and for the purpose of the trust no longer exists. This fund, \$200, and accumulations, amount to \$375.05, and same will continue to accumulate forever without any benefit to any object unless some legal action can be taken to divert the income from the specified purpose of the donor.

## RECEIPTS OF BLOSSOM HILL CEMETERY.

## RECEIPTS.

One-half of the receipts from the sale of lots is added annually to the permanent fund. The remaining half, with the amount received for grading of lots sold, together with the amounts received from sundry collections, and income of permanent fund, are added each year to the annual appropriation. The amounts expended on trust funds are paid on a special order from the mayor from the income of individual deposits made with the city for that purpose, said income being used exclusively for the care of the lot specified in each trust.

Albin and W. E. Hunt, lot 112, north addition . . . . .	\$72.00

## RECEIPTS OF OLD NORTH CEMETERY.

Amount received from sundry collections and income of permanent fund are added to the annual appropriation. The amounts expended on trust funds are paid on a special order from the mayor from the income of individual deposits made with the city for that purpose, said income being used exclusively for the care of the lot specified in each trust.

	\$322.97

I hereby certify that I have examined the foregoing accounts of Wm. F. Thayer, City Treasurer, for the year 1901, and find all items of receipt and expenditure therein properly recorded and authenticated by appropriate vouchers, and the several items correctly cast, and the cash balance due the city treasurer to be two thousand one hundred and twenty dollars (\$2,120.00), and as treasurer of the City Water Department, cash balance to be ten thousand eight hundred and two dollars and ten cents (\$10,802.10).

I have also verified the account of the trust and sinking funds of the city, and find such trust and sinking funds invested and the income thereof, for the year 1901, accounted for, as shown by the book of the city treasurer, kept for that purpose.

GEO. K. HAZELTINE,  
*City Auditor.*

January 31, 1902.

# AUDITING DEPARTMENT.

## CITY EXPENSES.

FROM JANUARY 1 TO DECEMBER 31, 1901.

*Being an itemized account, made up from the books of the City Auditor, of the payments made by the City Treasurer on account of*

### RUNNING EXPENSES.

---

The arrangement of the details of expenditure which follows is intended to furnish such information as is desired by the public, and is in accordance with suggestions received from various sources. Items of payment to the same individual at sundry times are included in the aggregate amount given, if paid for the same objects. Every effort has been made to ascertain and pay all the bills for the current year; and in all cases, so far as known, payments of rent, etc., have been made to December 31, 1901, and salaries and committee service have been paid for the full municipal year.

---
